Student Catalog
2008 – 2009

CATALOG

This catalog, an official publication of Texas Tech University Health Sciences Center (TTUHSC) School of Nursing, contains policies, regulations, procedures, programs, courses, schedules and fees in effect when the *Catalog* is posted on the website. A student is expected to complete the degree requirements set forth in the *Catalog* in effect at the time the student enters the program. Students readmitted to the TTUHSC School of Nursing are expected to complete the degree requirements set forth in the *Catalog* that is current at the time of readmission. Only with the specified approval of the appropriate department chair may a different *Catalog* be selected. In no case may a student complete the requirements set forth in a catalog more than seven years old. The *Catalog* is published at least biennially and its provisions are applicable during the stated school year. Other conditions of graduation and the curriculum program are outlined in detail in the School of Nursing *Student Handbook*.

The provisions of this *Catalog* do not constitute a contract, expressed or implied, between any applicant or student and faculty member in the TTUHSC School of Nursing. The TTUHSC School of Nursing reserves the right to withdraw courses at any time, change fees, calendars, curricula, graduation procedures and any other requirement affecting students. Changes become effective when the proper authorities so determine the application to both prospective students and to the students already enrolled.

TTUHSC is open to all persons, regardless of race, color, religion, disability, sex, national origin or sexual orientation, who are eligible for admission as students. TTUHSC is an Equal Opportunity Institution and no applicant or student will be discriminated against because of race, creed, religion, disability, sex, national origin or sexual orientation during the course of education at this institution.

WELCOME

Texas Tech University Health Sciences Center School of Nursing is an excellent choice for contemporary, state-of-the-art nursing education. When you graduate, you will join our alumni serving in hospitals and clinics, influencing state and national policymakers, conducting research, and teaching in schools of nursing.

The School of Nursing is known for its fine faculty. It is also a pioneer in distance education. These distinctions are among the reasons the school earned a ranking for three years in U.S. News and World Report as one of the top graduate programs in the country.

I commend you on the choice you have made and wish you a rewarding and successful career.

***Kent Hance, Chancellor
Texas Tech University System***

Welcome to Texas Tech University Health Sciences Center where we trust you'll discover an exciting, vibrant, growing university established on a rich foundation of serving the people of West Texas. I congratulate you on selecting a profession in which you will dedicate yourself to improving the lives of others.

At the School of Nursing you have the opportunity to learn from a nursing faculty recognized nationally as experts in their field and to perfect your skills in a state-of-the-art environment. The school's interdisciplinary approach to education will prepare you for the collaborative nature of today's health care work force.

Thank you for joining in our mission of improving the health of people in West Texas and beyond.

***John Baldwin, M.D., President
Texas Tech University Health Sciences Center***

From here the possibilities for your professional nursing career are infinite. Whether your goal is to complete a bachelor's, master's or doctoral degree our rich diverse learning experiences and expert faculty will prepare you for the challenges ahead. Your educational journey will give you opportunities to contribute through practice, education, scholarship, and service.

You have chosen to join a school with a proud tradition of providing well-prepared nurses. Currently, the school has approximately one thousand students enrolled and provides approximately three hundred nursing graduates annually to serve in West Texas and the region.

We welcome you to the Texas Tech University Health Sciences Center School of Nursing and look forward to joining you in launching a successful nursing career.

***Alexia Green, Ph.D., R.N. FAAN, Dean and Professor
Texas Tech University Health Sciences Center School of Nursing***

TEXAS TECH UNIVERSITY HEALTH SCIENCES CENTER

MISSION

The mission of the Texas Tech University Health Sciences Center is to improve the health of people by providing educational opportunities for students and health care professionals, advancing knowledge through scholarship and research, and providing patient care and service. The Texas Tech University Health Sciences Center fulfills its higher education mission by achieving the following strategic goals:

- Train competent health professionals and scientists
- Increase externally funded, peer-reviewed research, especially NIH-funded research, and research focused on aging, cancer, and rural health
- Improve access to quality health care for the TTUHSC target populations
- Prepare health professions students for an increasingly diverse workforce and patient population
- Provide leadership in the development of partnerships and collaborations to improve community health
- Operate TTUHSC as an efficient and effective institution

VISION

Texas Tech University Health Sciences Center will be recognized nationally as a top-ranked health sciences university.

SCHOOL OF NURSING

MISSION

The primary mission of Texas Tech University Health Sciences Center School of Nursing is to provide quality educational programs and advance excellence in health care for diverse populations through programs of scholarship, research, clinical services, and service.

VISION

The School of Nursing will be nationally recognized, propelled by visionary leadership, innovative educational programs, and a commitment to robust research and practice programs.

VALUES

Our values adhere to the highest standards of integrity and quality related to innovative education, clinical services, research, and service. We value;

- individual uniqueness
- a spirit of trust, caring, open communication, and team work
- loyal, creative, and culturally diverse students, faculty, and staff
- a dedicated community of stakeholders

STRATEGIC GOALS

1. Enhance educational programs to narrow the gap between education and clinical services.
2. Develop and implement robust evidence-based research and clinical services programs.
3. Advocate for and promote the social relevance of the nursing profession.
4. Increase the diversity and cultural competence of students, faculty, and staff.
5. Develop and implement innovative strategies to address the nursing shortage.
6. Operate the School of Nursing as an effective and efficient organization.

The School is committed to serving the rural, disadvantaged, and aging communities of West Texas. This commitment is exemplified by the clinical services enterprises operated by the School which serve these populations and provide learning sites for our students.

At the undergraduate level, the School offers a baccalaureate program in Lubbock. The school also offers baccalaureate in nursing degrees for professionals with baccalaureate degrees in another field and registered nurses with an associate degree in nursing or diploma nursing preparation. Specialized nursing preparation is offered at the Master's level in administration, education, and practitioner roles. The Nurse Practitioner Program includes family, acute care, geriatric, and pediatric options in Lubbock, Odessa, and the Hill Country. The School offers doctoral education through a Doctor of Nursing Practice (DNP) program with a focus on advanced nursing practice and executive leadership. The School also participates in a collaborative program with Texas Woman's University to provide the PhD in Nursing.

The School is committed to life-long learning of health care providers throughout rural West Texas. The faculty serve these rural communities by providing expert continuing education.

BRIEF HISTORY

Texas Tech University and Texas Tech University Health Sciences Center

Texas Tech University (TTU), which was founded in 1923 and enrolled its first students in the fall of 1925, is a state-supported, coeducational institution comprising the instructional colleges of Agricultural Sciences and Natural Resources, Architecture, Arts and Sciences, Business Administration, Education, Engineering and Human Sciences; the School of Law; the Graduate School and a number of special departments and divisions. Graduate work has been offered at TTU since 1927. The 61st Legislature of the State of Texas authorized the creation of the Texas Tech University School of Medicine as a separate educational institution. The Texas Tech University Health Sciences Center (TTUHSC) was officially designated by the 66th Texas State Legislature. Together with TTU, the Schools of Allied Health, Graduate Biomedical Sciences, Medicine, Nursing, and Pharmacy are classified as a Research institution.

Lubbock, the home of TTU & TTUHSC, has over 200,000 people residing here. It is situated on the South Plains of West Texas at an altitude of 3,250 feet. Dry, crisp air and sunny days throughout practically the entire year provide a healthy and invigorating climate. The university campus, a contiguous tract of 1,839 acres, lies at the western edge of the business section of the city. University buildings number 245, including the Lubbock campus, Junction campus, Pantex campus, agricultural field laboratories at New Deal, and campuses in Abilene, Amarillo, Dallas, El Paso, Odessa and Fredericksburg/Marble Falls. The present plant value is approximately \$230 million.

Texas Tech University Health Science Center School of Nursing

The School of Nursing (SON) was officially approved for funding by the 67th Legislature in 1981. This followed a period of development beginning with its initial approval in 1975 by the Coordinating Board, Texas College and University System and approval for program development by the Board of Nursing for the State of Texas that same year. The Continuing Nursing Education (CNE) program was initiated in 1979. The first students were admitted to the undergraduate degree program in the Fall 1981. This marked the initiation of a curriculum designed to admit students with no previous nursing course work and licensed vocational nurses, and registered nurses into a program culminating in the Bachelor of Science in Nursing degree. The Odessa program began in Fall 1985. In Fall 1988, a graduate program was initiated to meet the increasing demands for nurses prepared at the master's level to provide complex, comprehensive care. Online courses were initiated in 1998 in the Graduate Program. Online education was initiated in 1999 with the RN to BSN program. In 2005 an accelerated second degree program (2^o w BSN) and RN-MSN programs were established through funding provided by the Health Resources and Services Administration (HRSA). In October 2007, the Texas Higher Education Coordinating Board approved the Doctorate of Nursing Practice (DNP) program and the inaugural DNP class was admitted to start course work in the 2008 summer semester.

Texas Tech University Health Sciences Center Accreditation

Texas Tech University Health Sciences Center is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award bachelor's, master's, doctoral, and professional degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia, 30033-4097, or call 404.679.4500 for questions about accreditation of Texas Tech University Health Sciences Center. The Commission should be contacted only if there is evidence that appears to support the institution's significant non-compliance with a requirement of standard.

School of Nursing Program Accreditation

In November 1982, the undergraduate program received full accreditation from the Board of Nursing for the State of Texas and in December 1983, the National League for Nursing granted initial accreditation, which was retroactive prior to the first graduation in June 1983. The graduate program received initial accreditation in March 1992. The School of Nursing programs are currently accredited by the Commission on Collegiate Nursing Education (CCNE) and the Board of Nursing for the State of Texas. The CCNE can be contacted at One DuPont Circle, NW Suite 530, Washington, DC, or by phone at 202—887-6791, or by visiting the CCNE website at www.aacn.nche.edu. The Board of Nursing for the State of Texas can be contacted at 333 Guadalupe #3-460, Austin, Texas, 78701, or by telephone at 512-305-7400..

In July 1980, the TTUHSC School of Nursing Continuing Education Program was first accredited by the Western Regional Accrediting Committee of the American Nurses' Association as a provider of continuing education in nursing. That accreditation, now offered through the American Nurses Credentialing Center, remains in effect. The official accreditation statement is:

Texas Tech University Health Sciences Center School of Nursing Continuing Nursing Education Program is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

GENERAL INFORMATION

Undergraduate Program

Undergraduate Traditional Studies

Traditional Track

Department Chair – Donna C. Owen, PhD, RN

For students who are not registered nurses, the baccalaureate degree program at the Health Sciences Center offers the student the opportunity to complete the degree in six consecutive semesters, with admission once each year during the second summer session. Students must complete the nursing courses in sequential order.

Undergraduate Non-Traditional Studies

2^o to BSN Track

Department Chair – Cathleen Collins, PhD, RN

For students with a non-nursing baccalaureate degree who reside in the Austin/Hill Country, Lubbock, Permian Basin, and Abilene communities, a second degree web-based accelerated baccalaureate nursing degree program is offered in a 12-month full time curriculum. This program admits students in January or August of each year and requires completion of all pre-requisite courses before entry. The program allows completion of 61 semester credit hours of upper division coursework for the BSN while remaining in the student's community.

RN to BSN Track

Department Chair – Cathleen Collins, PhD, RN

For students who are registered nurses, the RN-Baccalaureate program (RN-BSN) originates from the Health Sciences Center in Lubbock via web-based education offering the full-time student the opportunity to complete the degree in two semesters, with admission each semester (Fall, Spring, or Summer). Further information about this program can be located in the RN-BSN section of this Catalog. Contact the RN-BSN Coordinator to discuss degree plan options.

Graduate Program

Leadership Studies (Education, Administration, & Doctoral Studies)

Department Chair – Barbara Cherry, DNSc, MBA, RN, NEA-BC

Master of Science in Nursing – Administration Track

Students who complete the MSN with a nursing administration focus are prepared to assume nursing leadership and management positions in a variety of health care settings. The BSN is the required entry level for the MSN in nursing administration. Students complete the program via a combination of on-line and on-campus course offerings. Further information about this program is located in the Graduate Program section of this catalog.

Master of Science in Nursing – Education Track

Students interested in a career as a nurse educator have two options for graduate nursing education. First, the MSN with a focus on leadership in nursing education is designed for the BSN entry-level student who desires a career in nursing education. Students complete the program via on-line courses and practicum experiences. Further information about the MSN in nursing education is located in the Graduate Program section of this catalog. Second, the RN to MSN Rural Educational Leadership is a collaborative program between the School of Nursing's Graduate and Undergraduate Programs and is designed for registered nurses who have an associate degree or diploma in nursing and wish to pursue a graduate degree focused on nursing education in rural communities. This rigorous "bridge" program moves the student directly from Bachelor's level courses to Master's level courses and is completed through on-line course offerings and practicum experiences. The associate degree/diploma student does not receive the BSN degree but instead progresses towards graduating with the MSN degree.

Doctorate of Nursing Practice (DNP)

The Doctorate of Nursing Practice (DNP) is a terminal degree designed for post-masters advanced practice nurses and clinical administrative leaders. DNP graduates will have the essential competencies to provide the highest level of clinical care and leadership necessary to advance the healthcare system. For the advanced practice nursing specialty, students must be a masters-prepared nurse practitioner with certification in a primary care area. For the executive leadership specialty, students must be masters prepared with experience in a healthcare leadership position. The primary goal of this doctoral program is to prepare graduates for clinically intensive leadership careers including advanced clinical practice, executive leadership, applied clinical research and faculty teaching roles. The program is designed as a combination of on-line and on-campus intensives. Further information about this program can be located in the Graduate Program section of this catalog.

PhD in Nursing

The PhD in Nursing is a collaborative program with Texas Woman's University College of Nursing (TWU) and TTUHSC School of Nursing. The primary goal of the doctoral program is to develop leaders and scholars who will make a significant contribution to the nursing profession in the discovery, integration, application, and dissemination of knowledge. There are three sites for doctoral course offerings – Denton, Houston and Lubbock. The PhD degree is awarded by TWU in accordance with program policies of the TWU Graduate School and the TWU College of Nursing. Visit the TWU website at www.twu.edu for further information.

Nurse Practitioner Studies (Family, Acute Care, Geriatric, Pediatric)

Department Chair – Emily Merrill, PhD, RN FNP BC

Master of Science in Nursing – Family Nurse Practitioner (FNP) and Post Masters FNP Track

This track prepares graduates to assume a primary care provider role for the family (infants, children, adolescents, adults, and older adults). FNPs practice primarily in ambulatory care settings including rural and underserved areas.

Master of Science in Nursing – Acute Care Nurse Practitioner (ACNP) and Post-Masters ACNP Track

This track prepares graduates to assume responsibilities for promoting, maintaining, and restoring health to adults who are acutely or critically ill. While most ACNPs practice in acute care and hospital based settings including emergency care and intensive care settings, the continuum of care includes urgent care and ambulatory care.

Master of Science in Nursing – Pediatric Nurse Practitioner (PNP) and Post-Master PNP Track

This track prepares graduates to assume a primary care provider role for children, adolescents, and young adults in multiple health care delivery settings including rural and underserved areas.

Master of Science in Nursing – Geriatric Nurse Practitioner (GNP) and post-master's GNP Track

This track prepares graduates to assume a primary care provider role for older adults in multiple health care delivery settings including private practice, ambulatory clinics, acute care, long-term facilities, and the patient's home.

Upon completion of course requirements, graduates of the master's and post-master's programs are eligible to sit for one or more of the following certification exams:

- National Certification Board of Pediatric Nurse Practitioners (PNCB) Exam (PNP)
- American Nurses Credentialing Center (ANCC) Exam (ACNP, GNP, FNP, PNP)
- American Academy of Nurse Practitioners Certification (AANP) Exam (FNP, GNP)
- National League for Nursing Nurse Educator Exam (CNE)

Practice and Research

Associate Dean – Christina R. Esperat, PhD, RN, FAAN

Faculty within the School of Nursing may choose development of either a research or clinical studies program. The School of Nursing maintains an active Clinical Studies Program. Faculty participate in the delivery of care to residents of West Texas in many institutions and health care facilities. The School of Nursing operates sites for direct access to services by community clients at the Larry Combest Community Health & Wellness Center (Lubbock).

The research program is designed to provide assistance and support for faculty to promote their research interests and to develop proposals for their funding and implementation of research projects. Current research initiatives focus on improvement of the health of diverse populations through collaborating efforts and providing opportunities for all nursing students to be actively involved in faculty research projects. The Larry Combest Community Health & Wellness Center in Lubbock serves medically-underserved populations. This is a nurse-managed center, and faculty and staff provide primary care services to clients over the life span. The Larry Combest Community Health & Wellness Center provides essential health care access points for residents of the community who are otherwise unable to obtain the needed services for health promotion and disease prevention. The Larry Combest Community Health & Wellness Center is supported by funding from the School of Nursing, federal grants, and reimbursements from third party payors.

Outcomes Management and Evaluation

Associate Dean – Yondell Masten, PhD, RN, C, WHNP, CNS

The School of Nursing outcomes management and evaluation focus is based on the concept of continuous quality improvement, supported by the Texas Tech University System. Data are collected each semester, quarter, and/or annually for decision-making and documentation of the School of Nursing achievement of the goals of the Strategic Plan. Graduate and undergraduate students participate in decision making and documentation of Strategic Plan goal achievement by providing valuable data via completion of evaluation tools and by serving as representatives on School of Nursing committees and task forces.

Continuing Nursing Education

Director – Shelley Burson, MEd

The TTUHSC School of Nursing Continuing Nursing Education (CNE) program provides many learning opportunities for nurses. The TTUHSC School of Nursing CNE Program is accredited as a provider of continuing nursing education by the American Nursing Credentialing Center's Commission on Accreditation. General service offerings are held at TTUHSC in Lubbock and Odessa. *Nursing students are invited to attend the general service offerings for half price.* Calendars listing these offerings may be obtained in the CNE program office, which is located in the Faculty Support Services atrium and in Odessa Campus Regional Dean's Office. Personal Order Service offerings, courses specifically designed and taught on-site, are held with more than ten hospitals and/or agencies in West Texas. This service has been referred to as "CNE on Wheels" and is beneficial to nursing staff who find it difficult to travel across West Texas to seek their continuing education.

The CNE program also co-provides educational activities with the TTUHSC Office of Continuing Medical Education, the TTUHSC Garrison Institute on Aging and other TTU/TTUHSC departments, which are typically multidisciplinary events. For additional information about the CNE program, please call the office at (806) 743-2734 or visit the web page at <http://www.ttuhsc.edu/son/cne/>.

Americans with Disabilities Act (ADA)

Students seeking accommodations on the basis of disability must register with the office of TTUHSC Student Services at www.ttuhs.edu/student-services and the TTUHSC Director of Student Services, Lubbock Campus (806-743-2300). The Director of Student Services, Lubbock Campus will notify the appropriate School of Nursing Department Chair of the student's need for accommodations. Review the TTUHSC ADA policy located on the TTUHSC Student Services website. For further information, see www.ttuhs.edu/student-services/ada.

Confidentiality/Health Insurance Portability and Accountability Act of 1996 (HIPAA)

The School of Nursing is dedicated to ensuring each student is current in issues as they relate to nursing practice and research. One such regulation includes the Health Insurance Portability and Accountability Act (HIPAA). Each student is required to provide proof of education in HIPAA training at the beginning of their enrollment in the School of Nursing. Certificates of compliance are not transferable from another institution because HIPAA certification is institution specific. Thus, all students must take the TTUHSC HIPAA training and provide evidence of compliance certification. Students will receive information regarding HIPAA training and will be asked to sign a Confidentiality Agreement during New Student Orientation. All proof of training will be placed in the student's advising file located in the appropriate Department Chair's Office. Those who cannot show proof will not be allowed to attend clinical. In addition, release of confidential information (including verbal communications, written communications or electronic communications with or about patients or involving patient health information to anyone who does not need the information for treatment, payment or health care operation) is a cause for dismissal from the School.

Family Educational Rights and Privacy Act (FERPA)

The Family Educational Rights and Privacy Act of 1974 ("FERPA") (20 U.S.C.A. Section 1232g) affords certain rights to students concerning their educational records. FERPA grants students the right to inspect and review their educational records (with exceptions), to request that their records be amended, to have limited control over the disclosure of information contained in their records, and to file a complaint with the U.S. Department of Education concerning alleged failures of the University to comply with the requirements of FERPA. The *TTUHSC Student Affairs Handbook* shall serve as the annual notification that must be provided to students under FERPA, 34 C.F.F. 99.7, unless individual TTUHSC schools annually notify their students of FERPA rights otherwise.

State Privacy Policies

When TTUHSC "collects information about an individual by means of a form that the individual completes and files with the governmental body in either a paper format or an electronic format", the paper forms or the Internet site used in connection with the electronic form must state:

- with few exceptions, the individual is entitled on request to be informed about the information that the state governmental body collects about the individual;
- the individual is entitled to receive and review the information;
- the individual is entitled to have the state governmental body correct information about the individual that is incorrect

If TTUHSC collects information about a website user on its Internet site, including his or her identity and computer network location, TTUHSC must post what types of information are being collected about the website user on the Internet site. Finally, TTUHSC must establish a reasonable procedure to correct information about an individual.

Smoke-Free Campus

The TTUHSC is committed to the health of our students, patients, faculty, staff and the public in general. As an institution whose mission is to provide excellence in health care education and service, we are a smoke-free campus.

ESSENTIAL ELIGIBILITY REQUIREMENTS FOR PARTICIPATION IN THE TTUHSC SCHOOL OF NURSING

The following essential eligibility requirements for participation in the School of Nursing and examples of necessary activities (not all inclusive) should be used to assist each applicant/student in determining whether accommodations or modifications are necessary.

Essential Functions	Examples of Necessary Activities
Critical thinking abilities sufficient for clinical judgment.	Identify cause/effect relationships in clinical situations; develop nursing care plans.
Interpersonal abilities sufficient to interact with individuals, families, and groups from a variety of social, emotional, cultural, and intellectual backgrounds.	Establish rapport with patients/clients and colleagues.
Communication abilities sufficient for interaction with others in verbal and written form.	Explain treatment procedures, initiate health teaching, document and interpret nursing actions and patient/client responses.
Abilities sufficient to move from room to room and to maneuver in small places.	Move around in patients' rooms, work spaces, treatment areas, and administer cardio-pulmonary procedures.
Abilities sufficient to provide safe and effective nursing care.	Calibrate and use equipment; position patients/clients.
Abilities sufficient to monitor and assess health needs.	Ability to hear monitor alarms, emergency signals, all auscultatory sounds, and cries for help.
Abilities sufficient for observation and assessment necessary in nursing care.	Observe patient/client responses.
Abilities sufficient for physical assessment.	Perform palpation, auscultation, percussion and observational functions of physical examination and/or those related to therapeutic intervention, e.g. insertion of a catheter.

ADA Guidelines apply to all qualified disabled persons. A qualified disabled person is a person with a disability who, with or without reasonable modifications to rules, policies, or practices, the removal of architectural, communication, or transportation barriers, or the provision of auxiliary aids and services, meets the essential eligibility requirements for the receipt of services, or the participation in programs or activities provided by a public entity **and** who can perform the “**essential functions**” of the position. For further information, see www.ttuhschool.edu/student-services/ada/.

