Global Health Lecture Series

Wednesday, April 22

ACB 110

Noon

featuring

Justin Berk, MPH, MBA

TTUHSC School of Medicine - MSIV

Medical and Systemic Challenges in Management of HIV-infected Children in Lesotho, Africa

Justin Berk is a fourth-year medical student who completed a month-long clinical rotation at the Baylor International Pediatric AIDS Initiative (BIPAI) clinic in Lesotho, Africa. He received an MPH from Yale School of Public Health with a concentration in Health Management and Global Health. In July he will begin residency at the combined Internal Medicine/Pediatrics Urban Health Residency Program at Johns Hopkins Hospital.

Almost 1 in 4 people in Lesotho are infected with HIV. Justin's presentation will focus on the experience of treating HIV in a resource-poor setting in Africa. It will include discussion on the epidemiology and sociopolitical context of the disease, outline the patient flow of a non-profit clinic, and highlight how clinical medicine is practiced in such a disenfranchised population.

To learn more about BIPAI, visit their website at <http://www.bipai.org/>.

Want to reserve your meal? Bring 1 pair of blunt tip/rounded scissors to the Office of Global Health (2B410) prior to the day of the lecture and we'll reserve a meal for you!!!!

For more information about the Office of Global Health, please visit our website at www.ttuhsc.edu/globalhealth.
