

FALL 2024

Global Health Lecture Series

Health Literacy for Local Youth: The Dangers of Cannabis on the Developing Brain

Tuesday, November 19

12 – 1 PM

Zoom ([register here](#))

Please join the Office of Global Health as we host Dr. Molly Setliff, OTR, OTD and Andrew Setliff, MS as they work to improve youth health literacy by addressing the psychosocial implications of cannabis use and the neurobiological effects of THC on the brain's development in individuals ages 12-25.

This event is free and open to the public. No RSVP is required. For more information about the lecture series, please contact the Office of Global Health by [email](#) or visit our [website](#).