STUDENT LIFE

Activities, Athletics, Entertainment, and Recreation

As a member of the National Collegiate Athletic Association and the Big 12 Conference, Texas Tech provides intercollegiate programs for men and women. As part of the TTU System, TTUHSC students participate in football, volleyball, basketball, baseball/softball, soccer, track and field, golf and tennis with other members of the conference. The other universities of the Big 12 Conference are Baylor, Texas, Texas A&M, Colorado, Oklahoma, Oklahoma State, Kansas, Kansas State, Iowa State, Nebraska and Missouri.

In Lubbock, the TTUHSC campus is located in close proximity to the TTU campus. TTUHSC campus also includes a Synergistic Center affording students easy access to both recreational and entertainment facilities. The Student Recreational Center and University Center (Lubbock) are two of the most popular buildings on campus for out-of-class student activities. The various cultural, social, educational and recreational programs include:

- | | | |
|-------------------------------------|---|--|
| <input type="checkbox"/> ballrooms | <input type="checkbox"/> meeting rooms | <input type="checkbox"/> gymnasium facilities |
| <input type="checkbox"/> theaters | <input type="checkbox"/> lounge & TV areas | <input type="checkbox"/> weight rooms & saunas |
| <input type="checkbox"/> snack bars | <input type="checkbox"/> intramural sports | <input type="checkbox"/> indoor archery range |
| <input type="checkbox"/> cafeteria | <input type="checkbox"/> indoor-outdoor swimming pool | <input type="checkbox"/> multipurpose arenas |

| <input type="checkbox"/> foosball | <input type="checkbox"/> ping pong | <input type="checkbox"/> TTUHSC Synergistic Center |

For more information about student organizations, fraternities or sororities you may contact the TTUHSC Student Services office at 806-743-2300. For information about the TTU recreational center and activities contact the Activities Office at 742-3621.

Awards

The School of Nursing participates in and offers numerous awards including:

- Who's Who Among American Universities and Colleges – Undergraduate & Graduate Students
- Excellence In Nursing – Undergraduate & Graduate Students

Clinical Simulation Center

The Clinical Simulation Center (CSC), located on the Lubbock campus, provides a unique environment where student learning and evaluation are facilitated through simulation. The CSC provides a realistic learning environment where students learn and develop clinical competencies in a non-stressful environment. Faculty and students from the School of Nursing, Medicine and Allied Health use the facilities, simulators, mannequins, equipment and supplies available in the CSC.

Computer Requirements

A considerable amount of time will be spent utilizing the resources available via the internet in all School of Nursing programs, including email. *Owning a personal computer is required to succeed in the program. Daily computer access is expected for all students.* The following website has specific computer system recommendations: [Computer System Requirements](#).

Employment

The decision to work while enrolled as a student in the School of Nursing rests with the individual student; the school assumes no responsibility for student employment. A student employed in a healthcare agency has responsibility, personally and professionally, to accept and engage in only those activities which fall within the position description for which he/she is qualified and which are not in conflict with legal and accreditation expectations.

Health Services

Students enrolled at the Lubbock campus can access Student Health Services through the Family Practice Clinic located on the first floor of the TTUHSC. All students enrolled in TTUHSC are expected to carry personal health insurance.

Housing

Although students of the School of Nursing have access to TTU on-campus housing, it is not mandatory. For more information on housing, contact the TTU Housing Office at (806) 742-2661.

HSC Testing Center

The Testing Center is located on the Lubbock campus and provides computerized testing for the School of Nursing.

Preston Smith Library

The TTUHSC Libraries of the Health Sciences in Lubbock, Amarillo, El Paso, and Odessa presently contain more than 305,436 bound volumes, of which over 207,000 are located in Lubbock and Odessa. Over 35,000 electronic books are also available. The system has 1,277 print journal subscriptions and approximately 15,000 electronic journals available at all TTUHSC sites. Over 16,140 audiovisuals are also available. The libraries feature study carrels, interlibrary loan and photocopy services, reference services, and Internet access/connectivity. The Preston Smith Library of the Health Sciences, a 50,000 square foot facility, which opened during the Summer of 1998 on the Lubbock campus, features 28 group study rooms and a 64 station Learning Resource Center (LRC).

Numerous online databases are available for use including: MEDLINE, CINAHL Plus with Full Text, anatomy.tv, Natural Medicines, Health and Psychosocial Instruments, International Pharmaceutical Abstracts, MICROMEDEX, PsycINFO, MedlinePlus, PubMed, Web of Knowledge, Netter Presenter, and ERIC, as well as general and academic TexShare databases. Ovid full-text Nursing Collections, MDCConsult with full-text, Science Direct full-text electronic journals and a full array of electronic books are also accessible. Off-site access to licensed electronic resources is available via a proxy server to all TTUHSC faculty, staff, and students. The four libraries of the TTUHSC system have a common online catalog for access to holdings at all TTUHSC libraries. Nursing students also enjoy access to the TTU Library, with more than 1.5 million items, including U.S. Government documents and science holdings.

ORGANIZATIONS

Department Advisory Councils (Undergraduate & Graduate)

For purposes of promoting the TTUHSC School of Nursing, three advisory councils exist to maintain open communication between students and administration/faculty/staff: The Undergraduate Department Chair's Advisory Council, The Non-Traditional Undergraduate Department Chair's Advisory Council, and the Graduate Department Chairs' Advisory Council. Through the Department Advisory Councils, student representatives advise the administration on ways to improve the educational process while enrolled in the School of Nursing. Student representatives volunteer or are selected by the Department Chairs to serve on the Department Advisory Councils and are expected to represent their fellow students by bringing forth issues of importance to be addressed by the Council.

Mentoring Advanced Practice Students (MAPS)

The purpose of this mentoring program is to provide new School of Nursing graduate students with an opportunity to network with a knowledgeable colleague already enrolled in the Graduate Program. Contact the appropriate Department Chair office to obtain more information about joining this organization.

PROFESSIONAL SOCIETIES

Iota Mu chapter of Sigma Theta Tau, the International Nursing Honor Society

Membership is by invitation and is based on outstanding scholarly activities.

Phi Kappa Phi

Membership is by invitation to top performing juniors, seniors, and graduate students.

Golden Key

Membership is by invitation to the top 15% of juniors, seniors, and graduate students.

Student Government Association

The School of Nursing is represented on the TTUHSC Student Senate. The positions on the TTUHSC Student Senate are elected from the undergraduate and graduate programs. For more information regarding the Student Senate, contact the Student Services Office at (806) 743-2300.

Texas Nursing Students' Association

Voluntary membership in the Texas Nursing Students Association, pre-professional society, is available. This award winning group is highly active at school, state and national levels.

STUDENT ASSISTANCE PROGRAM

The Program of Assistance for Students (PAS) is a resource to help students function well in their personal and academic life. PAS services are available to students and any member of their household. PAS counselors are able to assist students with all types of problems including family or relationship problems, depression, anxiety, and stress. Students are entitled to five (5) free sessions per academic year. PAS consultations are private and professional and students can call the PAS offices directly (806-743-1327 or 800-327-0328) to schedule an appointment.

UNIVERSITY COUNSELING CENTER

The University Counseling Center (Lubbock) offers a number of services to TTUHSC students including:

- career, vocational, and academic counseling;
- personal problems, crisis intervention and adjustment counseling;
- marital and premarital counseling;
- study techniques program;
- group experiences such as interpersonal skills and personal growth groups;
- assertiveness and relaxation training; and
- occupational information reading room.

All of the above services are offered free of cost by calling (806) 742-3674. For the student at a distance, contact your Department Chair for specific assistance.

INTERNATIONAL (NON-IMMIGRANT) APPLICATION POLICY

International students who are not living in the United States (US) at the time of application should apply one year in advance. Applicants should follow the same procedure and meet the same minimum criteria for admission consideration as all other students who are applying for a particular program.

To avoid difficulties in the application process it is strongly recommended to be **sure the name filled in on the application is the full legal name of the applicant. This must be the name that appears on the passport. The name, as it appears on the application, should also be the same on each of the documents and test score reports.**

In addition to stated admission requirements, applicants with foreign academic credentials must:

- Provide academic records in the original language with certified English translation and United States equivalency.
- ***Test of English as a Foreign Language (TOEFL)***: Students whose predominant tongue is not English must also present a score of at least 550 (paper exam), 213 (computer exam), or 79 (internet) on the TOEFL (This includes permanent residents of the US). The TOEFL requirement may be waived if the student has graduated from a US high school with a minimum of two years attendance or if the student is a citizen of a country where English is the native language.

Countries commonly known to be considered to have English as the predominant language include:

Australia, Canada (except the Province of Quebec), Commonwealth Caribbean countries (Anguilla, Antigua, the Bahamas, Barbados, Belize, British Virgin Islands, Bermuda, Cayman Islands, Dominica, Grenada, Guyana, Jamaica, Montserrat, St. Kitts and Nevis, St. Lucia, St. Vincent, Trinidad and Tobago, and Turks and Caicos Islands), Ireland, Liberia, New Zealand, United Kingdom (England, Northern Ireland, Scotland, Wales), and the United States.

Applicants holding degrees from US colleges and/or universities are not required to submit TOEFL scores. Information concerning the TOEFL may be obtained from Educational Testing Service, P. O. Box 899, Princeton, New Jersey 08540, US, or their website – www.toefl.org.

Upon acceptance to the School of Nursing, the international student (non-immigrant) must furnish original documents or official certified copies indicating the nature and scope of their educational program, as well as citizenship, finance and visa information. These documents should be sent to the Office of International Affairs. The contact information for this office is: Office of International Affairs, International Cultural Center, TTU, and P.O. Box 45004, Lubbock, TX 79409-5004. Phone: 806-742-3667. FAX: 806-742-1286. Web: www.iaff.ttu.edu.

FINANCIAL INFORMATION

Immediately upon acceptance of an offer of admission the student pays a non-refundable \$100 placement guarantee fee. Failure to pay the fee will result in forfeiture of the offer of acceptance.

To enable the student to approximate expenses an estimated average cost for a 12-month period is provided from the Financial Aid Office. These estimates are based on the 2008 - 2009 (Fall, Spring, Summer) school year.

Tuition and Fees

	Traditional BSN Track		RN-BSN Track		2 ^o wBSN Track		Graduate Studies	
	Resident	Non-Resident	Resident	Non-Resident	Resident	Non-Resident	Resident	Non-Resident
Tuition	\$ 5,724	\$ 16,656	\$ 5,724	\$ 16,656	\$ 6,666	\$ 19,584	\$ 4,716	\$ 11,430
Fees	2,621	2,621	2,621	2,621	12,951	12,951	2,395	2,395

Total	\$ 29,328	\$ 40,260	\$ 27,243	\$ 38,175	\$ 37,018	\$ 49,936	\$ 31,694	\$ 38,408

There is an installment plan available for fall and spring terms only. An Installment Option Fee is charged per semester to students who use the installment payment plan. There is no installment option for the summer semester due to the shortened length of the semester. Tuition is paid to TTUHSC. Further questions regarding tuition and fees should be directed to the TTUHSC Bursar's Office at (806)743-1880.

Refund Policies for Tuition and Fees

Information concerning payments and refunds can be obtained from the TTUHSC Bursar's Office website at www.fiscal.ttuhsc.edu/busserv/bursar or 806-743-1880.

Financial Aid

Grants and loans are available through the TTUHSC Financial Aid Office (806-743-3025) www.ttuhsc.edu/financialaid. All students interested in receiving grants, loans and scholarships are required to complete a Free Application for Federal Student Aid (FAFSA) to be sent to TTUHSC. The FAFSA must be completed to receive a scholarship from the School of Nursing. The FAFSA can be completed on the FAFSA website at www.fafsa.ed.gov.

Financial aid award letters to other colleges and universities including TTU are not transferable to TTUHSC. Separate financial aid applications are required for TTU and TTUHSC. Contact the TTUHSC Financial Aid Office during the School of Nursing application process.

SCHOLARSHIPS

The School of Nursing has the following dedicated scholarships

Allensworth	Joan Bailey Merritt
American State Bank Presidential Endowed	Earline V. Mitchell
Burrell Family	Nancy Neal Mitchell
Jewel Benton	Nurse Practitioner
Carroll Family	Nursing Non-Resident
James A. "Buddy" Davidson	Nursing Resident (Graduate)
Dean's Discretionary	Nursing Resident (Traditional Undergraduate)
Disadvantaged Student	Nursing Resident (Non-Traditional Undergraduate)
Diversity and Multicultural Affairs	Overby Endowed
E.A. Franklin Presidential	President's Council
E.A. Franklin Trust & Giles McCrary	Roberts Endowed
Graduate Student Potential	Marshall Verne Ross
William Hurst	Rushing Family
Velma Brandon Heath	Sherill Skibell
V.E. Holland	Preston Smith
John Hurt	Mary Nell Sowell
Trixie and Erin Janssen Scholarship	Shirley and Mildred Garrison
Louis B. Ketner	SON Endowed
Larabee	SON General
Earline Mills Lewis	Texas Higher Education Coordinating Board
Mary Lowell Endowed	William Tinney
Lubbock Women's Club – Helen DeVitt Jones	William Wehner
Mary Ann Lubno	American State Bank Graduation Award

In addition, there are general scholarships and loans administered by the Financial Aid Office for which School of Nursing students are eligible. Some organizations, such as the United Methodist Women, the Texas Tech University Health Science Center Alumni & Friends organization, the Lubbock-Crosby-Garza Medical Auxiliary, the Texas Higher Education Coordinating Board, a private Permian Basin Area Foundation, and the Lubbock Foundation provide scholarships on a consistent basis for nursing students. Some traineeships are available for graduate students.

For further information regarding scholarships, please contact: School of Nursing Scholarship Office at sonscholarships@ttuhsc.edu. For information regarding grants, loans, and policies, please contact: TTUHSC Financial Aid Department, 3601 4th Street, Room 2C400, Lubbock, Texas, 79430, or call (806) 743-3025.

OTHER PROGRAMS AT TEXAS TECH UNIVERSITY HEALTH SCIENCES CENTER

Graduate School of Biomedical Sciences

Graduate programs leading to MS and PhD degrees are offered in the Basic Science Departments of Cell Biology and Biochemistry (both Cell and Molecular Biology, Biotechnology, and Biochemistry and Molecular Genetics graduate programs are offered in this department), Microbiology and Immunology, and Physiology. Programs are structured to provide a wide variety of opportunities for the development of special research and teaching interests. Consulting with a faculty advisory committee, each student participates in the design of his or her own course of study.

School of Allied Sciences

The School of Allied Health Science's mission is to provide a high-quality, student-centered learning environment that seeks, through continuous quality improvement, to achieve the highest levels of excellence in teaching, research and clinical service, while fostering in our students the professional insight and service-oriented compassion that will enable them to excel in merging "high tech and high touch" throughout their professional careers. The School offers fourteen different doctoral, masters and baccalaureate health professions degree programs in the rehabilitation sciences, clinical laboratory sciences and primary care, speech, language and hearing sciences, and rehabilitation counseling and clinic administration.

School of Medicine

The primary mission of the School of Medicine is to attract and educate physicians for West Texas. The emphasis is directed toward primary care fields, but there is a balance between the seven responsibilities of any school of medicine; undergraduate medical education, residency training, continuing medical education, biomedical graduate education, research, patient care, and community service. The decision to develop specialty care areas consistent with the fundamental primary care mission has been made with due deliberation and with concern for the breadth of an academic program that provides for the general education of the physician and also for the advancement of health care and medical science in West Texas. In training physicians, the School of Medicine concomitantly provides quality health care to the entire West Texas area comprising 108 counties and 131,000 square miles from the Mexican border through the Panhandle to Oklahoma.

School of Pharmacy

The School of Pharmacy offers the Doctor of Pharmacy (PharmD) as its single professional degree. The PharmD is a 4-year professional program, requiring at least two years of pre-professional studies that may be completed at any accredited college or university. The School offers programs in Amarillo, Dallas, Lubbock, and Abilene. The Abilene campus enrolled its inaugural class of 40 students in August 2007. The school also provides continuing education courses for pharmacists practicing in Texas.

UNDERGRADUATE PROGRAM

Under the guidance of an admissions committee all qualified applicants are carefully evaluated individually and holistically. Admission to the nursing program is highly competitive and only the most qualified applicants are selected.

Purpose

The purpose of the Undergraduate Program is to prepare generalist nurses who will develop into leaders for the future as they provide competent, compassionate patient care in the rapidly changing health care environment.

Student Learning Outcomes

Upon program completion, graduates will be able to:

- Provide patient-centered care for individuals, families, and communities.
- Work as an effective member of interdisciplinary teams to ensure continuous and safe patient care.
- Employ evidence-based practice (EBP) by integrating current research with clinical expertise and patient values to provide optimal patient care.
- Apply quality improvement measures to continually improve health outcomes consistent with current professional knowledge.
- Utilize informatics to enhance patient safety, manage knowledge and information, make decisions, and communicate more effectively.
- Provide safe care to individuals, families and communities through individual performance and system effectiveness.

Programs: The Undergraduate program offers three tracks to obtain the BSN degree: Traditional BSN, RN-BSN and 2^o w BSN tracks.

Application and Admissions Information

Application Deadlines

Undergraduate Track	Fall	Spring	Summer
Traditional	No Admission	No Admission	February 1
RN-BSN	June 15	November 1	April 1
Second Degree Web Based	June 1 (LB/OD/Abilene)	November 1 (Austin/HC)	No Admission

TRADITIONAL UNDERGRADUATE STUDIES

Traditional BSN Track

Donna C. Owen, PhD, RN, Department Chair

Admissions Requirements

Traditional (applicants who do not currently have an RN license)

The TTUHSC School of Nursing offers the student the opportunity to complete the degree in six consecutive semesters, with admission once each year during the second summer session. A 2.5 or higher cumulative grade point average is required for admission consideration. All grades earned at all schools attended are calculated in the admission grade point average. All non-nursing courses should be completed with a grade of "C" or higher prior to beginning the first nursing course. Students must have completed a minimum of 40 credit hours of prerequisite courses, including at least three of the four required science courses, at the time of application submission. Students may seek exceptions from the department chair.

All BSN applicants are required to:

- Complete all prerequisites by end of the spring semester before summer II program entry.
- Submit a completed online application and non-refundable application fee for admission to the School of Nursing. The application fee is \$40, and the application deadline is February 1st.
- Submit official transcripts from all institutions in which the student has enrolled.
- Complete the Nurse Entrance Test (NET) – (Nationally standardized nurse entrance test from educational resources, Inc.) as an admission criteria.
- Submit appropriate documentation, i.e. TOEFL score, if an international student.

Although academic criteria (cumulative GPA, grades earned in science courses, and failed/repeated courses) are the most important factors in admission consideration, additional non-academic information can be considered. These non-academic factors include but are not limited to:

- Extracurricular activities
- Work experience
- Diversity of experience, such as study abroad, knowledge of other cultures, proficiency in other languages
- Permanent resident of TTUHSC service area county
- First generation college student
- Bilingual
- Socioeconomic status
- Prior enrollment at TTU

All applicants will be reviewed in an individual and holistic manner. No single factor will determine a student's admission.

Eligibility to take NCLEX-RN Examination

The Board of Nursing has identified certain circumstances that may render a potential candidate ineligible for licensure as a registered nurse in the State of Texas. If one of the following statements applies to you, you must complete a Petition for Declaratory Order. This Petition should be completed as soon as possible. The review process can take a minimum of three (3) months to two (2) years depending on the petitioner's case.

- If you have had any licensing authority: 1) refuse to issue you a license; 2) revoke a license; 3) annul a license; 4) cancel a license; 5) accept surrender of a license; 6) suspend a license; 7) place a license on probation; 8) refuse to renew a professional license or certificate held by you now or previously; or 9) ever fine, censure, reprimand, or otherwise discipline a license issued to you.
- If you have been convicted, adjudged guilty by a court, plead guilty, no contest or nolo contendere to any crime in any state, territory or country, whether or not a sentence was imposed, including any pending criminal charges or unresolved arrests (excluding minor traffic violations). This includes expunged offenses and deferred adjudications with or without prejudice of guilt. Please note that DUIs, DWIs and PIs are not considered minor traffic violations. **One time minor in possession (MIP) or minor in consumption (MIC) do not need to be disclosed. However, if you have more than one of either offense or one of each, then you must file a declaratory order petition.**

- If you have been diagnosed, treated, or hospitalized in the past five (5) years for schizophrenia and/or psychotic disorders, bipolar disorder, paranoid personality disorder, antisocial personality disorder, or borderline personality disorder.
- If you have been addicted to or treated for the use of alcohol or any other drug within the past five (5) years.

One FBI fingerprint card must be submitted to the Board with the Petition for Declaratory Order form. To request the FBI fingerprint cards, complete the web form at www.bne.state.tx.us requesting a fingerprint card packet. Please allow three (3) weeks to receive the FBI fingerprint cards. The FBI cards **will not be accepted** if the cards are bent, folded, creased, cut, or damaged in any way. The fingerprint cards must be mailed and will not be faxed, e-mailed, or sent overnight to the applicant.

The Declaratory Order process permits the Board of Nursing to make decisions regarding eligibility for licensure prior to entering or completing a nursing program. You can request a Petition for Declaratory Order by contacting the Board of Nursing for the State of Texas via mail (P.O. Box 430, Austin, Texas 78767-0430), telephone (512-305-6802) or website www.bne.state.tx.us. Processing your petition may take three months to two years, after you provide all required documentation. Statutes and Rules governing this petition may be found in the Texas Occupations Code §§301.257, 301.452-301.454 (Nursing Practice Act), and in the Board Rules and Regulations relating to Professional Nurse Education, Licensure and practice, 22 TAC §§213.27-30 and §§217.11-12. These statutes can be located on the Board of Nursing website. Students who have obtained a Declaratory Order Petition must notify and inform the Department Chair of the outcome of his/her petition.

The Nurse Practice Act was amended during the 2005 Texas legislative session, adding §301.4535, to authorize the Board of Nursing to deny or revoke licensure to an individual for certain criminal offenses. Under the provision, the BON shall refuse to issue or shall withdraw a license if the person has been convicted of an identified offense or has noted on his or her criminal record a plea of guilty or nolo contendere. The Board of Nursing may consider eligibility for licensure of an applicant, who otherwise would be ineligible for licensure, after the fifth anniversary of the successful completion of and dismissal from probation or parole. The criminal offenses barring licensure, as defined by Texas Penal Code, include the following: murder; capital murder; reckless manslaughter; kidnapping, unlawful restraint, or unlawful transport of a person for payment and punishable as a felony; sexual assault; aggravated sexual assault; indecency with a child; intentional or reckless abandonment or endangerment of a child; inflicting intentional or reckless injury to a child, an elderly or disabled person; perpetrator of family violence; an agreement to abduct a child; the sale or purchase of a child; robbery; aggravated robbery; an offense that requires the individual to register as a sexual offender; and convictions for similar crimes in a military tribunal.

