# Global Perspectives FILM SERIES

## The Disruptors

Thursday, April 11  
12 - 1 PM on Zoom

ADHD is one of the most commonly diagnosed and widely misunderstood neurological conditions in the world today, affecting nearly 10% of kids and a rising number of adults. But what if having an ADHD brain is actually an asset? This documentary hears from game-changing people about their ADHD, and takes an immersive look at our approach to ADHD that debunks the most harmful myths, intimately taking viewers inside a number of families as they navigate the challenges and the surprising triumphs of living with ADHD.
