

Blood Donation for Research Study at Texas Tech University Health Sciences Center

Healthy volunteers needed for blood study:

- ✓ Are you a healthy individual?
- ✓ Do you weigh > 110 pounds and are not pregnant?
- ✓ Do you have 5-10 minutes to spare to participate in a research study?

Dr. Tijani is conducting a research study to measure the magnetic behavior of blood.

If you agree to be in this study, you will be asked to go to the Clinical Research Institute (TTUHSC-Lubbock) for consenting and to give a blood sample. No more than 50 milliliters (or a little over 3 tablespoons) of blood will be taken. The entire process will take about five to ten minutes.

If you would like to participate

Please contact the Clinical Research Institute at 806.543.8994
or clinicalresearch@ttuhsc.edu