Excess Undergraduate Credit Hours

“An institution of higher education may charge a resident undergraduate student tuition at a higher rate than the rate charged to other resident undergraduate students (not to exceed the rate charged to nonresident undergraduate students) **IF**: before the semester begins the student has previously **attempted** coursework at any institution that exceeds by at least 30 hours the number of semester credit hours required for completion of the degree program enrolled in.”

It does NOT apply to

- Semester credit hours taken at a private or out of state institution.
- Earned credit hours without enrollment (i.e. advanced placement, credit by exam) or remedial courses.
- Credits that culminated in an earned degree.

Students who were enrolled as an undergraduate student in any institution of higher education prior to Fall 1999 are exempt from this rule. In addition, students who were first admitted to an institution of higher education between Fall 1999 and Summer 1996 can exceed the semester credit hours required for the degree by 45 credit hours.

For the complete text of this legislation, access the following website: <http://www.capitol.state.tx.us/>. Click on “Bill Number” under “Legislation”. Select “79th Regular Session – 2005” and enter Bill Number “HB1172” in the box. Click on “Submit”. When the bill history appears on the screen, click on “Text.” Scroll to “Enrolled Version” and click on the text bill icon.

Computer Requirements

All students admitted are required to have a laptop computer. Students are required to bring their laptop computer in the classroom for learning activities and testing.

Drug Screening

Drug Screenings may be required if requested by the clinical institution site.

Special Student Enrollment

Non-Degree

Under certain circumstances, it may be appropriate for an individual to seek admission as a special non-degree seeking student. This admission is for the purpose of taking a limited number of courses for one semester only. It is not an avenue for seeking a degree. The individual must receive approval from the Undergraduate Program Committee for enrollment.

Enrollment without Credit/Course Audit

Students who wish to audit a course for no grade must obtain approval from the Department Chair. Students who audit a course will not be listed on the class roll, and no notation of the audit will be made on the student's transcript. Students who are enrolled for 12 semester credit hours or more may audit a course without paying an additional fee. All other students must pay a \$10 fee for auditing a course.

Provisional Admission

The Undergraduate Program Committee may admit candidates as provisional students. The term "provisional" applies to any admission applicants who demonstrate potential to succeed in the nursing program but do not meet the minimum admission criteria. These designations are noted in the letter of admission, along with the condition for removal of the provision.

Readmission

All requests for readmission must be made no later than two months prior to the first day of the semester in which readmission is requested. The Undergraduate Program Committee is responsible for overseeing all readmissions to the School of Nursing. The minimum cumulative grade point average is 2.5 for the Undergraduate Program. A student seeking re-enrollment completes an application showing the expected entry point. The appropriate committee reviews all such requests and may take one of the following actions regarding readmission of a student who withdrew in good standing: 1) eligible and admit, 2) eligible pending space available in nursing courses and in sequence to date of action in relation to other readmission applicants, 3) not eligible. The UPC may assign requirements to be met as a condition of enrollment, i.e. successful completion of a comprehensive examination. Readmission of a student who has been dismissed or who withdrew for academic or disciplinary causes is based upon the decision of the UPC.

Prerequisite Courses

Required Non-Nursing Prerequisite Courses for Traditional BSN Track

Texas Tech University Health Sciences Center (TTUHSC) is compliant with the intent of state law and Texas Higher Education Coordinating Board (THECB) regulations regarding the Texas Success Initiative (TSI).

Texas Success Initiative (TSI)

The Texas Success Initiative (TSI), formerly known as the Texas Academic Skills Program (TASP), is a state-required program that is designed to help ensure undergraduate students' success in their college studies. All students seeking an undergraduate degree from the Texas Tech University Health Sciences Center must satisfy the TSI requirement before enrollment. To obtain TSI details pertaining see [Texas Success Initiative](#)

The THECB requires every public institution of higher education in Texas to establish a core curriculum of at least 42 semester credit hours. Thus, students who will be earning their first baccalaureate degree from TTUHSC must satisfy the requirements of the Texas Core Curriculum.

The [TTUHSC Core Curriculum](#) reflects all of the THECB Core Curriculum requirements. The traditional baccalaureate track at the School of Nursing has identified pre-requisite course work to meet the 42 semester credit hour TTUHSC Core Curriculum and the discipline specific course requirements for the Nursing Field of Study.

The pre-nursing course requirements listed below should be completed with a grade of "C" or better in each course. These requirements as detailed in the table below include a total of 55 semester credit hours, can be taken at any regionally accredited college or university, and should be completed prior to enrollment in the first nursing course.

	HOURS
COMMUNICATION	
English (*ENGL1301, 1302)	6
MATHEMATICS	
Statistics (*MATH1342, 1442, 2342 or 2442)	3
NATURAL SCIENCES	
Anatomy and Physiology (*BIOL2401 & 2402)	8
Chemistry (*CHEM1305 & 1105 or CHEM 1406 or CHEM1411)	4
Microbiology (*BIOL2420 or BIOL2421)	4
Food and Nutrition (*HECO1322 or BIOL1322)	3
HUMANITIES AND VISUAL PERFORMING ARTS	
Visual/Performing Arts (any art, music, drama, or theatre arts course)	3
Humanities (any literature, philosophy, modern or classical language/literature, or cultural studies course)	3
SOCIAL AND BEHAVIORAL SCIENCES	
United States History (*HIST1301, 1302)	6
<i>Students may substitute 3 credit hours of Texas History for 3 credit hours of American History</i>	
Political Science (*GOVT 2301 & 2302 or GOVT 2305 & 2306)	6
Psychology (*PSY2301)	3
Sociology or Cultural Anthropology (*SOC1301 or ANTH2351)	3
Life Span Growth and Development (*PSY2314)	3
TOTAL	55

- Course numbers listed are based on the Texas Common Course Numbering System (TCCNS). Check with your academic institution to verify the course number that corresponds with the TCCNS number.
- Students must complete 3 credit hours of math to meet core curriculum requirements. If the student does not take math statistics, an additional math course must be completed to meet the core requirement
- 3 credit hours in upper division POLS may be substituted for POLS2302 if an A or B was earned in POLS1301.

Important Information about Pre-Nursing Course Requirements

- Pass/Fail grades are not accepted for credit toward degree requirements.
- Applicants may choose to request grades for all non-nursing courses greater than 10 years old not be considered in the GPA for admission. If this option is selected, those credits excluded are not eligible for pre-requisite course consideration. The applicant must have at least 34 credit hours within the past 10 years to use this option.
- Courses taken at Texas Tech University or any other college/university are not used in calculating the TTUHSC grade point average once a student has been admitted to the School of Nursing. However, all grades earned at all schools attended are calculated in the admission grade point average. The quality points and semester credit hours used to calculate the cumulative grade point average for admission to the School of Nursing are taken from the official transcripts submitted during the application process.
- The School of Nursing accepts courses completed via classroom, internet, correspondence, CLEP (College Level Examination Program) or advanced placement examination for which credit has been awarded and posted on an official transcript from an accredited college or university when determining completion of pre-requisite non-nursing course requirements.

Recognition of Previous Nursing Learning

TTUHSC School of Nursing utilizes two methods to acknowledge previous nursing learning. They are (a) transfer of credit and (b) advanced placement. These methods are described below:

A. Transfer of Credit

- Applicants requesting admission to the BSN Program must submit a letter from each School of Nursing attended from the dean or department chair outlining the student's academic standing.
- Applicants must submit original copies of official college transcripts from all institutions in which the student has enrolled. These transcripts will be reviewed and course work evaluated by the academic advisor and/or Department Chair. Final determination regarding applicability of completed course work toward degree requirements lies with the Undergraduate Program Committee.
- Course equivalencies for transfer credit are assessed based upon the catalog course description or the course syllabus and/or notes provided by the student. Generally, courses of equivalent course content completed with the grade of "C" or higher at any accredited educational institution will be accepted for transfer credit toward degree requirements.
- Applicants are encouraged to meet with the Coordinator for the Traditional BSN Track or advisor to discuss applicability of transfer credit for degree purposes.
- Credit for nursing courses cannot be earned via credit by examination.

B. Advanced Placement

Students who have completed courses in nursing are eligible to receive advanced placement. Advanced placement credit may be awarded for credit earned at an agency that is not part of an institution of higher education, such as a diploma nursing school.

Offer of Admission

Offers of admission will be made approximately eight weeks following the application deadline. There are a limited number of positions available each semester. Applicants should respond to the offer of admission no later than the deadline stated in the letter offering admission by returning a \$100 non-refundable placement guarantee fee and the signed response form accepting the offer. Failure to respond by the deadline or participate in a mandatory orientation prior to matriculation results in withdrawal of the offer of admission.

Degree Requirements for Students Admitted to Program

Graduation Under a Particular Catalog

A student is expected to complete the degree requirements set forth in the School of Nursing *Catalog* in effect at the time the student enters the program. Only with the specific approval of the Department Chair may a different *Catalog* be selected. In no case may a student complete the requirements set forth in a catalog more than seven years old. The *Catalog* is published at least biennially and its provisions are applicable during the stated school year.

BSN (traditional) students are required to complete 55 hours of non-nursing courses and 67 hours of nursing courses, totaling 122 credit hours.

Maintaining Minimum Academic Requirements

- Maintain a 2.0 GPA for each semester and overall cumulative
- A minimum grade of "C" in all nursing and non-nursing (degree required) courses is required.
- Students receiving a "D", "F" or "WF" in a nursing course are eligible to repeat that course one time only pursuant to recommendation of course faculty.
- Students earning an overall cumulative GPA or a semester GPA less than a 2.0 in the semester of graduation are ineligible for graduation

Academic Dismissal

- Making a "D", "F" or "WF" in two or more nursing courses in one semester is cause for academic dismissal.
- Making a "D", "F" or "WF" in a third nursing course, even when the first two "D"s, "F"s or "WF"s have been replaced by a passing grade upon retaking those courses.
- Earning less than a 2.0 semester or cumulative GPA for two consecutive semesters.
- Making a "D", "F", or "WF" in the same nursing course twice.

Comprehensive Examinations

Undergraduate students must have a passing score on the comprehensive examination administered in N4201. If a student is not successful on the examination, he/she will be required to complete a prescribed remediation program and to repeat the examination.

Residence Credit

The minimum actual residence credit required of each undergraduate student is 22 hours at TTUHSC, including the final 15 hours in nursing courses taken for a grade. The remaining hours may include transfer credit and correspondence course work. Residence credit as used here means credit for work done while enrolled in and attending classes at TTUHSC and should not be confused with “residence” in the State of Texas for tuition purposes.

Semester Credit Hours and Course Loads

The semester credit hour is the unit of measure for credit purposes. Didactic (lecture) hours are measured on a one-to-one basis; clinical hours are measured on a one-to-three basis. Approximately two hours in preparation for each hour of lecture or recitation and an appropriate amount of time for preparation for clinical activity is required. The number of semester credit hours a student may carry (course load) is regulated by the Department Chair. In determining this load, the Department Chair takes into account the quality of prior scholastic work performed and the types of courses involved. Permission is needed to enroll in more than 20 semester credit hours.

Degree Plan

Degree plans are generally completed by the Coordinator for the Traditional Undergraduate track during new student orientation. The degree plan may be revised based on a student’s ability to successfully progress through the curriculum. Course enrollment may be limited based on available resources, including but not limited to availability of clinical sites within the community. The following degree plan is designed for applicants who do not already possess the RN license. It is provided here as an overview of a basic course schedule for full time students. Length of the program will vary depending on the student’s ability to progress through the program. All non-nursing courses should be completed prior to taking the first nursing course. When necessary, methods for limiting enrollment will be determined by the Department Chair.

Sample Degree Plan Traditional BSN Track

SUMMER – SEMESTER 1 (5 weeks)		FALL – SEMESTER 2	
NURS 3206	Intro to Nursing as a Profession	NURS 3115	Concepts of Pathophysiology
NURS 3420	Health History & Physical Assessment	NURS 3313	Care of the Healthy Aging Adult
<i>Total Credit Hours: 6</i>		NURS 3314	Nursing Mgt of Pharmacological Therapy I
		NURS 3500	Fundamentals of the Nursing Profession
		<i>Total Credit Hours: 12</i>	
SPRING – SEMESTER 3		SUMMER – SEMESTER 4 (10 weeks)	
NURS 3216	Integrated Concepts of Pathophysiology	NURS 4403	Nursing Care of the Childbearing Family
NURS 3311	Community Health Nursing	NURS 4404	Mental Health Nursing
NURS 3312	Nursing Care of Families with Children	<i>Total Credit Hours: 8</i>	
NURS 3530	Medical Surgical Nursing I		
<i>Total Credit Hours: 13</i>			
FALL – SEMESTER 5		SPRING – SEMESTER 6	
NURS 4208	Complex Pharmacological Therapy	NURS 4201	Synthesis of Nursing Knowledge
NURS 4210	Nurse as a Consumer of Research	NURS 4205	Nursing as a Profession- Seminar I/Leadership
NURS 4330	Medical Surgical Nursing II Theory	NURS 4405	The Nurse as a Manager/Management
NURS 4630	Medical Surgical Nursing II Clinical	NURS 4430	Medical Surgical Nursing III
<i>Total Credit Hours: 13</i>		<i>Total Credit Hours: 12</i>	

***Students must also enroll in 3 credit hours of nursing elective. Total nursing credits required equals 67.**

BSN (traditional) students are required to complete 55 hours of non-nursing courses and 67 hours of nursing courses, totaling 122 credit hours.

COURSE DESCRIPTIONS

Undergraduate Traditional Track Courses

Undergraduate courses are delivered via traditional, Web-enhanced (combination of face-to-face and online), and Web-based (completely online) methodologies. Traditional course methodology is indicated by **T**, Web-enhanced by **WE**, and Web-based by **WB**.

All pre/co-requisites and any designated conditions/criteria for previous courses apply throughout the curriculum. All general education courses should be completed prior to beginning the nursing curriculum.

KEY: Courses are listed in numerical order.

(CL) Concurrent enrollment in a Clinical Section is required.

(#:#:#) First # represents the number of credit hours, Second # represents the number of lecture hours per week, Third # represents the number of clinical hours per week.

***** Elective Courses are offered at select times as faculty and interest are present.

(V) Variable Credit.

3000 Level Courses

3030. Independent Study in Nursing (VI-6 WE). (Traditional BSN) (Pre-requisite: Consent of instructor and Department Chair for Undergraduate Traditional Track.) Topic and objectives of study are mutually agreed upon by the student and selected faculty member. Independent study agreement formalizes the plan for study and guides evaluation. Semester hours and course may be repeated as topic and/or objective of study change.

3040. Special Topics in Nursing (VI-6 WE). (Traditional BSN) (Prerequisite: Consent of instructor and Department Chair for Undergraduate Traditional Track.) Designed to focus on subjects of special interest to groups of students. May be repeated for credit as topics vary.

3115. Concepts of Pathophysiology/Patho I (1:1:0 WB). (Traditional BSN) (Prerequisite: NURS 3420; 3206 or consent of the Department Chair for Undergraduate Traditional Track.) Study of the physiologic basis of disease for beginning nursing practice. Emphasis on application of pathophysiologic concepts to the recognition of pathologic conditions across life span. Major concepts addressed are elimination, sensory stimulation and perception, rest and sleep, immune process, homeostasis, reproduction, gas exchange, and nutritional dysfunctions.

3206. Introduction to Nursing as a Profession - Seminar I (CL 2:1.75:.75 WE). (Traditional BSN) (Prerequisite: Admission to Nursing Major or consent of the Department Chair for the Undergraduate Traditional Track.) An introduction to the healthcare delivery system and the nursing profession. Concepts in the course include: nursing history, nursing theory, nursing philosophy, legal/ethical issues, professional roles, interdisciplinary roles, professional writing, and scholarship. Definition and comprehension of nursing education and nursing research are also included.

3216. Integrated Concepts of Pathophysiology/Patho II (2:2:0 WE). (Traditional BSN) (Prerequisite: NURS 3115 or consent of the Department Chair for the Undergraduate Traditional Track.) Continued study of pathophysiologic concepts across the life span. Major concepts addressed are alterations in sensory and perception, reproduction, gas exchange, hematology, neurological system, musculoskeletal system, endocrine system, gastrointestinal system, renal system, and cancers.

3311. Community Health Nursing/Community (CL 3:1.5:4.5 WE). (Traditional BSN) (Prerequisite: NURS 3500, 3313, 3314, 3115. Pre/co-requisite: NURS 3216, 3530, 3312 or consent of the Department Chair for the Undergraduate Traditional Track.) Study of nursing care of populations in the community. Includes the concepts of community health nursing practice, epidemiology, environmental health, and collaboration with other healthcare team members.

3312. Nursing Care of Families with Children/Families (CL 3:1.5:4.5 WE). (Traditional BSN) (Prerequisites: NURS 3500, 3313, 3314, 3115. Pre/co-requisites: NURS 3216, 3530 or consent of the Department Chair for the Undergraduate Traditional Track.) Assists the student in developing a concept of family-centered care across the life span. Emphasizes application of the nursing process with children and families with developmental, cultural, and family structure variances. Common problems affecting family dynamics are emphasized.

3313. Nursing Care of the Healthy Aging Adult/Healthy Aging (CL 3:2:3 WE). (Traditional BSN) (Pre/co-requisites: NURS 3206, 3420, or consent of the Department Chair for the Undergraduate Traditional Track.) An introduction to concepts of healthy aging with a focus on health promotion, maintenance of functional capacity, normal physiologic changes, and improvement of quality of life through interdisciplinary collaboration.

3314. Nursing Management of Pharmacological Therapy I/Pharm I (CL 3:1:6 WE). (Traditional BSN) (Prerequisite: NURS 3206, 3420. Co/prerequisite NURS 3500 or consent of the Department Chair for the Undergraduate Traditional Track.) Introduces the concepts of pharmacotherapeutics and pharmacological treatment of humans experiencing altered states from adaptation through dysfunction to pathological processes. Includes calculation of dosages and therapeutic ranges, techniques of medication administration by all routes commonly used by nurses with practice in simulation, legal/ethical concepts related to pharmacological therapy, and pharmacotherapy across the life span.

3341. Nursing Care of the Patient Experiencing Cardiac Dysrhythmias (CL 3:1.4:4.8 WE). (Traditional BSN) (Prerequisite: Consent of instructor and Department Chair for the Undergraduate Traditional Track.) This course includes assessment and nursing diagnosis of adult clients experiencing cardiac dysrhythmias. Pathophysiology, therapeutic modalities, patient/family response and nursing implications are emphasized throughout the course. The importance of interdisciplinary collaboration in the care of the patient experiencing cardiac dysrhythmias is stressed. The course incorporates a variety of teaching modalities including interactive computer technology, computer assisted instruction, video, seminars, and clinical observation.

3357. Holistic Health Practices in Stress Management (3:3:0 WE). (Traditional BSN) (Prerequisite: Consent of the instructor and Department Chair for the Undergraduate Traditional Track.) This course is an introduction to holistic health in stress management. Includes the role of the mind, body and universe in attaining high level wellness; stress and its relationship to health; and the interaction of holistic health practices in the management of stress.

3365. Introduction and Exploration into the Multiple Aspects of Forensic Science (3:3:0 WE). (Traditional BSN) (Prerequisite: Consent of the instructor and Department Chair for the Undergraduate Traditional Track.) Forensic science has multiple, significant procedures and guidelines which contribute to the medico legal analysis in the criminal justice system. It also provides support and treatment for victims and family members. Multiple disciplines, such as nursing, medicine, law, psychology, and the sciences necessary to make forensic science operate, will be explored. Content to be addressed includes assessment, intervention, and utilization of community resources; legal issues; and evaluation of forensic evidence. The course will give the student a general understanding and appreciation of forensic sciences.

3366. Hospice and Palliative Care (CL 3:2.5:1.5 WE). (Traditional BSN) (Prerequisite: Consent of the instructor and Department Chair for the Undergraduate Traditional Track.) This course will utilize readings from sociology, psychology, religion, and medical and nursing sciences as a background for discussing and analyzing therapeutic nursing interventions for care of the terminally ill client. Clinical and experimental techniques will be utilized to promote thought and discussion in order to explore death in its personal, general, and professional significance.

3367. Violence in Families (CL 3:2:3 WE). (Traditional BSN) (Prerequisite: Consent of the instructor and Department Chair for the Undergraduate Traditional Track.) Family violence has multiple, significant consequences for victims and members of families in which violence occurs. Concepts of assessment, intervention, utilization of community resources, and evaluation of violence in families are included.

3368. High Risk Obstetrics in Nursing (CL 3:2.5:1.5 WE). (Traditional BSN) (Prerequisite: NURS 4403 or consent of the Department Chair for the Undergraduate Traditional Track.) This course will explore the scope of high risk pregnancy in which the life or health of the mother or fetus is in jeopardy due to complications that are either unique to pregnancy or are due to disorders that coincide with the pregnancy.

3369. Community Mental Health Nursing (CL 3:2:3 WE). (Traditional BSN) (Prerequisite: Consent of the instructor and Department Chair for the Undergraduate Traditional Track.) This course will utilize various readings and case studies to explore the psychiatric nurse's role in community healthcare. Clinical experiences will be utilized to examine community-based mental health services for individuals and families living with mental illness.

3371. Legal and Ethical Issues in Healthcare (3:3:0 WE). (Traditional BSN) (Prerequisite: Consent of the instructor and Department Chair for the Undergraduate Traditional Track.) An interdisciplinary course surveying major legal and ethical issues in the delivery of healthcare.

3374. Philosophical Issues and Problems in Human Caring (3:3:0 WE). (Traditional BSN) (Prerequisite: Consent of the instructor and Department Chair for the Undergraduate Traditional Track.) Exploration of different avenues of approaching philosophical dilemmas in providing care to clients whose behaviors and value systems are difficult to accept. Examines select issues from the standpoints of philosophy and nursing.

3376. Advanced Cardiac Life Support (CL 3:1:6 WE). (Traditional BSN) (Prerequisite: Consent of the instructor and Department Chair for the Undergraduate Traditional Track.) This course will expand the student's cognitive knowledge and psychomotor skills necessary to provide nursing care to individuals experiencing acute life-threatening physiological dysfunctions. The course is designed to prepare the student for participation in an Advanced Cardiac Life Support provider's class according to the standards set by the American Heart Association. Concepts included are advanced pathological processes, critical thinking/clinical reasoning and judgment, legal/ethical issues, collaboration, and professional role development.

3420. Health History and Physical Assessment/History and Physical (CL 4:1:9 WE). (Traditional BSN) (Pre/co-requisite: NURS 3206 or consent of the Department Chair for the Undergraduate Traditional Track.) An introduction to the nursing process with emphasis on therapeutic communication, health history, and physical exam. Concepts to be explored will include an introduction to growth and development, legal/ethical issues related to health assessment, data collection, and documentation of health history and physical examination across the life span.

3500. Fundamentals of the Nursing Profession/Fundamentals (CL 5:2:9 WE). (Traditional BSN) (Prerequisite: NURS 3206, 3420. Pre/co-requisites: NURS 3115, 3314 or consent of the Department Chair for the Undergraduate Traditional Track.) An introduction into acute and long-term healthcare systems, health-wellness-illness continuum, health promotion, nursing process, and decision making. Concepts to be explored include legal/ethical aspects of care, cultural variances, holism, life span variances, communication, spirituality, asepsis, basic care and comfort measures, stress and coping, physical assessment, patient advocacy and nursing process.

3530. Medical Surgical Nursing I/MS I (CL 5:2:9 WE). (Traditional BSN) (Prerequisites: NURS 3500, 3314, 3115, 3313. Pre/or co-requisite: NURS 3216 or consent of the Department Chair for the Undergraduate Traditional Track.) Applies nursing process and

critical thinking in the care of persons with altered health states. Concepts included are adaptation, immune response, alteration in gas exchange, metabolism, sensory stimulation and perception, violence, grief and loss, and fluid and electrolyte balance

4000 Level Courses

4201. Synthesis of Nursing Knowledge/Synthesis (CL 2:1:3 WE). (Traditional BSN) (Pre/co-requisite: all NURS 4000 level courses must be completed or in progress or consent of the Department Chair for Undergraduate Traditional Track.) Provides students with an opportunity to assess and analyze own ability to synthesize concepts of nursing care and apply those concepts in simulations and standardized examinations.

4205. Nursing as a Profession - Seminar II/Leadership (CL 2:1:3 WE). (Traditional BSN) (Pre/co-requisite: all 4000 level courses must be completed or in progress or consent of the Department Chair for the Undergraduate Traditional Track.) Summarizes the concepts of the profession of nursing with emphasis in nursing leadership. Includes anticipatory socialization to the professional nursing role. Content is presented via small group discussions and applications. Clinical includes experiences with professional organizations and political processes.

4208. Complex Pharmacological Therapy/Pharmacology II (CL 2:1.5:1.5 WE). (Traditional BSN) (Prerequisites: NURS 4403, 4404 or consent of the Department Chair for the Undergraduate Traditional Track.) Focuses on pharmacological therapy in complex healthcare situations affecting individuals across the life span. Includes an understanding of medications and alternative therapies for common health disorders and builds on previous pharmacological knowledge. Additionally, includes a discussion related to potential weapons of biologic, radiologic, and chemical terrorism and the pharmacological implication of care of individuals related to bioterrorism, disasters, and life threatening emergencies. Clinical includes simulation.

4210. The Nurse as a Consumer of Research/Research (2:2:0 WE). (Traditional BSN) (Prerequisite: NURS 4403, 4404 or consent of the Department Chair for the Undergraduate Traditional Track.) Addresses basic research concepts and explores the relationship of research to theory and evidence based practice. Prepares the student as a consumer of research to enhance clinical judgment/reasoning when reading research studies and applying research to clinical practice.

4330. Medical Surgical Nursing II Theory/MS II Theory (3:3:0 WE). (Traditional BSN) (Pre-requisite: NURS 4403, 4404. Pre/co-requisite: NURS 4208 or consent of the Department Chair for the Undergraduate Traditional Track.) Combines an emphasis on the critical thinking and clinical reasoning/judgment process as a major role in professional nursing practice with detailed study of the problems of care which are predominant in acute and critical care setting with clients across the life span.

4403. Nursing Care of the Childbearing Family/OB (CL 4:2:6 WE). (Traditional BSN) (Prerequisite: NURS 3530, 3216, 3311, 3312 or consent of the Department Chair for the Undergraduate Traditional Track.) Nursing processes with individuals in the childbearing process. Focuses on developing skills during the phases of the nursing process in working with all members of the childbearing family unit. Special emphasis on assessment of family unit, cultural differences in the approach to the childbirth experience, techniques of nursing intervention, and evaluation.

4404. Mental Health Nursing/Psych (CL 4:2:6). (Traditional BSN) (Pre-requisite: NURS 3530, 3216, 3311, 3312 or consent of the Department Chair for the Undergraduate Traditional Track.) Concepts of human mental health in altered states from adaptation through dysfunction to pathological processes are included. Focus is on utilization of nursing process in the care of clients, groups, and families with alterations in mental health.

4405. The Nurse as a Manager/Management (CL 4:2.5:4.5 WE). (Traditional BSN) (Prerequisite: NURS 4330, 4630, 4208 or consent of the Department Chair for the Undergraduate Traditional Track.) Emphasizes the role of the nurse in beginning management roles as critical elements for nursing's future. Examines the use of selected theoretical role perspectives related to management. Emphasizes prioritization and delegation of patient care in multiple settings.

4430. Medical-Surgical Nursing III/Internship (CL 4:1:9 WE). (Traditional BSN) (Prerequisite: NURS 4330, 4630, 4208, or consent of the Department Chair for the Undergraduate Traditional Track.) Focuses on the role of the professional nurse using selected models of case delivery for the complex client and family. Emphasis is on the evaluation of the multifaceted nursing care as it relates to the pathological state of the clients experiencing complex problems.

4630. Medical-Surgical Nursing II Clinical/MS II Clinical (CL 6:0:18 WE). (Traditional BSN) (Pre/Co-requisite: NURS4330 or or consent of the Department Chair for the Undergraduate Traditional Track.) Combines an emphasis on the critical thinking and clinical reasoning/judgment process as a major role in professional nursing practice with application of nursing process in acute and critical care setting with clients across the life span.

NON-TRADITIONAL UNDERGRADUATE STUDIES

Second Degree Web-Based BSN Track

Cathleen A. Collins, PhD, RN, Department Chair

Admissions Requirements

2° w BSN (applicants who do not currently have a RN license)

Texas Tech Health Sciences Center School of Nursing (TTUHSC SON) offers a second-degree web based accelerated baccalaureate nursing degree (2° w **BSN Track**) for students with previous baccalaureate degrees, initially targeting recruits from both the Austin/Hill Country and West Texas communities of Lubbock, Abilene, and the Permian Basin. The 2° w **BSN Track** goals are derived from the mission of the TTUHSC- School of Nursing as well as the organizing framework for the program. The program goals are to prepare graduates to provide direct care to individuals, families and communities with complex health care needs in structured and unstructured settings (Texas Board of Nursing, 2002), and to prepare graduates with a professional commitment to nursing excellence for present and emerging healthcare arenas and to provide a foundation for future graduate education in nursing.

Under the guidance of the Department Chair of Non-Traditional Undergraduate Tracks all qualified applicants are carefully evaluated individually and holistically. Admission to the nursing program is highly competitive and only the most qualified applicants are selected. Applicants to the Second Degree (Pre- licensure) track can seek admission to the School of Nursing through one entry point in the school's curriculum.

The TTUHSC School of Nursing offers the student the opportunity to complete the degree in three consecutive semesters, with admission for the Lubbock/Permian Basin/Abilene cohorts in August and admission for the Austin/Hill Country in January each year. Students applying for admission to this program should have a cumulative 3.0 or higher grade point average in their science courses, as well as all pre-requisite courses. All non-nursing courses should be completed with a grade of "C" or higher prior to beginning the first nursing course. Additionally, students should have two of the four required science courses completed the semester prior to applying. Students must have completed a minimum of 39 credit hours of prerequisite courses, at the time of application submission. Students may seek exceptions from the Department Chair.

All 2° w **BSN** applicants are required to:

- Submit a completed online application and non-refundable application fee for admission to the School of Nursing. The application fee is \$40, and the application deadline is November 1 for Austin/Hill Country and June 1 for Lubbock/Permian Basin/Abilene area.
- Submit a letter from any school of nursing attended from the Dean or Department Chair outlining the applicant's academic standing within that school.
- Submit original copies of official college transcripts from all institutions in which the student has enrolled.
- Submit appropriate documentation, i.e. TOEFL (refer to policy in this catalog).

Criteria for selection of students will include:

- Previous Bachelor's Degree in Science or Arts
- Cumulative science and pre-requisite cumulative GPA of 3.0 or higher, with specific emphasis on science GPA above 3.0 (GPA is a strong predictor of NCLEX success);
- Completion of medical terminology course (certificate or transcript should be provided as documentation of completion).
- Completion of pathophysiology and all other required general education courses as a pre-requisite for admission;
- Certification as a Certified Nursing Assistant and Basic Life Support (Professional CPR) prior to admission;
- A commitment to not seek employment during the accelerated educational process (consisting of 50 weeks);
- Attend a personal, face-to-face scheduled interview with a member of the Admissions Committee.

Although academic criteria (cumulative GPA, grades earned in science courses, and failed/repeated courses) are the most important factors in admission consideration, additional non-academic information can be considered.

These non-academic factors include but are not limited to:

- Extracurricular activities
- Work experience
- Diversity of experience, such as study abroad, knowledge of other cultures, proficiency in other languages
- Permanent resident of TTUHSC service area county
- First generation college student
- Bilingual (English/Spanish)
- Socioeconomic status
- Prior enrollment at TTU

All applicants will be reviewed in an individual and holistic manner. No single factor will determine a student's admission.

Eligibility to take NCLEX-RN Examination

The Board of Nursing has identified certain circumstances that may render a potential candidate ineligible for licensure as a registered nurse in the State of Texas. If one of the following statements applies to you, you must complete a Petition for Declaratory Order. This Petition should be completed as soon as possible. The review process can take a minimum of three (3) months to two (2) years depending on the petitioner's case.

- If you have had any licensing authority: 1) refuse to issue you a license; 2) revoke a license; 3) annul a license; 4) cancel a license; 5) accept surrender of a license; 6) suspend a license; 7) place a license on probation; 8) refuse to renew a professional license or certificate held by you now or previously; or 9) ever fine, censure, reprimand, or otherwise discipline a license issued to you.
- If you have been convicted, adjudged guilty by a court, plead guilty, no contest or nolo contendere to any crime in any state, territory or country, whether or not a sentence was imposed, including any pending criminal charges or unresolved arrests (excluding minor traffic violations). This includes expunged offenses and deferred adjudications with or without prejudice of guilt. Please note that DUIs, DWIs and PIs are not considered minor traffic violations. **One time minor in possession (MIP) or minor in consumption (MIC) do not need to be disclosed. However, if you have more than one of either offense or one of each, then you must file a declaratory order petition.**
- If you have been diagnosed, treated, or hospitalized in the past five (5) years for schizophrenia and/or psychotic disorders, bipolar disorder, paranoid personality disorder, antisocial personality disorder, or borderline personality disorder.
- If you have been addicted to or treated for the use of alcohol or any other drug within the past five (5) years.

One FBI fingerprint card must be submitted to the Board with the Petition for Declaratory Order form. To request the FBI fingerprint cards, complete the web form at www.bne.state.tx.us requesting a fingerprint card packet. Please allow three (3) weeks to receive the FBI fingerprint cards. The FBI cards **will not be accepted** if the cards are bent, folded, creased, cut, or damaged in any way. The fingerprint cards must be mailed and will not be faxed, e-mailed, or sent overnight to the applicant.

The Declaratory Order process permits the Board of Nursing to make decisions regarding eligibility for licensure prior to entering or completing a nursing program. You can request a Petition for Declaratory Order by contacting the Board of Nursing for the State of Texas via mail (P.O. Box 430, Austin, Texas 78767-0430), telephone (512-305-6802) or website www.bne.state.tx.us. Processing your petition may take three months to two years, after you provide all required documentation. Statutes and Rules governing this petition may be found in the Texas Occupations Code §§301.257, 301.452-301.454 (Nursing Practice Act), and in the Board Rules and Regulations relating to Professional Nurse Education, Licensure and practice, 22 TAC §§213.27-30 and §§217.11-12. These statutes can be located on the Board of Nursing website. Students who have obtained a Declaratory Order Petition must notify and inform the Department Chair of the outcome of his/her petition.

The Nurse Practice Act was amended during the 2005 Texas legislative session, adding §301.4535, to authorize the Board of Nursing to deny or revoke licensure to an individual for certain criminal offenses. Under the provision, the BON shall refuse to issue or shall withdraw a license if the person has been convicted of an

identified offense or has noted on his or her criminal record a plea of guilty or nolo contendere. The Board of Nursing may consider eligibility for licensure of an applicant, who otherwise would be ineligible for licensure, after the fifth anniversary of the successful completion of and dismissal from probation or parole. The criminal offenses barring licensure, as defined by Texas Penal Code, include the following: murder; capital murder; reckless manslaughter; kidnapping, unlawful restraint, or unlawful transport of a person for payment and punishable as a felony; sexual assault; aggravated sexual assault; indecency with a child; intentional or reckless abandonment or endangerment of a child; inflicting intentional or reckless injury to a child, an elderly or disabled person; perpetrator of family violence; an agreement to abduct a child; the sale or purchase of a child; robbery; aggravated robbery; an offense that requires the individual to register as a sexual offender; and convictions for similar crimes in a military tribunal.

Excess Undergraduate Credit Hours

“An institution of higher education may charge a resident undergraduate student tuition at a higher rate than the rate charged to other resident undergraduate students (not to exceed the rate charged to nonresident undergraduate students) **IF**: before the semester begins the student has previously **attempted** coursework at any institution that exceeds by at least 30 hours the number of semester credit hours required for completion of the degree program enrolled in.”

It does NOT apply to

- Semester credit hours taken at a private or out of state institution.
- Earned credit hours without enrollment (i.e. advanced placement, credit by exam) or remedial courses.
- Credits that culminated in an earned degree.

Students who were enrolled as an undergraduate student in any institution of higher education prior to Fall 1999 are exempt from this rule. In addition, students who were first admitted to an institution of higher education between Fall 1999 and Summer 1996 can exceed the semester credit hours required for the degree by 45 credit hours.

For the complete text of this legislation, access the following website: <http://www.capitol.state.tx.us/>. Click on “Bill Number” under “Legislation”. Select “79th Regular Session – 2005” and enter Bill Number “HB1172” in the box. Click on “Submit”. When the bill history appears on the screen, click on “Text.” Scroll to “Enrolled Version” and click on the text bill icon.

Computer Requirements

All students admitted will be required to have a computer & personal digital assistant with required software.

Criminal Background Check

In compliance with TTUHSC policy, all applicants who have received offers of admission will be required to consent to a criminal background check before being allowed to matriculate. A history of criminal conduct or convictions may result in withdrawal of the admission offer. See the "Criminal Background Checks" section of the SON Student Handbook for the SON policy. The Health Sciences Center policy may be found at HSC OP 10.20.

Drug Screening

Drug Screenings may be required if requested by the clinical institution site.

Special Student Enrollment

Non-Degree

Under certain circumstances, it may be appropriate for an individual to seek admission as a special non-degree seeking student. This admission is for the purpose of taking a limited number of courses for one semester only. It is not an avenue for seeking a degree.

Enrollment Without Credit/Course Audit

Students who wish to audit a course for no grade must obtain approval from the Department Chair. Students who audit a course will not be listed on the class roll, and no notation of the audit will be made on the student's transcript. Students who are enrolled for 12 semester credit hours or more may audit a course without paying an additional fee. All other students must pay a \$10 fee for auditing a course.

Provisional Admission

Provisional admission is not available for the Second Degree Program.

Conditional Admission

If the requirements for full admission are not met, conditional admission may be available. The student is required to comply with “conditions” stated in the letter of admission offer prior to the first day of class for the semester the student is applying for. Examples of conditional admission are as follows but not limited to:

- Baccalaureate degree completion confirmation (student graduating in current semester and verification is not available until the end of the semester)
- CNA certification confirmation (student will not have verification until after admission process is over but before the semester of admission begins)
- Pre-requisite courses have not been completed prior to admission process

Readmission

All requests for readmission must be made no later than two months prior to the first day of the semester in which readmission is requested. The Undergraduate Program Committee (UPC) is responsible for overseeing all readmissions to the School of Nursing. The minimum cumulative grade point average is 3.0 for the Second Degree Track. A student seeking re-enrollment completes an application showing the expected entry point. The UPC reviews all such requests and may take one of the following actions regarding readmission of a student who withdrew in good standing: 1) eligible and admit, 2) eligible pending space available in nursing courses and in sequence to date of action in relation to other readmission applicants, 3) not eligible. The UPC may assign requirements to be met as a condition of enrollment, i.e. successful completion of a comprehensive examination. Readmission of a student who has been dismissed or who withdrew for academic or disciplinary causes is based upon the decision of the UPC.

Transfer Student

Transfer of credit from another School of Nursing is not allowed in the Second Degree Program.

Prerequisite Courses

Second Degree Web-Based BSN Track

The pre-nursing course requirements listed below should be completed with a grade of “C” or better in each course. These requirements as detailed in the table below include a total of 55 semester credit hours, can be taken at any regionally accredited college or university, and should be completed prior to enrollment in the first nursing course.

The Texas Tech University Health Sciences Center core curriculum for undergraduate nursing degrees, which also incorporate Field of Study requirements in nursing, is comprised of 39 semester credit hours as detailed in the following table. To review the Texas Core Curriculum visit [Texas Core Curriculum](#).

NURS 3302	Pathophysiology	3
BIOL 3400 w/Lab	Microbiology w/Lab	4
BIOL 2403 & 2404	Anatomy & Physiology I & II	8
HDFS 2303	Life Span Human Development	3
<OR> PSY 2314		
MATH 2300, PSY 3400	Statistics	3
<OR> SOC 3391		
F&N 1410	Science of Nutrition	3
<OR> 3320		
SOC 1301	Sociology	3
HIST 2300 & 2301	American History**	6
POLS 1301	American Govt Organization	3
POLS 2302	American Public Policy	3
Total Semester Credit Hours		39

**** May substitute 3 credits Texas history for 3 credits American history.**

All general education courses must be completed prior to taking the first nursing course.

Important Information about Pre-Nursing Course Requirements

- Pass/Fail grades are not accepted for credit toward degree requirements.
- Applicants may choose to request grades for all non-nursing courses greater than 10 years old not be considered in the GPA for admission. If this option is selected, those credits excluded are not eligible for pre-requisite course consideration. The applicant must have at least 34 credit hours within the past 10 years to use this option.
- Courses taken at Texas Tech University or any other college/university are not used in calculating the TTUHSC grade point average once a student has been admitted to the School of Nursing. However, all grades earned at all schools attended are calculated in the admission grade point average. The quality points and semester credit hours used to calculate the cumulative grade point average for admission to the School of Nursing are taken from the official transcripts submitted during the application process.
- The School of Nursing accepts courses completed via classroom, internet, correspondence, CLEP (College Level Examination Program) or advanced placement examination for which credit has been awarded and posted on an official transcript from an accredited college or university when determining completion of pre-requisite non-nursing course requirements.

Recognition of Previous Nursing Learning

TTUHSC School of Nursing utilizes two methods to acknowledge previous nursing learning. They are (a) transfer of credit and (b) advanced placement. These methods are described below:

A. Transfer of Credit

- Applicants are encouraged to meet with the School of Nursing Department Chair for Non-Traditional Studies or the Second Degree Coordinator to discuss applicability of transfer credit for degree purposes.

B. Advanced Placement

- Students who have completed courses in nursing may be eligible to receive advanced placement. Applicants are encouraged to meet with the School of Nursing Department Chair for Non-Traditional Studies or the Second Degree Coordinator to discuss applicability of advanced placement for degree purposes.

Offer of Admission

Offers of admission will be made approximately six weeks following the application deadline. Due to the limited number of positions available each semester, applicants should respond to the offer of admission no later than the deadline stated in the letter offering admission by returning a \$100 non-refundable placement guarantee fee as well as a signed response form accepting the offer. Failure to respond by the deadline results in withdrawal of the offer of admission.

Degree Requirements for Students Admitted to the Program

Graduation Under a Particular Catalog

A student is expected to complete the degree requirements set forth in the School of Nursing *Catalog* in effect at the time the student enters the program. Only with the specific approval of the Department Chair may a different *Catalog* be selected. In no case may a student complete the requirements set forth in a catalog more than seven years old. The *Catalog* is published at least biennially and its provisions are applicable during the stated school year.

Minimum Academic Requirements

A student must earn a 2.0 in each course in the required curriculum and maintain an overall semester and cumulative GPA of 2.0 or greater. The Pass/Fail option may be used only in courses that exceed the minimum degree requirements. The School of Nursing Student Handbook provides further details regarding academic and graduation expectations.

Maintaining Minimum Academic Requirements

- Maintain a 2.0 GPA for each semester and overall cumulative
- A minimum grade of “C” in all nursing and non-nursing (degree required) courses is required.
- Students earning an overall cumulative GPA or a semester GPA less than a 2.0 in the semester of graduation are ineligible for graduation
- Any student who is unsuccessful (receives grade of “D” or “F”) in any course in the 2nd Degree Program will be academically dismissed from the 2nd Degree Program and allowed to enter the Undergraduate Traditional BSN Program if space is available and will be advised by the Undergraduate Traditional BSN Program faculty to determine entry into that program.

Academic Dismissal

- Making a “D”, “F” or “WF” in two or more nursing courses in one semester is cause for academic dismissal.
- Making a “D”, “F” or “WF” in a third nursing course, even when the first two “D”s, “F”s or “WF”s have been replaced by a passing grade upon retaking those courses.
- Earning less than a 2.0 semester or cumulative GPA for two consecutive semesters.
- Making a “D”, “F”, or “WF” in the same nursing course twice.

Comprehensive Examinations

Undergraduate students must have a passing score on the ATI comprehensive examination administered in NURS 4219 for 2° w BSN students. If a student is not successful on the examination, he/she will be required to complete a prescribed remediation program and to repeat the examination. If the student is not successful on the second attempt, he/she will not be allowed to graduate that semester and will receive an incomplete (I) in NURS4219.

Residence Credit

The minimum actual residence credit required of each undergraduate student is 30 hours at TTUHSC, including the final 15 hours in nursing courses taken for a grade. The remaining hours may include transfer credit and correspondence course work. Residence credit as used here means credit for work done while enrolled in and attending classes at TTUHSC and should not be confused with “residence” in the State of Texas for tuition purposes.

Semester Credit Hours and Course Loads

The 2° w BSN students are required to complete 39 hours of non-nursing courses and 61 hours of nursing courses.

Degree Plan

Degree plans are generally completed by the program coordinator during the initial advising session with the student. The degree plan may be revised based on a student’s ability to successfully progress through the curriculum. Course enrollment may be limited based on available resources, including but not limited to availability of clinical sites within the community. When necessary, methods for limiting enrollment will be determined by the Department Chair.

Sample Degree Plan 2° w BSN Track SEMESTER ONE

NURS 3205	Clinical Competence I: Basic Skills for Nursing Practice
NURS 3906	CL, Foundations for Professional Nursing Practice Fall, 2008 only)
NURS 3380	Foundational Concepts of Nursing Practice (To be offered Spring, 2009 in place of NURS 3906
NURS 3630	CL, Clinical Foundations of Nursing Practice (To be offered Spring, 2009 in place of NURS 3906
NURS 3307	Health Assessment
NURS 3308	Pharmacology
NURS 3315	Nursing of the Developing Family
NURS 3211	CL, Clinical Competence II: Practicum in Dev. Family & Selected Foundation Skills

Total Credit Hours: 22

SEMESTER TWO

NURS 3385	Concepts of Chronic Care Nursing
NURS 3640	CL, Chronic Care Nursing Clinical
NURS 4312	Child Health Nursing
NURS 4314	Mental Health Nursing
NURS 4214	Nursing Research
NURS 4216	Clinical Competence III: Practicum in Mental Health Nursing and Child Healthcare

Total Credit Hours: 19

SEMESTER THREE

NURS 4316	Health Promotion Teaching in Nursing
NURS 4317	CL, Community Nursing
NURS 4318	Management & Leadership in Nursing
NURS 4919	CL, Acute Care Nursing (Fall 2008 only)
NURS 4398	Concepts of Acute Care Nursing (To be offered Spring, 2009 in place of NURS 4919)
NURS 4690	CL, Acute Care Nursing Clinical (To be offered Spring, 2009 in place of NURS 4919)
NURS 4219	CL, Clinical Competence IV: Practicum in Integration of Nursing

Total Credit Hours: 20

COURSE DESCRIPTIONS

Second Degree Web-Based BSN Undergraduate Track Courses

Undergraduate courses are delivered via traditional, Web-enhanced (combination of face-to-face and online), and Web-based (completely online) methodologies. Traditional course methodology is indicated by **T**, Web-enhanced by **WE**, and Web-based by **WB**.

All pre/co-requisites and any designated conditions/criteria for previous courses apply throughout the curriculum. All general education courses should be completed prior to beginning the nursing curriculum.

KEY: Courses are listed in numerical order.

(CL) Concurrent enrollment in a Clinical Section is required.

(#:#:#) First # represents the number of credit hours, Second # represents the number of lecture hours per week, Third # represents the number of clinical hours per week.

***** Elective Courses are offered at select times as faculty and interest are present.

(V) Variable Credit.

3000 Level Courses

3205. Basic Skills for Nursing Practice: Clinical Competence I Practicum (CL 2:0:6 WB). (2nd Degree) (Prerequisite: Program admission and completion of all required general education courses.) This laboratory/clinical experience is an introduction to foundational skills for practice and an overview of the standards for nursing practice. This course focuses on client safety and comfort, nutrition, selected nursing interventions, and beginning assessment skills.

3211. Clinical Competence II: Practicum in the Developing Family and Selected Foundational Nursing Skills. (CL 2:0:6 WB). (2nd Degree) (Prerequisite: Satisfactory completion of all first semester courses.) This clinical/laboratory experience provides opportunities to care for clients and families in obstetrical settings using knowledge obtained from the theory courses in developing family nursing. The practicum/simulation focuses on demonstration of additional foundational skills for nursing practice.

3302. Basic Concepts of Pathophysiology: Application in Nursing (3:3:0 WB). (2nd Degree)(Prerequisite: Previous Baccalaureate Degree and acceptance as a Special Student at TTUHSC SON.) Study of the physiologic basis of disease for beginning nursing practice. Emphasis on application of pathophysiologic concepts to the recognition of pathologic conditions across the life span.

3307. Health Assessment (CL 3:2:3 WB). (2nd Degree)(Prerequisite: NURS 3205; Corequisites: NURS 3906, 3308, 3315.) An introduction to health assessment as a systematic process with emphasis on developing skill in the techniques of assessment and communication across the life span.therapeutic communication across the life span. Includes introductory concepts of data collection, health history, physical examination, use of technology to access and document holistic health assessment and clinical decision making. Performance assessment of skills is required in a laboratory experience. .

3308. Pharmacology (3:3:0 WB). (2nd Degree) (Prerequisite: NURS 3205; Corequisite: NURS 3906, 3307, 3315.) This course introduces principles of pharmacology and drug therapy, classifications of drugs, and nursing implications of pharmaco-therapeutics. Legal, ethical, genetic, cultural, and life span implications of drug therapy are explored. Case studies are used to simulate dosage calculations, medication safety, routes of administration, and methods of documentation in accordance with evidence based standards of care.

3315. Developing Family Nursing (3:3:0 WB). (2nd Degree)(Prerequisite: NURS 3205 ; Corequisite: NURS 3906, 3307, 3308.) This course emphasizes nursing concepts related to the childbearing family with emphasis on the neonate and women's health. Family theory, health disparities, and genetics are also explored as a foundation for care delivery. Clinical judgment and reasoning will be required in the application of evidence based nursing care in case studies.

3906. Foundations of Nursing Practice (CL 9:3:6 WB). (2nd Degree) (Prerequisite: NURS 3205; Corequisite: NURS 3307, 3308, 3315.) This course is an introduction to nursing as a systematic process with emphasis on the knowledge, skills and values core to evidence based professional nursing utilizing a framework of clinical judgment and decision making coupled with a management systems approach of macro/micro systems. Emphasis is on human functioning, human diversity, and responses to health and illness. Clinical opportunities in exploration of the foundations of professional practice occur in a variety of acute care settings.

3380 Foundational Concepts of Nursing Practice (3:3:0) (2nd Degree) Pre-requisite: 3205; Co-requisites: 3307, 3308, 3315, 3630This course is an introduction to nursing as a systematic process with emphasis on the knowledge, skills and values core to evidence based professional nursing utilizing a framework of clinical judgment and decision-making coupled with a management systems approach of macro/micro systems. Emphasis is on human functioning, human diversity and responses to health and illness.

3630 (CL) Clinical Foundations of Nursing Practice 6 SCH (6:0:6) (2nd Degree) Pre-requisite: 3205; Co-requisites: 3307, 3308, 3315, 3380 This course provides students with the opportunity to demonstrate foundational professional nursing skills through clinical and simulated nursing activities for patients experiencing common health problems in a variety of health care settings.

3385 Concepts of Chronic Care Nursing (3:3:0) Pre-requisite: 3211; Co-requisites: 4312, 4314, 4214, 3640

This course emphasizes chronic care nursing concepts essential for professional nursing practice in a variety of settings. Special focus is on the concepts of aging, health promotion, and disease prevention as well as illness management. Clinical judgment and reasoning and the integration of therapeutic nursing skills will be demonstrated through case study analysis and weekly critical thinking activities.

3640 (CL) Chronic Care Nursing Clinical 6 SCH (6:0:6) Pre-requisite: 3211; Co-requisites: 4312, 4314, 4214, 3385 This course provides opportunities for students to integrate knowledge and theory essential to the care of clients experience chronic health problems, focusing on needs of aging population. Clinical judgment and reasoning and therapeutic nursing skills necessary for chronic care delivery are demonstrated in the application of evidence based nursing care through case studies and weekly clinical experiences.

4000 Level Courses

4214. Research (2:2:0 WB). (2nd Degree) (Prerequisite: NURS 3211; Corequisite: NURS 3911, 4312, 4314) This course will address basic research concepts and explore the relationship of research to theory and evidence based practice. The purpose of the course is to develop skills in critical appraisal and summary of the evidence in order to identify best practices in clinical care.

4216. Clinical Competence III: Practicum in Mental Health Nursing and Child Healthcare (CL 2:0:6 WB). (2nd Degree) (Prerequisite: Satisfactory completion of NURS 3911, 4312, and 4314.) This clinical laboratory experience provides opportunities to care for clients and families in pediatric and mental health settings using evidence based knowledge from the theory courses. The competency practicum focuses on demonstration of complex nursing skills used in chronic and acute nursing settings.

4219. Clinical Competence IV: Practicum in Integration of Nursing (CL 2:0:6 WB). (2nd Degree) (Prerequisite: Satisfactory completion of all first, second and third semester courses.) This course provides the student with the clinical opportunity to integrate the roles of provider, manager, and member of the profession. Practicum emphasis is on providing comprehensive nursing care to multiple clients in an acute care setting and integration of the core concepts of the curriculum in preparation for transition from student to professional nurse.

4312. Child Health (3:3:0 WB). (2nd Degree) (Prerequisite: NURS 3211 and satisfactory completion of all first semester courses; Corequisite: NURS 3911, 4314, 4214.) This course emphasizes child health and illness nursing concepts essential for safe professional nursing practice in pediatric acute care and outpatient settings. Growth and development are emphasized. Clinical judgment and reasoning are demonstrated in the application of evidence-based nursing in cases studies.

4314. Mental Health Nursing (3:3:0 WB). (2nd Degree) (Prerequisite: NURS 3211 and satisfactory completion of all first semester courses; Corequisite: NURS 3911, 4312, 4214.) This course emphasizes the concepts of human mental health in altered states from adaptation through dysfunction to **pathological** processes. The focus is on approaches to promote mental health/optimal function in the care of clients, groups, and families with mental illness using evidence based standards of care.

4316. Health Promotion and Education (3:3:0 WB). (2nd Degree) (Prerequisite: NURS 4216; Corequisite: NURS 4317, 4318, 4919.) This course incorporates health promotion and disease prevention concepts for assessment and intervention with clients across the lifespan. Emphasis is placed on health education planning and teaching principles to support and promotion of clients in the choice for healthy lifestyles.

4317. Community Nursing (CL 3:2:3 WB). (2nd Degree) (Prerequisite: NURS 4216; Corequisite: NURS 4316, 4318, 4919.) This course emphasizes public health and community nursing concepts essential for professional nursing practice. Focus is on the concepts of community health nursing practice, epidemiology and disease transmission, comprehensive assessment of risk factors and health problems, program planning and intervention, environmental health, and collaboration with the interdisciplinary team.

4318. Management and Leadership in Nursing (3:3:0 WB). (2nd Degree) (Prerequisite: NURS 4216; Corequisite: NURS 4316, 4317, 4919.) This course is designed to provide experiences and critical information for the role of the nurse as a leader and as a mid-manager in nursing. In addition to developing greater personal insight, this course includes opportunities to apply key concepts in relation to leadership roles, legal and ethical principles and the regulation of professional nursing practice. As the coordinator of care, the student will have the opportunity to examine complex staffing, delegation, organization and health care delivery system and policy issues for effective management of human and material resources.

4919. Acute Care Nursing (CL 9:2:21 WB). (2nd Degree) (Prerequisite: NURS 4216; Corequisite: NURS 4316, 4317 4318.) This course emphasizes acute care nursing concepts essential for professional nursing practice in complex adult medical/surgical environments. Clinical judgment and reasoning and therapeutic nursing skills are demonstrated in the application of evidence based nursing care in case studies and weekly clinical experiences.

4398 Concepts of Acute Care Nursing (3:3:0) Pre-requisite: 4216; Co-requisites: 4316, 4317, 4318, 4690

This course emphasizes acute care nursing concepts essential for professional nursing practice in complex adult medical/surgical environments. Advanced clinical judgment, reasoning and therapeutic nursing skills are demonstrated in the application of evidence based nursing care in case studies and critical thinking activities.

4690 (CL) Acute Care Nursing Clinical (6:0:6) Pre-requisite: 4216; Co-requisites: 4316, 4317, 4318, 4398

This course provides opportunities for students to synthesize generalist nursing roles of provider, manager, and member of profession in clinical and simulated acute care settings. Clinical judgment and reasoning and therapeutic nursing skills necessary in the acute care delivery are demonstrated in the application of evidence based nursing care through case studies and weekly clinical experiences.

RN-BSN Track (Licensed RN Students)

Cathleen A. Collins, PhD, RN, Department Chair

Faculty are located in a variety of sites including Lubbock, Odessa and Highland Lakes. The campuses work collaboratively to provide the instructional component of the **RN-BSN Track**. Web-based technology and associated methodologies are used to provide course delivery. A concerted effort is made to individualize the program to meet the needs of the learners and classes are exclusively designed for the registered nurse. The RN-BSN Track can be completed in two semesters with admission in the fall, spring, or summer semesters. Other degree plan options should be discussed with the Department Chair.

Admissions Requirements

RN-BSN (applicants who currently have a RN license)

- A 2.5 or higher cumulative grade point average is required for admission consideration. All non-nursing courses should be completed with a grade of “C” or higher prior to enrollment.
- All general education requirements must be documented on official transcripts prior to enrollment in nursing courses.
- Students must have NCLEX results prior to matriculation into the program. If NCLEX scores are still outstanding on the first class day, the student has until the 12th class day (10th class day for summer term) to provide the School with proof of passing NCLEX. If none is provided, student will be withdrawn from the program. Students **MUST** have a valid RN license by the 12th day of class (10th day for summer term).
- Submit a completed application and non-refundable application fee for admission to the School of Nursing. The total application fee is \$40 if submitted prior to the application deadline of July 1 (fall admission), November 1 (spring admission) or April 1 (summer admission). A late fee of \$20 may be assessed for late applications.
- Submit original copies of official transcripts from all institutions in which the student has enrolled.
- Submit verification of valid/current Texas RN license, including out-of-state RN students.
- Submit appropriate documentation, such as TOEFL scores if an international student.
- Complete general education requirements prior to beginning the first nursing course.

Although academic criteria (cumulative GPA, grades earned in science courses, and failed/repeated courses) are the most important factors in admission consideration, additional non-academic information can be considered. These non-academic factors include but are not limited to:

- Extracurricular activities
- Work experience
- Diversity of experience, such as study abroad, knowledge of other cultures, proficiency in other languages
- Permanent resident of TTUHSC service area county
- First generation college student
- Bilingual (English/Spanish)
- Socioeconomic status
- Prior enrollment at TTU

All applicants will be reviewed in an individual and holistic manner. No single factor will determine a student’s admission.

Excess Undergraduate Credit Hours

“An institution of higher education may charge a resident undergraduate student tuition at a higher rate than the rate charged to other resident undergraduate students (not to exceed the rate charged to nonresident undergraduate students) **IF**: before the semester begins the student has previously **attempted** coursework at any institution that exceeds by at least 30 hours the number of semester credit hours required for completion of the degree program enrolled in.”

It does NOT apply to

- Semester credit hours taken at a private or out of state institution.
- Earned credit hours without enrollment (i.e. advanced placement, credit by exam) or remedial courses.
- Credits that culminated in an earned degree.

For the complete text of the Enrolled Version including exemptions Senate Bill 345 enacted by the Texas Legislature access the following web site: <http://www.capitol.state.tx.us/>. In 2005, HB1172 was passed. This legislation allows the institution to charge a higher rate for hours in excess of 30 credit hours required for degree program beginning in Fall 2006.

Computer Requirements

RN-BSN Track courses are conducted online; therefore, students admitted are required to have a computer and satellite broadband communication.

Criminal Background Check

In compliance with TTUHSC policy, all applicants who have received offers of admission will be required to consent to a criminal background check before being allowed to matriculate. A history of criminal conduct or convictions may result in withdrawal of the admission offer. See the "Criminal Background Checks" section of the SON Student Handbook for the SON policy. The Health Sciences Center policy may be found at HSC OP 10.20.

Drug Screening

Drug Screenings may be required if required by the clinical institution site.

Special Student Enrollment**Non-Degree**

Under certain circumstances, it may be appropriate for an individual to seek admission as a special non-degree seeking student. This admission is for the purpose of taking a limited number of courses for one semester only. It is not an avenue for seeking a degree.

Enrollment Without Credit/Course Audit

Students who wish to audit a course for no grade must obtain approval from the Department Chair. Students who audit a course will not be listed on the class roll, and no notation of the audit will be made on the student's transcript. Students who are enrolled for 12 semester credit hours or more may audit a course without paying an additional fee. All other students must pay a \$10 fee for auditing a course.

Provisional Admission

RN-BSN candidates may be admitted as provisional students if there is concern for successful completion of the program. The term "provisional" applies to any admission applicants who demonstrate potential to succeed in the nursing program but do not meet the minimum admission criteria, i.e. have completed requirements of basic nursing education but have not taken the NCLEX examination. These designations are noted in the letter of admission, along with the condition for removal of the provision.

Conditional Admission

If the requirements for full admission are not met, conditional admission may be available. The student is required to comply with "conditions" stated in letter of admission offer prior to the first day of class for the semester the student is applying for. Examples of conditional admission are as follows but not limited to:

- Nursing degree completion confirmation (student graduating in current semester and verification is not available until the end of the semester)
- NCLEX licensure confirmation (student will not have verification until after admission process is over but before the semester of admission begins)
- Pre-requisite courses have not been completed prior to admission process.

Readmission

All requests for readmission must be made no later than two months prior to the first day of the semester in which readmission is requested. The Undergraduate Program Committee is responsible for overseeing all readmissions to the School of Nursing. The minimum cumulative grade point average is 2.5 for the RN-BSN track. A student seeking re-enrollment completes an application showing the expected entry point. The appropriate committee reviews all such requests and may take one of the following actions regarding readmission of a student who withdrew in good standing: 1) eligible and admit, 2) eligible pending space available in nursing courses and in sequence to date of action in relation to other readmission applicants, 3) not eligible. The UPC may assign requirements to be met as a condition of enrollment, i.e. successful completion of a comprehensive examination. Readmission of a student who has been dismissed or who withdrew for academic or disciplinary causes is based upon the decision of the UPC.

Transfer Student

Students requesting admission to the TTUHSC SON RN-BSN track as a transfer student from another university must meet the following criteria:

- Transfer student must be eligible to return to the institution from which he or she is transferring from
- Student previously enrolled in the RN-BSN track at TTUHSC School of Nursing who has attended another institution and is seeking to return must apply for readmission and will be required to meet the standards for transfer credit
- Number of credits completed at TTUHSC to receive a degree

Prerequisite Courses

Required Non-Nursing Prerequisite Courses for the RN-BSN Track

Texas Tech University Health Sciences Center (TTUHSC) is compliant with the intent of state law and Texas Higher Education Coordinating Board (THECB) regulations regarding the Texas Success Initiative (TSI).

Texas Success Initiative (TSI)

The Texas Success Initiative (TSI), formerly known as the Texas Academic Skills Program (TASP), is a state-required program that is designed to help ensure undergraduate students' success in their college studies. All students seeking an undergraduate degree from the Texas Tech University Health Sciences Center must satisfy the TSI requirement before enrollment. To obtain TSI details pertaining see [Texas Success Initiative](#)

The THECB requires every public institution of higher education in Texas to establish a core curriculum of at least 42 semester credit hours. Thus, students who will be earning their first baccalaureate degree from TTUHSC must satisfy the requirements of the Texas Core Curriculum.

The TTUHSC Core Curriculum reflects all of the THECB Texas Core Curriculum requirements. Each of the baccalaureate programs at the TTUHSC has identified prerequisite course work to meet the TTUHSC Core Curriculum and included additional discipline specific requirements. [TTUHSC Core Curriculum](#)

The pre-nursing course requirements listed below should be completed with a grade of "C" or better in each course. These requirements can be taken at any regionally accredited college or university and should be completed prior to enrollment in the first nursing course.

The Texas Tech University Health Sciences Center core curriculum for undergraduate nursing degrees incorporates the Field of Study requirements in nursing is comprised of 55 semester credit hours as detailed in the following table.

COMMUNICATION	HOURS
English (*ENGL1301, 1302)	6
MATHEMATICS	
Statistics (*MATH1342, 1442, 2342 or 2442)	3
NATURAL SCIENCES	
Anatomy and Physiology (*BIOL2401 & 2402)	8
Chemistry (*CHEM1305 & 1105 or CHEM 1406 or CHEM1411)	4
Microbiology (*BIOL2420 or BIOL2421)	4
Food and Nutrition (*HECO1322 or BIOL1322)	3
HUMANITIES AND VISUAL PERFORMING ARTS	
Visual/Performing Arts (any art, music, drama, or theatre arts course)	3
Humanities (any literature, philosophy, modern or classical language/literature, or cultural studies course)	3
SOCIAL AND BEHAVIORAL SCIENCES	
United States History (*HIST1301, 1302)	6
<i>Students may substitute 3 credit hours of Texas History for 3 credit hours of American History</i>	
Political Science (*GOVT 2301 & 2302 or GOVT 2305 & 2306)	6
Psychology (*PSY2301)	3
Sociology or Cultural Anthropology (*SOC1301 or ANTH2351)	3
Life Span Growth and Development (*PSY2314)	3
TOTAL	55

- Course numbers listed are based on the Texas Common Course Numbering System (TCCNS). Check with your academic institution to verify the course number that corresponds with the TCCNS number.
- Students must complete 3 credit hours of math to meet core curriculum requirements. If the student does not take math statistics, an additional math course must be completed to meet the core requirement
- 3 credit hours in upper division POLS may be substituted for POLS2302 if an A or B was earned in POLS1301.

RN-BSN Track: 55 Semester Hours from general education requirements courses
35 Semester Hours awarded for completion of the Basic Nursing Program
30 Semester Hours from the RN-BSN TTUHSC SON curriculum
120 Semester Hours BSN

Important Information about Pre-Nursing Course Requirements

- Pass/Fail grades are not accepted for credit toward degree requirements.
- Applicants may choose to request grades for all non-nursing courses greater than 10 years old not be considered in the GPA for admission. If this option is selected, those credits excluded are not eligible for pre-requisite course consideration. The applicant must have at least 34 credit hours within the past 10 years to use this option.
- Courses taken at Texas Tech University or any other college/university are not used in calculating the TTUHSC grade point average once a student has been admitted to the School of Nursing. However, all grades earned at all schools attended are calculated in the admission grade point average. The quality points and semester credit hours used to calculate the cumulative grade point average for admission to the School of Nursing are taken from the official transcripts submitted during the application process.
- The School of Nursing accepts courses completed via classroom, internet, correspondence, CLEP (College Level Examination Program) or advanced placement examination for which credit has been awarded and posted on an official transcript from an accredited college or university when determining completion of pre-requisite non-nursing course requirements.

Recognition of Previous Nursing Learning

The TTUHSC School of Nursing utilizes two methods to acknowledge previous nursing learning for students enrolled in the RN-BSN Track. They are (a) transfer of credit and (b) advanced placement. These methods are described below:

A. Transfer of Credit

- Applicants must submit original copies of official college transcripts from all institutions in which the student has enrolled. These transcripts will be reviewed and course work evaluated by the program administrator's office. Final determination regarding applicability of completed course work toward degree requirements lies with the Department Chair.
- Course equivalencies for transfer credit are assessed based upon the catalog course description or the course syllabus and/or notes provided by the student. Generally, courses of equivalent course content completed with the grade of "C" or higher at any accredited educational institution will be accepted for transfer credit toward degree requirements.
- The School of Nursing accepts courses completed via classroom, internet, correspondence, College Level Examination Program (CLEP) or advanced placement examination for which credit has been awarded and posted on an official transcript from an accredited college or university when determining completion of general education course requirements.
- No more than 55 general education course hours will be transferred, as well as a minimum of 38 hours of basic nursing education courses be posted, for a total of 93 semester hours that will be acknowledged for the RN-BSN degree requirements. (If a basic nursing program has less than 38 hours, details for this should be arranged with the Department Chair. These transfer hours will be posted upon admission to the School of Nursing by the Registrar's office of TTUHSC, thus the RN-BSN student will be classified as a Senior student upon entering TTUHSC SON.
- Applicants are encouraged to meet with or send transcripts to (fax is acceptable) the RN-BSN Coordinator's office to discuss applicability of transfer credit for degree purposes before submitting their application.

B. Advanced Placement

Students who have completed courses in nursing are eligible to receive advanced placement. Advanced placement credit may be awarded for credit earned at an agency that is not part of an institution of higher education, such as a diploma nursing school.

Offer of Admission

Offers of admission will be made approximately six weeks following the application deadline. Due to the limited number of positions available each semester, applicants should respond to the offer of admission no later than the deadline stated in the letter offering admission by returning a \$100 non-refundable placement guarantee fee as well as a signed response form accepting the offer. Failure to respond by the deadline results in withdrawal of the offer of admission.

Although academic criteria are the most important factors in admission consideration, beginning Fall 2005, additional information considered for all applicants will include, but are not limited to demographic data, diverse work and life experiences, and unique attributes that would contribute to the profession of nursing. The “diversity of experience” category may include, but will not be limited to study abroad, knowledge of other cultures, and proficiency in other languages. All applicants will be reviewed in an individual and holistic manner. No single factor will determine a student’s admission.

Degree Requirements for Students Admitted to the Program

Graduation Under a Particular Catalog

A student is expected to complete the degree requirements set forth in the School of Nursing *Catalog* in effect at the time the student enters the program. Only with the specific approval of the Department Chair may a different Catalog be selected. In no case may a student complete the requirements set forth in a catalog more than seven years old. The *Catalog* is published at least biennially and its provisions are applicable during the stated school year.

A student must earn a 2.0 in each course in the required curriculum and maintain an overall semester and cumulative GPA of 2.0 or greater. The Pass/Fail option may be used only in courses that exceed the minimum degree requirements. The School of Nursing Student Handbook provides further details regarding academic and graduation expectations.

Maintaining Minimum Academic Requirements

- Maintain a **2.0** GPA for each semester and overall cumulative
- A minimum grade of “C” in all nursing and non-nursing (degree required) courses is required.
- Students receiving a “D”, “F” or “WF” in a nursing course are eligible to repeat that course one time only pursuant to recommendation of course faculty.
- Students earning an overall cumulative GPA or a semester GPA less than a 2.0 in the semester of graduation are ineligible for graduation

Academic Dismissal

- Making a “D”, “F” or “WF” in two or more nursing courses in one semester is cause for academic dismissal.
- Making a “D”, “F” or “WF” in a third nursing course, even when the first two “D”s, “F”s or “WF”s have been replaced by a passing grade upon retaking those courses.
- Earning less than a 2.0 semester or cumulative GPA for two consecutive semesters.
- Making a “D”, “F”, or “WF” in the same nursing course twice.

Residence Credit

The minimum credit required of each undergraduate RN-BSN student is 30 hours at TTUHSC. Final determination for completed course work toward degree requirements is with the Department Chair.

Semester Credit Hours and Course Loads

The semester credit hour is the unit of measure for credit purposes. Didactic (lecture) hours are measured on a one-to-one basis; clinical hours are measured on a one-to-three basis. Approximately two hours in preparation for each hour of lecture or recitation and an appropriate amount of time for preparation for clinical activity is required. The number of semester credit hours a student may carry (course load) is regulated by the Department Chair, taking into account the quality of prior scholastic work performed and the types of courses involved. Permission is needed to enroll in more than 15 semester credit hours. Refer to example course loads in the sample degree plans for the RN-BSN student.

Degree Plan

The following degree plan is designed for applicants with a RN license only. It is provided here only as an overview of a basic course schedule of a full time student and it will vary depending on each student's ability to progress through the program. All general education courses must be completed prior to taking the first nursing course. Students should discuss an appropriate academic and employment workload with the RN-BSN Department Chair.

Sample Degree Plan RN-BSN Track

SEMESTER ONE			SEMESTER TWO

COURSE DESCRIPTIONS

RN-BSN Undergraduate Track Courses

Undergraduate courses are delivered via traditional, Web-enhanced (combination of face-to-face and online), and Web-based (completely online) methodologies. Traditional course methodology is indicated by **T**, Web-enhanced by **WE**, and Web-based by **WB**.

All pre/co-requisites and any designated conditions/criteria for previous courses apply throughout the curriculum. All general education courses should be completed prior to beginning the nursing curriculum.

KEY: Courses are listed in numerical order.

(CL) Concurrent enrollment in a Clinical Section is required.

(#:#:#) First # represents the number of credit hours, Second # represents the number of lecture hours per week, Third # represents the number of clinical hours per week.

***** Elective Courses are offered at select times as faculty and interest are present.

(V) Variable Credit.

4000 Level Courses

4378. Nursing Management and Leadership I (CL 3:3:0 WB). (RN-BSN) This course builds on management and leadership concepts essential in professional nursing practice in the 21st century. Management and leadership theories, roles and functions serve as the foundation for course. Key concepts covered include managing quality using informatics tools and systems, patient safety, staffing, fiscal planning and decision making.

4379. Nursing Management and Leadership II (CL 3:3:0 WB). (RN-BSN) Building on *Management and Leadership I*, this course presents concepts related to managing and leading in the changing healthcare environment. Interdisciplinary team building in a culturally diverse environment, delegation, conflict management, organizational structures and leading planned change in a variety of health care settings will be presented. (Pre-requisite: Completion of *Management and Leadership I*)

4380. Nature of Scientific Inquiry (3:3:0). (RN-BSN) This course is an introduction to the nature of nursing theory. Origins of and strategies for theory development in nursing are examined in terms of importance in guiding the profession as a practice discipline. Nursing theory is analyzed as a foundation for nursing practice and research.

4381. Issues and Trends in Nursing (3:3:0). (RN-BSN) Focuses on current issues and trends relevant to the professional nursing role on a local, state, national and international level.

4382. The Nurse as a Consumer of Research (3:3:0). (RN-BSN) Addresses basic research concepts through an evidence based practice approach. Students are prepared as consumers of research in order that relevant findings may be applied to clinical practice.

4383. Legal and Ethical Issues for RNs (3:3:0). (RN-BSN) This course surveys major legal and ethical issues in the delivery of healthcare. It focuses on basic principles and language of law and ethics. The role of state nursing boards in regulating practice is reviewed. The course provides an understanding of value development and its influence on ethical theories.

4387. Community Health Practice (3:3:0). (RN-BSN) This course emphasizes public health and community nursing concepts essential for professional nursing practice. Focus is on the concepts of community health nursing practice, epidemiology and disease transmission, comprehensive assessment of risk factors and health problems, program planning and intervention, environmental health, and collaboration with the interdisciplinary team.

4388. Client and Peer Teaching (3:3:0 WB). (RN-BSN) Elective Focuses on collaboration between the nurse and clients/peers. It includes an assessment of learning needs, the implementation of planned learning experiences, and the evaluation of process and product of teaching. Teaching-learning theories/principles are used as bases for educational planning and intervention. This course fulfills the elective requirement of the RN-BSN program.

4389. Applied Pharmacology for Nursing Practice (3:3:0). (RN-BSN) This course will build on the pharmacological knowledge established in the students prior nursing program. The course examines current emphasis on the reduction of medication errors through the use of SBAR as well as root cause analysis in determining factors which lead to adverse medication events. Resources at the organizational, federal, state and private level are reviewed in developing strategies that ensure care for vulnerable populations.

4390. Baccalaureate Nursing Practice (3:3:0). (RN-BSN) A capstone course which requires students to intergrate principles of patient centered care, interdisciplinary teams, evidence-based practice, quality improvement, informatics, and patient safety through discussion, personal reflection, and development of a professional portfolio.

GRADUATE PROGRAM

Barbara Cherry, DNSc, MBA, RN, NEA-BC, Department Chair for Leadership Studies
Emily Merrill, Ph.D, RN, FNP, BC, Department Chair for Nurse Practitioner Studies

Introduction

The School of Nursing Graduate Program offers the Master of Science in Nursing (MSN) degree and the Doctorate of Nursing Practice (DNP) degree. The MSN degree has the following tracks: Nursing Administration, Nursing Education, Family Nurse Practitioner, Pediatric Nurse Practitioner, Geriatric Nurse Practitioner, and Acute Care Nurse Practitioner. The Doctorate of Nursing Practice offers the following two specialty areas: Advanced Practice Nursing and Executive Leadership. The Ph.D. in Nursing is offered through a collaborative program with Texas Woman's University (TWU) with the degree being granted by TWU. The School of Nursing also offers post-MSN certification in the following nurse practitioner specialty areas: family nurse practitioner, pediatric nurse practitioner, acute care nurse practitioner, and geriatric nurse practitioner.

Master of Science in Nursing (MSN)

Purpose

The purpose of the Master of Science in Nursing Program is to prepare the graduate to practice nursing within an expanded role. In synthesizing a clinical and functional focus, the graduate assumes an encompassing perspective of practice, service, research, and education.

MSN Student Learning Outcomes

Upon program completion, the MSN graduate will be prepared to:

- Provide patient-centered care in the master's prepared nursing role.
- Work in interdisciplinary teams to address the needs of patients using master's prepared nursing role skills.
- Employ evidence-based practice (EBP) by integrating the best research evidence into the master's prepared nursing role.
- Apply quality improvement as a master's prepared nurse.
- Utilize information in the master's prepared nursing role to reduce errors, manage knowledge and information, make decisions, and communicate effectively.
- Integrate best practices in implementation of master's prepared nursing roles to ensure safety and risk reduction for patients and populations.

These objectives are met by all MSN students in all program tracks at all sites. The MSN educational program delivery is accomplished by a combination of on campus classes, web-based technologies and the use of Healthnet, a two-way interactive video conferencing system.

MSN Application and Admission Information

All applicants are selected on a composite evaluation of past academic achievement, personal essay, and references. Although the materials required for admission consideration vary from one program to another, the general qualities considered are:

- Academic performance and aptitude
- Ability to perform capably in positions of responsibility for self and others
- Potential for leadership in the advanced nursing role

MSN Application Deadlines

Consideration for admission is given to applicants who meet all admission criteria and have submitted all admission requirements by the application deadline to the TTUHSC Registrar's Office, SON Admissions, 3601 4th Street, Stop 8310, Lubbock, Texas 79430.

To be considered for admission "ALL" admission requirements must be received by the TTUHSC Registrar's Office by the application deadline noted below:

	Spring 2009 Admission	Summer 2009 Admission	Fall 2009 Admission	Spring 2010 Admission
Application Deadline	October 1, 2008	For Post-Master's Certificate Programs ONLY: April 1, 2009	May 1, 2009	September 1, 2009

Admission Requirements - MSN

Applicant must submit the following application requirements for full admission:

- Valid RN License
- Baccalaureate nursing degree from a regionally accredited college or university with nursing program accreditation from the Commission on Collegiate Nursing Education (CCNE) or from the National League for Nursing Accrediting Commission (NLNAC).
- Successful completion of an undergraduate research and statistics course
- Minimum 3.0 GPA or better (on a 4.0 scale) in upper division undergraduate nursing courses
- BLS Certification
- Personal Essay
- References (3)
- Signature Page
- Oath of Residency
- Official transcripts from all nationally accredited colleges and universities
- Immunizations
- International Students: appropriate documentation – TOEFL score
- Applicants to the Acute Care Nurse Practitioner (ACNP) track must have worked in an acute care, intensive care, or emergency department setting within the past five (5) years and have at least one (1) year of experience working as a registered nurse in critical care prior to admission.
- Please note that applicants to the Pediatric Nurse Practitioner track are required to have one year pediatric experience prior to sitting for the National Certification Board of Pediatric Nurse Practitioners (PNCB) exam.

Post Master's Certificate

- Valid RN License
- Master of Science in Nursing degree from a regionally accredited college or university with nursing program accreditation from the Commission on Collegiate Nursing Education (CCNE)
- Minimum 3.0 GPA or better (on a 4.0 scale)
- ACLS/PALS certification (FNP, GNP, PNP, ACNP)
- Personal Essay
- References (3)
- International Students - appropriate documentation, i.e. TOEFL score
- Applicants to the Acute Care Nurse Practitioner (ACNP) Track must have worked in an acute care, intensive care, or emergency department setting within the past five (5) years and have at least one (1) year of experience working as a registered nurse in critical care prior to admission.
- Please note that applicants to the Pediatric Nurse Practitioner track are required to have one year pediatric experience prior to sitting for the National Certification Board of Pediatric Nurse Practitioners (PNCB) exam.

Although academic criteria are the most important factors in admission considerations, additional information considered for all applicants will include but is not limited to demographic data, diverse work and life experiences, and unique attributes that would contribute to the profession of nursing. Other non-academic factors considered in the admission decision include but are not limited to:

- Extracurricular activities
- Work experience
- Diversity of experience such as study abroad, knowledge of other cultures, proficiency in other languages
- Permanent resident of TTUHSC service area county
- First generation college student
- Bilingual (English/Spanish)
- Socioeconomic status
- Prior enrollment at TTU\TTUHSC

All applicants will be reviewed in an individual and holistic manner. No single factor will determine a student's admission.

Only **complete** applications are reviewed for admission consideration.

Computer Requirements

All students admitted will be required to have a personal computer with Internet access. Minimum computer requirements as recommended by the School of Nursing can be found at the following link: <http://www.ttuhsu.edu/son/undergrad/sysReq>

Criminal Background Check

In compliance with TTUHSC policy, all applicants who have received offers of admission will be required to consent to a criminal background check before being allowed to matriculate. A history of criminal conduct or convictions may result in withdrawal of the admission offer. See the "Criminal Background Checks" section of the SON Student Handbook for the SON policy. The TTUHSC policy may be found at HSC OP 10.20. <http://www.ttuhsu.edu/hsc/op/op10/op1020>.

Drug Screening

Drug Screenings may be required if requested by the institution where the student performs clinical experiences.

Special Student Enrollment

Special Student enrollment is not an avenue for seeking a degree. Under certain circumstances, it may be appropriate for an individual to seek admission as a non-degree seeking student. This admission is for the purpose of taking a limited number of courses. The applicant must seek approval from the Department Chair prior to submitting a special student (non-degree) application. The student must also be eligible for admission under the following criteria:

- Currently enrolled in a master's nursing program at a college or university and in good academic standing;
- Registered nurse with a BSN not enrolled in an educational institution; or
- Waiver to the above requirement from the Department Chair.

In addition to meeting admission criteria, consideration to non-degree seeking students is given on a space available basis.

A complete Special Student (non-degree) application includes the following

- Submitted special-student application
- Submitted signature page & application fee
- Submitted official transcripts from all universities or colleges attended
- Submitted Oath of Residency
- Submitted immunizations
- Submitted BLS certification

Six semester credit hours is the maximum number that can be taken as a special student. A special student wishing to apply for full admission to the Graduate Program must submit the full application according to the stated deadlines and will be considered for admission with the entire pool of applicants for the time period the application is submitted.

Enrollment without Credit/Course Audit

Students who wish to audit a course for no grade must obtain approval from the Department Chair. Students who audit a course will not be listed on the class roll, and no notation of the audit will be made on the student's transcript. Students who are enrolled for 12 semester credit hours or more may audit a course without paying an additional fee. All other students must pay a \$10 fee for auditing a course.

Provisional Admission

If the requirements for full admission are not met, provisional admission may be available. Students who do not meet the minimum requirement for admission are evaluated by the Graduate Program Committee. Provisional admission requires the student to enroll in 6 semester credit hours of graduate level courses for a semester and obtain a grade of B or higher. Students are not eligible for scholarships while on provisional status. The provisional status is changed to full matriculation once this stipulation has been met.

Conditional Admission

If the requirements for full admission are not met, conditional admission may be available. The student is required to comply with “conditions” stated in the letter of admission offer prior to the first day of class for the semester the student is applying for. Examples of conditional admission include, but are not limited to, the following:

- BSN completion confirmation (student graduating in current semester and verification is not available until the end of the semester)
- MSN completion confirmation (student graduating in current semester and verification is not available until the end of the semester)
- Leveling courses may be required per the Graduate Program Committee

Readmission

All requests for readmission must be made prior to the application deadline for the semester in which readmission is requested. The Department Chair and Graduate Program Committee are responsible for overseeing all readmissions to the School of Nursing Graduate Program. Readmission of a student who has been dismissed or who withdrew for academic or disciplinary causes is also based upon the decision of the Department Chair and Graduate Program Committee.

A student seeking readmission must comply with the following:

- Submit a letter requesting readmission to the Graduate Program
- Meet all recommendations and requirements set forth by the Department Chair and Graduate Program Committee
- Complete online application and meet admission criteria for full admission

Student Transfers from other Educational Institutions

Students requesting admission to the TTUHSC SON graduate program as a transfer student from another college or university must meet the following criteria:

- Eligible to return to the institution from which he or she is transferring
- Student previously enrolled in the graduate program at TTUHSC School of Nursing who has attended another institution and is seeking to return must apply for readmission; any courses considered for transfer credit will be required to meet the standards for transfer credit
- Complete the majority, or over 50%, of the required credits to complete the degree at TTUHSC School of Nursing

Recognition of Previous Learning

Transfer Credit

The decision to award transfer of academic credit is made by the Department Chair after a thorough review of the applicant's transcript for evidence of satisfactory course work completion and review of the course catalog descriptions and/or course syllabi as necessary to determine course equivalency. The decision to award transfer credit is based on the TTUHSC Transfer Credit Guidelines and Procedures. Generally, credits earned at a regionally accredited college or university are accepted for transfer provided course content is equivalent and a grade of B or higher has been earned in the course. The majority, or over 50%, of the required credits toward a TTUHSC School of Nursing graduate degree must be earned at TTUHSC.

Students requesting courses to be considered for transfer credit will:

- Submit official transcripts for courses considered for transfer credit
- Submit course descriptions and course content for each course

A student previously enrolled in the graduate program at TTUHSC School of Nursing who has attended another institution and is seeking to return and transfer in course credit must apply for readmission. Courses accepted for transfer will be required to meet the standards for transfer credit.

Offer of Admission

Offers of admission will be made approximately four – six weeks following the application deadline. In order to assure a place in the desired program, applicants must comply with the following:

- Return Acceptance Form on or before date specified in the offer of admissions letter
- Submit \$100.00 non-refundable placement\orientation fee
- Call and schedule advisement appointment with Graduate Program Advisor
- Complete Criminal Background online
- Complete Sexual Harassment training online and submit certificate of completion
- Failure to respond to admissions offer by the date specified in offer letter may result in withdrawal of the offer of admission.

Degree Requirements for Students Admitted to the Graduate Program –

Master of Science in Nursing

Graduation Under a Particular Catalog

A student is expected to complete the degree requirements set forth in the School of Nursing *Catalog* in effect at the time the student enters the program. Only with the specific approval of the Department Chair may a different Catalog be selected. In no case may a student complete the requirements set forth in a catalog more than seven years old. The *Catalog* is published at least biennially and its provisions are applicable during the stated school year.

Maintaining Minimum Academic Requirements

The minimum GPA for continuance in the graduate program is 3.0 overall. Additionally a minimum grade of “B” is required in each course (nursing and non-nursing) required for degree completion. The TTUHSC School of Nursing Student Handbook provides further details regarding academic and graduation expectations.

Majority of Credits

The majority of credits toward any graduate or post-baccalaureate professional degree awarded by the TTUHSC must be earned 1) at the TTUHSC or 2) in the case of those programs offered through joint, cooperative, or consortia arrangements, through instruction offered by the participating institutions.

Requirements for Progression Towards the MSN Degree

- Grades are reviewed each semester and progression in the Graduate Program is determined by the Department Chair and Graduate Program Committee.
- MSN students are required to maintain a 3.0 GPA with grades at “B” or above in all graduate courses. Students with a cumulative or semester GPA below 3.0 are placed on academic probation.
- Students receiving “C” or lower in a graduate course are eligible to repeat that course one time only pursuant to recommendation of course faculty.
- Students earning an overall cumulative GPA or a semester GPA less than a 3.0 in the semester of graduation/completion are ineligible for graduation/completion.

Academic Dismissal:

Dismissal from TTUHSC School of Nursing Graduate Program will result from the following circumstances:

- Students making a “C” or lower in two or more graduate courses in one semester
- Students making a “C” or lower in the same nursing course twice
- Students making a “C” or lower in a third graduate course even though two graduate courses have been retaken and a satisfactory grade of “B” or better has been obtained.

Failing to meet expected standards in any program may result in academic dismissal at any time.

Residence Credit

The minimum residence for the MSN degree is the majority, or over 50%, of graduate course work carrying residence credit must be completed at TTUHSC. Residence credit as used here means credit for work done while enrolled in and attending classes at TTUHSC and should not be confused with “residence” in the State of Texas.

Semester Credit Hours and Course Loads

The semester credit hour is the unit of measure for credit purposes. Didactic (lecture) hours are measured on a one-to-one basis; clinical hours are measured on a one-to-three basis. Approximately two hours in preparation for each hour of lecture/didactic and an appropriate amount of time for preparation for clinical activities are required. The number of semester credit hours a student may carry (course load) is regulated by the Department Chair. In determining this load, the Department Chair takes into account the quality of prior scholastic work performed and the types of courses involved. A student enrolled in 9 credits in the Fall or Spring semester and 6 credits in the Summer semester is considered full-time.

MSN Degree Course Requirements

MSN Leadership in Nursing Education

(All Online Courses): (Semester Credit Hours Required for Completion – 42)

Key: CL = Clinical; WB = Web-Based (on-line course); WE = Web-Enhanced; T = Traditional)

Required Non-Nursing Courses

Graduate Level Statistics (3 semester credit hours)

Required Core Nursing Courses

- NURS 5330 Theories and Therapies (3:3:0 WB or WE)
- NURS 5371 Professional Nursing Issues (3:3:0 WB)
- NURS 5391 Principles of Advanced Research (3:3:0 WB)
- NURS 5343 Pharmacotherapeutics for Nurses in Advanced Practice (3:3:0 WB)
- NURS 5345 Advanced Practice Nursing: Application of Pathophysiology (3:3:0 WB)

Clinical Tracks:

A minimum of 6 credits is required from a sequential combination of any of the following courses

- NURS 5300 Community Health I: Foundations of Community Health Nursing (CL 3:2:3 WB)
- NURS 5301 Community Health II: Role Design and Implementation (CL 3:2:3 WB)
- NURS 5310 Advanced Gerontological Nursing in the Aging Network (CL 3:2:3 WB)
- NURS 5311 Practicum in Advanced Gerontological Nursing in the Aging Network (CL 3:1:6 WB)

Specialty Courses:

- NURS 5314 Leadership in Education I: Foundations of Nursing Education (3:3:0 WB)
- NURS 5315 Leadership in Education II: Critical Elements of the Teaching Role (CL 3:2.5:1.5 WB)
- NURS 5316 Leadership in Education III: Evaluation and Outcomes (CL 3:2.5:1.5 WB)
- NURS 6030 Leadership in Education IV: Role and Practicum (CL 3:5:7.5 WB)

Thesis

NURS 6000 Thesis (6 hours minimum)

Non-Thesis

NURS 5392 Application of Advanced Research (3:2:3)
Elective (3)

MSN Leadership in Nursing Administration

(Semester Credit Hrs Required for Completion – 42)

Key: CL = Clinical; WB = Web-Based (on-line course); WE = Web-Enhanced; T = Traditional)

Required Non-Nursing Courses

Graduate Level Statistics (3 semester credit hours)

Required Core Nursing Courses

- NURS 5330 Theories and Therapies (3:3:0 WB or WE)
- NURS 5371 Professional Nursing Issues (3:3:0 WB)
- NURS 5391 Principles of Advanced Research (3:3:0 WB)
- NURS 5345 Advanced Practice Nursing: Application of Pathophysiology (3:3:0 WB)

Clinical Tracks:

A minimum of 6 credits is required from a sequential combination of any of the following courses

- NURS 5300 Community Health I: Foundations of Community Health Nursing (3:2:3 WB)
- NURS 5301 Community Health II: Role Design and Implementation (CL 3:2:3 WB)
- NURS 5310 Advanced Gerontological Nursing in the Aging Network (CL 3:2:3 WB)
- NURS 5311 Practicum in Advanced Gerontological Nursing in the Aging Network (CL 3:1:6 WB)

Specialty Courses:

- NURS 5346 The Nursing Administrator: Standards of Excellence (3:3:0 WE)
- NURS 5347 Administrative Role Development (3:3:0 WE)
- NURS 5348 Administrative Role Development: The Nurse Administrator as Leader (3:3:0 WE)
- NURS 6010 Application of Administrative Practice (3:0:9 WE)

Thesis

NURS 6000 Thesis (6 hours minimum)

Non-Thesis

NURS 5392 Application of Advanced Research (3:2:3 WB)
Elective (3)

Family Nurse Practitioner

(Semester Credit Hours Required for Completion-48)

Key: CL = Clinical; WB = Web-Based (on-line course); WE = Web-Enhanced; T = Traditional)

Required Non-Nursing Courses

Graduate Level Statistics (3 semester credit hours)

Required Core Nursing Courses

- NURS 5330 Theories and Therapies (3:3:0 WE or WB)
- NURS 5371 Professional Nursing Issues (3:3:0 WB)
- NURS 5391 Principles of Advanced Research (3:3:0 WB)

Pre-requisite Nursing Courses

- NURS 5111 The Advanced Practice Nurse Role: Foundations for Advanced Practice Nursing (1:1:0 WE)
- NURS 5222 Diagnostic Methods and Procedures for Advanced Practice (CL 2:1:3 WE) Requires on campus lab
- NURS 5302 Community Health Foundations for Advanced Practice (CL 3:1:6 WB)
- NURS 5342 Advanced Health Assessment (CL 3:1:6 WB) (Requires on campus lab)
- NURS 5343 Pharmacotherapeutics for Nurses in Advanced Practice (3:3:0 WB)
- NURS 5345 Advanced Practice Nursing: Application of Pathophysiology (3:3:0 WB)

Specialty Courses

- ▲ NURS 5340 Primary Health Care I: Advanced Assessment, Pathology, and Management (CL 3:1:6 WE)
- NURS 5341 Primary Health Care II: Advanced Role Application (CL 3:1:6 WE)
- NURS 6060 Nursing Practicum: A majority of clinical must be completed in medically underserved settings. (CL 6:0:36 WE)

Thesis

- NURS 6000 Thesis (6 hours minimum)

Non-Thesis

- NURS 5392 Application of Advanced Research (3:3:0 WB)
- Elective (3)

▲ All Nurse Practitioner students are required to hold Advanced Life Support Certification appropriate to their clinical specialty as a pre-requisite to NURS 5340. NURS 5344 is offered for those who wish to become certified through the School of Nursing.

Acute Care Nurse Practitioner

(Semester Credit Hours Required for Completion-48)

Key: CL = Clinical; WB = Web-Based (on-line course); WE = Web-Enhanced; T = Traditional)

Required Non-Nursing Courses

Graduate Level Statistics (3 semester credit hours)

Required Core Nursing Courses

- NURS 5330 Theories and Therapies (3:3:0 WB or WE)
- NURS 5371 Professional Nursing Issues (3:3:0 WB)
- NURS 5391 Principles of Advanced Research (3:3:0 WB)

Pre-requisite Nursing Courses

- NURS 5111 The Advanced Practice Nurse Role: Foundations for Advanced Practice Nursing (1:1:0 WE)
- NURS 5222 Diagnostic Methods and Procedures for Advanced Practice (CL 2:1:3 WE) Requires on campus lab
- NURS 5342 Advanced Health Assessment (CL 3:1:6 WB) (Requires on campus lab)
- NURS 5343 Pharmacotherapeutics for Nurses in Advanced Practice (3:3:0 WB)
- NURS 5345 Advanced Practice Nursing: Application of Pathophysiology (3:3:0 WB)

Specialty Courses

- ▲ NURS 5450 Acute Care Nurse Practitioner Concepts & Diagnostic Skills I: Adult (CL 4:2:6 WE)
- NURS 5551 Acute Care Nurse Practitioner Concepts & Diagnostic Skills II: Adult (CL 5:2:9 WE)
- NURS 6050 Acute Care Nurse Practitioner IV: Role & Practicum (CL 6:0:36 WE)

Thesis

- NURS 6000 Thesis (6 hours minimum)

Non-Thesis

- NURS 5392 Application of Advanced Research (3:3:0 WB)
- Elective (3)

▲ All Nurse Practitioner students are required to hold Advanced Life Support Certification appropriate to their clinical specialty as a pre-requisite to NURS 5450. NURS 5344 is offered for those who wish to become certified through the School of Nursing. One year of critical care experience required prior to beginning N5450

Pediatric Nurse Practitioner

(Semester Credit Hours Required for Completion-48)

Key: CL = Clinical; WB = Web-Based (on-line course); WE = Web-Enhanced; T = Traditional)

Required Non-Nursing Courses

Graduate Level Statistics (3 semester credit hours)

Required Core Nursing Courses

- NURS 5330 Theories and Therapies (3:3:0 WB or WE)
- NURS 5371 Professional Nursing Issues (3:3:0 WB)
- NURS 5391 Principles of Advanced Research (3:3:0 WB)

Pre-requisite Nursing Courses

- NURS 5111 Advanced Practice Nurse Role (1:1:0 WE)
- NURS 5222 Diagnostic Methods and Procedures (CL 2:1:3 WE) Requires on campus lab

- NURS 5345 Advanced Practice Nursing: Application of Pathophysiology (3:3:0 WB)

Specialty Courses

- ▲ NURS 5333 Management of Acute and Episodic Conditions in Older Adults (CL 3:1:6 WB)
- NURS 5334 Management of Chronic Health Conditions in Older Adults (CL 3:1:6 WB)
- NURS 6090 Gerontological Nurse Practitioner Practicum (CL 6:0:36 WE)

Thesis

- NURS 6000 Thesis (6 hours minimum)

Non-Thesis

- NURS 5392 Application of Advanced Research (3:3:0 WB)
- Elective (3)

▲ All Nurse Practitioner students are required to Advanced Life Support Certification appropriate to their clinical specialty as a pre-requisite to NURS 5333. NURS 5344 is offered for those who wish to become certified through the School of Nursing.

MSN Collaborative TTUHSC- Angelo State University (ASU) Degree Course Requirements

All students will complete the ASU application for the joint program. Upon receipt of completed application, ASU will evaluate the candidate and, if acceptable for admission to the ASU program, ASU will forward a copy of the completed application to the TTUHSC School of Nursing Graduate Program Coordinator. The Department Chair for the TTUHSC School of Nursing NP Studies. The TTUHSC Graduate Program Committee will determine if the applicant may enter the joint program.

Family Nurse Practitioner

(Semester Credit Hours Required for Completion-48)

Post Masters Nurse Practitioner Certificate Course Requirements

Family Nurse Practitioner Certificate

(Semester Credit Hours Required for Completion-27)

Key: CL = Clinical; WB = Web-Based (on-line course); WE = Web-Enhanced; T = Traditional)

This program is also available through the collaborative program with Angelo State University.

Pre- or co-requisites to Required Nursing Courses:

The Department Chair will review the applicant's previous academic preparation and/or competency in required courses in order to award transfer credit. Any deficiencies will be met by enrollment in required courses.

Required Nursing Courses

NURS 5111	Advanced Practice Nurse Role (1:1:0 WE)
NURS 5222	Diagnostic Methods and Procedures (CL 2:1:3 WE) Requires on campus lab
NURS 5302	Community Health Foundations for Advanced Practice (CL 3:1:6 WB)
▲NURS 5340	Primary Health Care I: Advanced Assessment, Pathology, and Management (CL 3:1:6 WE)
NURS 5341	Primary Health Care II: Advanced Role Application (CL 3:1:6 WE)
NURS 5342	Advanced Health Assessment (CL 3:1:6 WB (Requires on campus lab)
NURS 5343	Pharmacotherapeutics for Nurses in Advanced Practice (3:3:0 WB)
NURS 5345	Advanced Practice Nursing: Application of Pathophysiology (3:3:0 WB)
NURS 6060	Nursing Practicum-A majority of clinical must be completed in medically underserved settings. (CL 6:0:36 WE)

▲All Nurse Practitioner students are required to hold ACLS Certification appropriate to their clinical specialty as a pre-requisite to NURS 5340. NURS 5344 is offered for those who wish to become certified through the School of Nursing.

Acute Care Nurse Practitioner Certificate

(Semester Credit Hours Required for Completion-27)

Key: CL = Clinical; WB = Web-Based (on-line course); WE = Web-Enhanced; T = Traditional)

This program is also available through the collaborative program with Angelo State University

Pre- or co-requisites to Required Core Courses:

The Department Chair will review the applicant's previous academic preparation and/or competency in required courses in order to award transfer credit. Any deficiencies will be met by enrollment in required courses.

Required Nursing Courses

NURS 5111	Advanced Practice Nurse Role (1:1:0 WE)
NURS 5222	Diagnostic Methods and Procedures (CL 2:1:3 WE) Requires on campus lab
NURS 5342	Advanced Health Assessment (CL 3:1:6 WB) Requires on campus lab
NURS 5343	Pharmacotherapeutics for Nurses in Advanced Practice (3:3:0 WB)
NURS 5345	Advanced Practice Nursing: Application of Pathophysiology (3:3:0 WB)
▲NURS 5450	Acute Care Nurse Practitioner Concepts & Diagnostic Skills I: Adult (CL 4:2:6 WE)
NURS 5551	Acute Care Nurse Practitioner Concepts & Diagnostic Skills II: Adult (CL 5:2:9 WE)
NURS 6050	Acute Care Nurse Practitioner IV: Role & Practicum (CL 6:0:36 WE)

▲All Nurse Practitioner students are required to hold ACLS Certification appropriate to their clinical specialty as a pre-requisite to NURS 5450. NURS 5344 is offered for those who wish to become certified through the School of Nursing.

Pediatric Nurse Practitioner Certificate

(Semester Credit Hours Required for Completion-27)

Key: CL = Clinical; WB = Web-Based (on-line course); WE = Web-Enhanced; T = Traditional)

This program is also available through the collaborative program with Angelo State University.

Pre- or co-requisites to Required Nursing Courses:

The Department Chair will review the applicant's previous academic preparation and/or competency in required courses in order to award transfer credit. Any deficiencies will be met by enrollment in required courses.

Required Nursing Courses

NURS 5111	Advanced Practice Nurse Role: Foundations for Advanced Practice Nursing (1:1:0 WE)
NURS 5222	Diagnostic Methods and Procedures for Advanced Practice (CL 2:1:3 WE) Requires on campus lab
NURS 5302	Community Health Foundations for Advanced Practice (CL 3:1:6 WB)
NURS 5342	Advanced Health Assessment (CL 3:1:6 WB) Requires on campus lab
NURS 5343	Pharmacotherapeutics for Nurses in Advanced Practice (3:3:0 WB)
NURS 5345	Advanced Practice Nursing: Application of Pathophysiology (3:3:0 WB)
▲NURS 5380	Pediatric Primary Health Care I (CL 3:1:6 WB)
NURS 5381	Pediatric Primary Health Care II (CL 3:1:6 WB)

▲NURS 5333	Management of Acute and Episodic Conditions in Older Adults (CL 3:1:6 WB)
NURS 5334	Management of Chronic Health Conditions in Older Adults (CL 3:1:6 WB)
NURS 6090	Gerontological Nurse Practitioner Practicum (CL 6:0:36 WE)

▲All Nurse Practitioner students are required to hold ACLS Certification appropriate to their clinical specialty as a pre-requisite to NURS 5333. NURS 5344 is offered for those who wish to become certified through the School of Nursing.

RN – MSN Rural Education Leadership Track

The **RN to MSN Rural Educational Leadership Track** is a collaborative program between TTUHSC School of Nursing's graduate and undergraduate programs and is designed for registered nurses who have an associate degree or diploma in nursing and wish to pursue a graduate degree focused on nursing education. This rigorous "bridge" program moves the student directly from Bachelor's level courses to Master's level courses and is completed through on-line course offerings and practicum experiences. The associate degree/diploma student does not receive the BSN degree but instead progresses towards graduating with the MSN degree. The RN – MSN track requires 57 semester credit hours to complete.

RN – MSN Admission Requirements

Applicant must submit the following application requirements for full admission:

- Graduate from an associate degree/diploma in nursing program accredited by the National League for Nursing Accrediting Commission (NLNAC).
- Completion of all general education requirements for the BSN (55-58 credits) (see requirements pg 60)
- Cumulative GPA average of 3.0 or higher in basic nursing program and general education requirements
- Valid RN License
- BLS Certification
- Personal Essay
- References (3)
- Signature Page
- Oath of Residency
- Immunizations
- Official Transcripts from all regionally accredited colleges and universities
- International Students – appropriate documentation, i.e. TOEFL score

Although academic criteria are the most important factors in admission considerations, additional information considered for all applicants will include but is not limited to demographic data, diverse work and life experiences, and unique attributes that would contribute to the profession of nursing. Other non-academic factors considered in the admission decision include but are not limited to:

- Extracurricular activities
- Work experience
- Diversity of experience such as study abroad, knowledge of other cultures, proficiency in other languages
- Permanent resident of TTUHSC service area county
- First generation college student
- Bilingual (English/Spanish)
- Socioeconomic status
- Prior enrollment at TTU\TTUHSC

All applicants will be reviewed in an individual and holistic manner. No single factor will determine a student's admission.

Only **complete** applications are reviewed for admission consideration, **which means ALL admission requirements must be received by the TTUHSC Registrar's Office by the application deadline as noted on page 59 for the MSN Graduate Program application deadlines.**

Prerequisite Courses

Required Non-Nursing Prerequisite Courses for the RN-MSN Track

Texas Tech University Health Sciences Center (TTUHSC) is compliant with the intent of state law and Texas Higher Education Coordinating Board (THECB) regulations regarding the Texas Success Initiative (TSI).

Texas Success Initiative (TSI)

The Texas Success Initiative (TSI), formerly known as the Texas Academic Skills Program (TASP), is a state-required program that is designed to help ensure undergraduate students' success in their college studies. All students seeking an undergraduate degree from the Texas Tech University Health Sciences Center must satisfy the TSI requirement before enrollment. To obtain TSI details, please go to the following link: [Texas Success Initiative](#)

The THECB requires every public institution of higher education in Texas to establish a core curriculum of at least 42 semester credit hours. Thus, students who will be earning their first baccalaureate degree, or the RN – MSN degree, from TTUHSC must satisfy the requirements of the Texas Core Curriculum.

The TTUHSC Core Curriculum reflects all of the THECB Texas Core Curriculum requirements. Each of the baccalaureate programs at the TTUHSC has identified prerequisite course work to meet the TTUHSC Core Curriculum and included additional discipline specific requirements. Please go to the following link for more information: [TTUHSC Core Curriculum](#).

The pre-nursing course requirements listed below should be completed with a grade of “C” or better in each course. These requirements can be taken at any regionally accredited college or university and should be completed prior to enrollment in the first nursing course.

The Texas Tech University Health Sciences Center core curriculum for the undergraduate nursing degrees, including the RN – MSN degree, incorporates the Field of Study requirements in nursing and is comprised of 55 semester credit hours as detailed in the following table.

COMMUNICATION	HOURS
English (*ENGL1301, 1302)	6
MATHEMATICS	
Statistics (*MATH1342, 1442, 2342 or 2442)	3
NATURAL SCIENCES	
Anatomy and Physiology (*BIOL2401 & 2402)	8
Chemistry (*CHEM1305 & 1105 or CHEM 1406 or CHEM1411)	4
Microbiology (*BIOL2420 or BIOL2421)	4
Food and Nutrition (*HECO1322 or BIOL1322)	3
HUMANITIES AND VISUAL PERFORMING ARTS	
Visual/Performing Arts (any art, music, drama, or theatre arts course)	3
Humanities (any literature, philosophy, modern or classical language/literature, or cultural studies course)	3
SOCIAL AND BEHAVIORAL SCIENCES	
United States History (*HIST1301, 1302)	6
<i>Students may substitute 3 credit hours of Texas History for 3 credit hours of American History</i>	
Political Science (*GOVT 2301 & 2302 or GOVT 2305 & 2306)	6
Psychology (*PSY2301)	3
Sociology or Cultural Anthropology (*SOC1301 or ANTH2351)	3
Life Span Growth and Development (*PSY2314)	3
TOTAL	55

- Course numbers listed are based on the Texas Common Course Numbering System (TCCNS). Check with your academic institution to verify the course number that corresponds with the TCCNS number.
- Students must complete 3 credit hours of math to meet core curriculum requirements. If the student does not take math statistics, an additional math course must be completed to meet the core requirement
- 3 credit hours in upper division POLS may be substituted for POLS2302 if an A or B was earned in POLS1301.

RN-MSN Track:	55	Semester Hours from general education requirements courses
	38	Semester Hours awarded for completion of the Basic Nursing Program
	12	Semester Hours from the RN-BSN TTUHSC SON curriculum
	45	Semester Hours from the MSN TTUHSC SON curriculum
	<hr/>	
	150	

Important Information about Pre-Nursing Course Requirements

- Pass/Fail grades are not accepted for credit toward degree requirements.
- Applicants may choose to request grades for all non-nursing courses greater than 10 years old not be considered in the GPA for admission. If this option is selected, those credits excluded are not eligible for pre-requisite course consideration. The applicant must have at least 34 credit hours within the past 10 years to use this option.
- Courses taken at Texas Tech University or any other college/university are not used in calculating the TTUHSC grade point average once a student has been admitted to the School of Nursing. However, all grades earned at all schools attended are calculated in the admission grade point average. The quality points and semester credit hours used to calculate the cumulative grade point average for admission to the School of Nursing are taken from the official transcripts submitted during the application process.
- The School of Nursing accepts courses completed via classroom, internet, correspondence, CLEP (College Level Examination Program) or advanced placement examination for which credit has been awarded and posted on an official transcript from accredited college or university when determining completion of pre-requisite non-nursing course requirements.

Recognition of Previous Nursing Learning:

The TTUHSC School of Nursing acknowledges previous nursing learning for students enrolled in the RN-MSN program.

Transfer of Credit for RN-MSN Program

- Applicants must submit original copies of official college transcripts from all institutions in which the student has enrolled. These transcripts will be reviewed and course work evaluated by the Department Chair. Final determination regarding transfer credit of completed course work toward degree requirements is determined by the Department Chair. Course equivalencies for transfer credit are assessed based upon the catalog course description and/or the course syllabus. Generally, courses of equivalent course content completed with the grade of “C” or higher for 4000-level and lower course work at any regionally accredited educational institution will be accepted for transfer credit toward degree requirements.
- The decision to award transfer credit is based on the TTUHSC Transfer Credit Guidelines and Procedures.
- The School of Nursing accepts courses completed via classroom, internet, correspondence, College level Examination Program (CLEP) or advanced placement examination for which credit has been awarded and posted on an official transcript from a regionally accredited college or university when determining completion of general education course requirements.
- No more than 55-58 general education course hours will be transferred, as well as a minimum of 38 hours of basic nursing education courses, for a total of 93 semester hours, will be acknowledged for the RN-MSN degree requirements. (If a basic nursing program has less than 38 hours, details for this should be arranged with the Department Chair. These transfer hours will be posted upon admission to the School of Nursing by the Registrar’s office of TTUHSC, thus the RN-MSN student will be classified as a Senior student upon entering TTUHSC SON.
- Applicants are encouraged to meet with or send transcripts to (fax is acceptable) the Graduate Program Coordinator to discuss applicability of transfer credit for degree purposes before submitting their application.

RN–MSN Degree Requirements

Master of Science in Nursing RN-MSN Rural Educational Leadership

(All Online Courses): (Semester Credit Hours Required for Completion-57)

Key: CL = Clinical; WB = Web-Based (on-line course); WE = Web-Enhanced; T = Traditional)

Required Non-Nursing Courses

Graduate Level Statistics (3 semester credit hours)

Required Undergraduate Nursing Courses

- NURS 4382 Aspects of Nursing Research (3:2:3 WB)
- NURS 4395 Gateway to Advanced Professional Practice (3:3:0 WB)
- NURS 4378 Nursing Management and Leadership I (3:3:0 WB)
- NURS 4379 Nursing Management and Leadership II (3:3:0 WB)

Required Core Nursing Courses

- NURS 5305 Rural/ Cultural Competency (3:2:3 WB)
- NURS 5330 Theories and Therapies (3:3:0 WB or WE)
- NURS 5371 Professional Nursing Issues (3:3:0 WB)
- NURS 5391 Principles of Advanced Research (3:3:0 WB)
- NURS 5343 Pharmacotherapeutics for Nurses in Advanced Practice (3:3:0 WB)
- NURS 5345 Advanced Practice Nursing: Application of Pathophysiology (3:3:0 WB)

Clinical Tracks:

A minimum of 6 credits is required from a sequential combination of any of the following courses

- NURS 5300 Community Health I: Foundations of Community Health Nursing (CL 3:2:3 WB)
- NURS 5301 Community Health II: Role Design and Implementation (CL 3:2:3 WB)
- NURS 5310 Advanced Gerontological Nursing in the Aging Network (CL 3:2:3 WB)
- NURS 5311 Practicum in Advanced Gerontological Nursing in the Aging Network (CL 3:1:6 WB)

Specialty Courses:

- NURS 5314 Leadership in Education I: Foundations of Nursing Education (3:3:0 WB)
- NURS 5315 Leadership in Education II: Critical Elements of the Teaching Role (CL 3:2.5:1.5 WB)
- NURS 5316 Leadership in Education III: Evaluation and Outcomes (CL 3:2.5:.5 WB)
- NURS 6030 Leadership in Education IV: Role and Practicum (CL 3:.5:7.5 WB)

Thesis

NURS 6000 Thesis (6 hours minimum)

Non-Thesis

NURS 5392 Application of Advanced Research (3:2:3 WB)
Elective (3)

Doctorate of Nursing Practice (DNP)

Barbara Cherry, DNSc, MBA, RN, NEA-BC, Department Chair for Leadership Studies

Mary V. Fenton, DrPH, APRN, FAAN, Program Director

Purpose

The purpose of the Doctorate of Nursing Practice is to provide the highest level of professional nursing education via a terminal degree in nursing practice (DNP) preparing graduates to deliver the highest quality patient-centered care as leaders and members of interdisciplinary teams, emphasizing evidence-based practice, patient safety, quality improvement approaches and informatics.

Student Learning Outcomes

Upon program completion, the graduate will be prepared to:

- Integrate nursing science with knowledge from ethics, biophysical, psychosocial, analytical and organizational sciences to advance health and health care delivery systems.
- Develop and operationalize effective, culturally relevant, and evidence-based care delivery approaches that meet current and future needs of patient populations.
- Design and implement scholarly evidence-based processes to analyze and improve outcomes of care at the practice, health care organization, or population levels.
- Select, use, and evaluate health care information systems and patient care technology to advance quality, patient safety and organizational effectiveness.
- Exercise leadership to analyze, develop, influence and implement health policies that advocate social justice, equity, and ethics within all health care arenas.
- Employ interprofessional team building and collaborative leadership skills to create positive change and improve outcomes in complex health care systems.
- Analyze epidemiological, biostatistical, environmental, and other appropriate scientific data to develop culturally relevant and scientifically based health promotion and disease prevention initiatives.
- Employ advanced levels of clinical judgment, systems thinking, and accountability to design, deliver, and evaluate evidence-based care to improve patient and population outcomes.
- Employ advanced leadership skills, systems thinking, and accountability to design, deliver, and evaluate evidence-based management practices to improve patient, population and health system outcomes.

DNP Application and Admission Information

A comprehensive review of the candidate's application will include consideration of the following factors.

- Academic performance and aptitude
- Ability to perform capably in positions of responsibility for self and others
- Potential for leadership in the DNP advanced role

DNP Application Deadlines

Consideration for admission is given to applicants who meet all admission criteria and have submitted all admission requirements by the application deadline to the TTUHSC Registrar's Office, SON Admissions, 3601 4th Street, Stop 8310, Lubbock, Texas 79430.

To be considered for admission "ALL" admission requirements must be received by the TTUHSC as noted below:

	Fall	Spring	Summer 2009
DNP Application Deadline	No admission	No admission	January 15, 2009

DNP Admission Requirements

Applicant must submit the following application requirements for full admission:

- Current licensure as a registered nurse in the United States
- Three letters of reference attesting to the applicant's academic ability and leadership potential, including one from a current professional colleague
- Personal Statement
- Oath of Residency
- Official College Transcripts (BSN or ADN to MSN degree or equivalent, MSN, Post Master's Certificate)
- Application Signature Page
- Application Fee
- Master of Science in Nursing degree from a nationally discipline-accredited college or university with nursing program accreditation from the Commission on Collegiate Nursing Education (CCNE).

All DNP Advanced Practice Nursing applicants must meet the following additional requirements:

- Approval by a state nursing board to practice as a Nurse Practitioner
- Current certification by a nationally recognized credentialing body as a nurse practitioner
- Minimum of one year's experience as a nurses practitioner
- An interview with DNP faculty
- Graduate level nursing research course
- GPA of 3.0 for master's degree
- BLS certification
- Immunizations
- Current CV or resume

All DNP Executive Leadership applicants must meet the following additional requirements:

- Minimum of one year's experience in a healthcare leadership position
- An interview with DNP faculty
- Graduate level nursing research course
- GPA of 3.0 for master's degree
- Immunizations
- Current CV or resume

Applicants with unique credentials will be considered on a case-by-case basis.

Although academic criteria (cumulative GPA, grades earned in nursing courses, and failed/repeated courses) are the most important factors in admission considerations, additional non-academic information is considered. These non-academic factors include but are not limited to:

- Extracurricular activities
- Work experience
- Diversity of experience, such as study abroad, knowledge of other cultures, proficiency in other languages
- Permanent resident of TTUHSC service area county
- First generation college student
- Bilingual English /Spanish

All applicants will be reviewed in an individual and holistic manner. No single factor will determine a student's admission. All applicants who receive offers of admission will be required to consent to a criminal background check. A history of criminal conduct or convictions may result in withdrawal of the admission offer. See 'Criminal Background Checks' section of the School of Nursing *Student Handbook* for the school policy. Criminal Background Checks must be received prior to matriculation to the TTUHSC DNP Program. The TTUHSC Criminal Background policy may be found at HSC OP 10.20. <http://www.ttuhs.edu/HSC/OP/OP10>.

Only **complete** applications are reviewed for admission consideration, **which means "ALL" admission requirements must be received by the TTUHSC Registrar's Office by the application deadline.**

The Department Chair, DNP Program Director and the DNP Subcommittee carefully evaluate all qualified applicants with regard to the applicant's potential for successful completion of the program.

Computer Requirements

All students admitted will be required to have a personal computer with Internet access. Minimum computer requirements as recommended by the School of Nursing can be found at the following link: <http://www.ttuhschool.edu/son/undergrad/sysReq>.

Drug Screening

Drug Screenings may be required if requested by the institution where the student performs clinical experiences.

Special Student Enrollment

Special Student enrollment is not an avenue for seeking a degree. Under certain circumstances, it may be appropriate for an individual to seek admission as a non-degree seeking student. This admission is for the purpose of taking a limited number of courses. The applicant must seek approval from the Department Chair prior to submitting a special student (non-degree) application. The student must also be eligible for admission under the following criteria:

- Currently enrolled in a master's or doctoral program at a college or university and is in good academic standing;
- Registered nurse with a MSN not enrolled in an educational institution;
- Waiver to the above requirement from the Department Chair.

In addition to meeting the above criteria, consideration is given on a space available basis.

Enrollment without Credit/Course Audit

Students who wish to audit a DNP course for no grade must obtain approval from the Department Chair. Students who audit a course will not be listed on the class roll, and no notation of the audit will be made on the student's transcript. Students who are enrolled for 12 semester credit hours or more may audit a course without paying an additional fee. All other students must pay a \$10 fee for auditing a course.

Provisional Admission

If the requirements for full admission are not met, provisional admission may be available. Students who do not meet the minimum requirement for admission are evaluated by the Graduate Program Committee. Provisional admission requires the student to enroll in 6 semester credit hours of doctoral level courses for a semester and obtain a grade of B or higher. Students are not eligible for scholarships while on provisional status. The provisional status is changed to full matriculation once this stipulation has been met.

Conditional Admission

If the requirements for full admission are not met, conditional admission may be available. The student is required to comply with "conditions" stated in letter of admission offer prior to the first day of class for the semester of admission.

Readmission

All requests for readmission must be made prior to the application deadline date for the semester in which readmission is requested. The Department Chair, DNP Program Director and Graduate Program Committee are responsible for overseeing all readmissions to the School of Nursing DNP Program. Readmission of a student who has been dismissed or who withdrew for academic or disciplinary causes is also based upon the decision of the Department Chair, DNP Program Director, and Graduate Program Committee.

A student seeking readmission must comply with the following:

- Submit a letter requesting readmission to the DNP Program.
- Meet all recommendations and requirements set forth by the Department Chair, DNP Program Director and DNP Subcommittee
- Complete online application and meet admission criteria for full admission

Transfer Student

Students requesting admission to the TTUHSC SON DNP program as a transfer student from another university must meet the following criteria:

- Transfer student must be eligible to return to the institution from which he or she is transferring.
- Student previously enrolled in the graduate program at TTUHSC School of Nursing who has attended another institution and is seeking to return must apply for readmission; any courses considered for transfer credit will be required to meet the standards for transfer credit
- Complete the majority, or over 50%, of the required credits to complete the degree at TTUHSC School of Nursing

Recognition of Previous Learning

Transfer Credit

The decision to award transfer of academic credit is made by the Department Chair after a thorough review of the applicant's transcript for evidence of satisfactory course work completion and review of the course catalog descriptions and/or course syllabi as necessary to determine course equivalency. The decision to award transfer credit is based on the TTUHSC Transfer Credit Guidelines and Procedures. Generally, credits earned at a regionally accredited college or university are accepted for transfer provided course content is equivalent and a grade of B or higher has been earned in the course. The majority, or over 50%, of the required credits toward a TTUHSC School of Nursing graduate degree must be earned at TTUHSC.

Students requesting courses to be considered for transfer credit will:

- Submit official transcripts for courses considered for transfer credit
- Submit course descriptions and course content for each course

A student previously enrolled in the graduate program at TTUHSC School of Nursing who has attended another institution and is seeking to return and transfer in course credit must apply for readmission. Courses accepted for transfer will be required to meet the standards for transfer credit.

Offer of Admission

Offers of admission will be made approximately four – six weeks following the application deadline. In order to assure a place in the desired program, applicants must comply with the following:

- Return Acceptance Form on or before date specified in the offer of admissions letter
- Submit \$100.00 non-refundable placement\orientation fee
- Complete Criminal Background online
- Complete Sexual Harassment training online and submit certificate of completion
- Failure to respond to admissions offer by the date specified in offer letter may result in withdrawal of the offer of admission.

Degree Requirements for Students Admitted to the DNP Program

Graduation Under a Particular Catalog

A student is expected to complete the degree requirements set forth in the School of Nursing *Catalog* in effect at the time the student enters the program. Only with the specific approval of the Department Chair may a different *Catalog* be selected. In no case may a student complete the requirements set forth in a *Catalog* more than seven years old. The *Catalog* is published at least biennially and its provisions are applicable during the stated school year.

Maintaining Minimum Academic Requirements

The minimum GPA for continuance in the graduate program is 3.0 overall. Additionally a minimum grade of “B” is required in each course (nursing and non-nursing) required for degree completion. The TTUHSC SON Student Handbook provides further details regarding academic and graduation expectations.

Progression in the Graduate Program

- Grades are reviewed each semester and progression in the Graduate Program is determined by the Department Chair, DNP Program Director and Graduate Program Committee.
- Graduate students are required to maintain a 3.0 GPA with grades at “B” or above in all graduate courses. Students with a cumulative or semester GPA below 3.0 are placed on academic probation.
- Students receiving “C” or lower in a graduate course are eligible to repeat that course one time only pursuant to recommendation of course faculty.
- Students earning an overall cumulative GPA or a semester GPA less than a 3.0 in the semester of graduation/completion are ineligible for graduation/completion.

Academic Dismissal:

Dismissal from TTUHSC School of Nursing DNP Program will result from the following circumstances:

- Students making a “C” or lower in two or more graduate courses in one semester
- Students making a “C” or lower in the same graduate course twice
- Students making a “C” or lower in a third graduate course even though two graduate courses have been retaken and a satisfactory grade of “B” or better has been obtained

Failing to meet expected standards in any program may result in academic dismissal at any time.

Residence Credit

The minimum residence for the MSN degree is the majority, or over 50%, of graduate course work carrying residence credit be completed at TTUHSC. Residence credit as used here means credit for work done while enrolled in and attending classes at TTUHSC and should not be confused with “residence” in the State of Texas.

Semester Credit Hours and Course Loads

The semester credit hour is the unit of measure for credit purposes. Didactic (lecture) hours are measured on a one-to-one basis; clinical hours are measured on a one-to-three basis. Approximately two hours in preparation for each hour of lecture/didactic and an appropriate amount of time for preparation for clinical activities are required. The number of semester credit hours a student may carry (course load) is regulated by the Department Chair. In determining this load, the Department Chair takes into account the quality of prior scholastic work performed and the types of courses involved. A student enrolled in 9 credits in the Fall or Spring semester and 6 credits in the Summer semester is considered full-time.

DNP Degree Requirements and Course Progression

PhD in Nursing: Collaborative Program with Texas Woman's University

The PhD in Nursing is a collaborative program with Texas Woman's University (TWU) College of Nursing and TTUHSC School of Nursing. The primary goal of the PhD program is to develop leaders and scholars who will make a significant contribution to the nursing profession in the discovery, integration, application, and dissemination of knowledge. There are three sites for doctoral course offerings: Denton, Houston and Lubbock. The PhD degree is awarded by TWU in accordance with program policies of the TWU Graduate School and the TWU College of Nursing. Visit the TWU website for further information at www.twu.edu

Influences on women's health are the central theme of the research program in the TWU College of Nursing. Doctoral faculty are involved in both funded and unfunded research projects. Active participation by students in these projects is encouraged and supported. Such projects offer opportunities for mentorship into a research career.

Goals:

The goals of the TWU PhD nursing program are to prepare nurse scholars who will:

- Engage in scholarship that will add to the body of nursing knowledge
- Influence professional values and practice
- Investigate substantive questions of human health
- Assume leadership in nursing and health care
- Integrate knowledge from nursing and other disciplines to address problems of human health
- Teach and mentor other nurses and nurse scholars

Admission Requirements:

All applicants must meet the general requirements for admission to the Texas Woman's University Graduate School. In addition to these general requirements the Texas Woman's University College of Nursing requires the following for admission to the doctoral program:

- Statistics course
- Graduate level research course
- Graduate level nursing theory course
- Master's degree with a major in nursing from a program accredited by a nationally recognized accrediting body (preferred)
- Two letters of recommendation
- Statement of research interest area and professional goals
- Current license to practice professional nursing in the United States
- Curriculum vita or resume.

Admission to the nursing doctoral degree program may be awarded on an unconditional or provisional basis. The criteria for unconditional admission are:

- Minimum grade point average (GPA) of 3.5 on prior graduate level course work or
- Preferred score of 460 on the Graduate Record Examination (GRE) Verbal and 500 on the GRE Quantitative; or
- Preferred score of 50 on the Miller Analogies Test (MAT).

Applicants who do not meet the unconditional criteria, but who have a minimum GPA of 3.0 on prior graduate level course work may be considered for provisional admission on an individual basis. Factors that will be considered in the admission decision are GPA on graduate level course work, GRE verbal and quantitative scores or MAT score, scholarly activities, professional leadership, and work history. Within the framework of the general regulations of the Graduate School, a relevant program of study is planned by the student and a faculty advisory committee. The program includes course work in nursing, research design and methodology, research tools and selected electives or a minor. Additional advising is done by the doctoral program coordinator on each TWU campus.

TTUHSC School of Nursing does not set the admission and degree requirements for the TWU PhD program. It is recommended that contact be made directly to TWU Denton at (940) 898-2401 or TWU Houston at (713) 794-2100 for further information on application and specific degree requirements or visit the TWU website at www.twu.edu.

GRADUATE PROGRAM COURSE DESCRIPTIONS

Graduate courses are delivered via traditional, Web-enhanced (combination of face-to-face and online), and Web-based (completely online) methodologies. All pre- or co-requisites and any designated conditions/criteria for previous courses apply throughout the curriculum.

- KEY:** Courses are listed in numerical order.
- (CL)** Concurrent enrollment in a Clinical Section is required.
 - (#:#:#)** First # represents the number of credit hours, second # represents the number of lecture hours per week, third # represents the number of clinical hours per week.
 - T** Traditional course methodology
 - WE** Web-enhanced combination of face-to-face and on-line
 - WB** Web-based – completely on-line
 - *** Elective Courses are offered at select times as faculty and interest are present.
 - (V)** Variable Credit

4000 Level Courses (for RN-MSN Track)

4382. Aspects of Nursing Research (3:3:0 WB). (RN-BSN & RN-MSN) Addresses basic research concepts and explores the relationship of research to theory and practice. Prepares the student as a consumer of research in order that relevant findings may be applied to clinical practice. (Prerequisite: NURS 4380, 4381, and 3 hours of undergraduate statistics.)

4378. Nursing Management and Leadership I (CL 3:3:0 WB). (RN-BSN & RN-MSN) This course builds on management and leadership concepts essential in professional nursing practice in the 21st century. Management and leadership theories, roles and functions serve as the foundation for course. Key concepts covered include managing quality using informatics tools and systems, patient safety, staffing, fiscal planning and decision making.

4379. Nursing Management and Leadership II (CL 3:3:0 WB). (RN-BSN & RN-MSN) Building on *Management and Leadership I*, this course presents concepts related to managing and leading in the changing healthcare environment. Interdisciplinary team building in a culturally diverse environment, delegation, conflict management, organizational structures and leading planned change in a variety of health care settings will be presented. (Pre-requisite: Completion of *Management and Leadership I*)

4395. Gateway to Advanced Professional Practice (CL 2:1:6 WB). (RN-MSN) This is a transition class for the RN-MSN student focusing on current issues relevant to the professional nursing role and introduction to the nature of nursing theory. Selected local, state, national and international issues impacting the professional nursing role are addressed. Additionally, the impact of theory development on the evolving practice of the nursing professional is reviewed and analyzed.

5000 Level Courses

5060. Independent Study (V1-6 T, WB, WE). Designed to meet special needs and interests of a student who proposes a specific plan of study. Course varies from 1-6 semester hours and course may be repeated as topic and/or objective of study changes.

5080. Special Topics (V1-6 WB\WE). Designed to focus on subjects of special interest to groups of students. May be repeated for credit as topics vary.

5111. The Advanced Practice Nurse Role: Foundation for Advanced Practice Nurse (1:1:0 WE). This course is a study of the Advanced Practice Nurse (APN) role, including the evolution of the role, current and continuing issues relevant to advanced practice nursing, and clinical practice issues related to health promotion and disease prevention. Course activities include observation, discussion, and analysis of experiences.

5222. Diagnostic Methods and Procedures for Advanced Practice (CL)(CL) (2:1:3 WB). This course is designed for students preparing for the Advanced Practice Nursing (APN) role as a nurse practitioner. Selected clinical diagnostic laboratory, imaging tests, and selected procedures practiced by APNs will be presented. Clinical decision making for selecting appropriate tests or procedures, and interpretation of diagnostic test results is addressed. Students will use evidence based research to appropriately gather, interpret and manage objective diagnostic clinical data to manage various health problems across the life span.

5231. The Nursing Administrator: Standards for Excellence (2:2:0 WE). Focuses on the standards affecting the nursing administrator and the administrative role. Content relates to the Scope of Practice and Standards for Nurse Administrators, the Magnet Recognition Program criteria and the Baldrige National Quality Program. Traditional role content is viewed in light of these elements of quality.

5242. Administrative Role Development (CL) (2:0:6 WE). Prerequisite: NURS 5231. The course emphasizes the practicality of applying quality standards in the nursing administration role. The practicum focuses on the concepts formulated in the prerequisite course.

5300 Community Health I: Foundations of Community Health Nursing (CL) (3:2:3 WB). (Pre- or co-requisite: N5330) This course focuses on study of the major concepts foundational to advanced community/population health nursing practice. Included in this study is an examination of the challenges and controversies involved in the emergence of advanced practice nursing roles in contemporary population health. Clinical practice focuses on the application of ecological theory, public health theory, nursing theories, epidemiological concepts, public policy, multi-disciplinary, multi-system approaches to population health, community health advocacy and community health evidence-based practice related to the social processes of health promotion, health maintenance, health restoration and disease prevention.

5301 Community Health II: Role Design and Implementation (CL) (3:2:3 WB). (Prerequisite: Successful completion of NURS5300) This course builds on the content, knowledge and community health advanced practice skills acquired in Community Health I and examines how the core content concepts, community health assessment, planning, implementation and evaluation, are influenced by nursing theory and population health concepts. Population health concepts foundational to collaborative community health assessment and reflective of place-based, ecological community health analysis are introduced. Course assignments provide the student with the opportunity to gain collaborative community health assessment experience, using place-based assessment tools, to identify community strengths, enhance traditional community assessment methods and build evidenced based community/population health nursing practice.

5302. Community Health Foundation for Advanced Practice (CL) (3:1:6 WB). Prerequisite: NURS 5330. Study of the major basic concepts and the nursing role components inherent to community health. Facilitates the transition into the advance practice community health role. The incorporation of interdisciplinary relationships and/or partnerships into the delivery of community health nursing.

5305. Rural Health and Cultural Competency (CL) (3:2:3 WB). This course will focus on the concepts important in rural health and cultural competency for the emerging nurse leader. The concept of rurality will be presented not as a dichotomy, but as a continuum; a continuous movement of people and money from remote/rural through suburban to urban/metropolitan. This perspective will emphasize the interaction of communities across the rurality continuum with a focus on the contribution of social, economic, environmental, cultural, historical, and demographic characteristics to healthcare.

5310. Advanced Gerontological Nursing in the Aging Network (CL) (3:2:3 WB). This course focuses on assessment, diagnosis, and management of selected common acute and chronic health problems and potential health problems of older adults. The impact of illness and loss on the older client's developmental stage and family role is emphasized alongside health promotion, maintenance, and restoration. Epidemiology, nutrition, pharmacology, non-pharmacological interventions, mental health principles, and professional/legal/ethical parameters are integrated. Application of research findings and clinical reasoning skills are required.

5311. Practicum in Advanced Gerontological Nursing in the Aging Network (CL) (3:1:6 WB). Prerequisite: NURS 5310. The focus of this Gerontological course is on comprehensive management of health of the older adults and their caregivers in a selected population in the aging network. The experiences will provide an opportunity for synthesis and application of theory and research to effectively implement advanced Gerontological nursing practice.

5314. Leadership in Education I: Foundations of Nursing Education (3:3:0 WB). Prerequisite: NURS 5330. This course focuses on the leadership role of the nurse educator by examining the foundational components of the formal teaching/learning process.

5315. Leadership in Education II: Critical Elements of the Teaching Role (CL) (3:2.5:1.5 WB). Prerequisite: NURS 5314. The concepts and components of course development, implementation, evaluation, and revision in academic, continuing nursing education, or staff development setting will be emphasized as critical elements of the teaching role.

5316. Leadership in Education III: Evaluation and Outcomes (CL) (3:2.5:.5 WB). Prerequisite: NURS 5315. Concepts related to student evaluation, test construction, evaluation of evidence based teaching and evaluation of distance learning/technology will be introduced. Program evaluation, accreditation processes and professional development of faculty will be discussed and analyzed.

5330. Theories and Therapies (3:3:0 WB\WE). This course focuses on assessment and analysis of theories. Non-nursing and nursing theories are critiqued for a more in-depth knowledge base of theory structure, usefulness, and application.

5333. Management of Acute and Episodic Conditions in Older Adults (CL) (3:1:6 WE). Prerequisite: NURS 5111, NURS 5222, NURS 5302, NURS 5330, NURS 5342, NURS 5343, NURS 5345, NURS 5344 or ACLS certification. This course addresses the theoretical and clinical foundation for evidence based management strategies of acute health problems and common syndromes of older adults. Emphasis is on comprehensive assessment, clinical decision-making, and the implementation of scientifically based clinical management plans in collaboration with the healthcare team. The focus is on empowering the older adult to maintain or regain health through the framework of evidenced based care and use of best practices. Under the supervision of faculty and preceptors, clinical experiences occur in a variety of community-based healthcare settings that expose the student to both healthy and frail adult populations.

5334. Management of Chronic Health Conditions in Older Adults (CL) (3:1:6 WE). Prerequisite: NURS 5333. This course addresses the theoretical and clinical foundation for evidence-based management strategies of chronic and complex health problems of older adult. Emphasis is placed on the management of older adults with multiple system problems. Clinical practice involves collaboration and implementation of the primary healthcare role in selected healthcare settings.

5340. Primary Healthcare Practice I: Advanced Assessment, Pathology, and Management (CL) (3:1:6 WE). Prerequisite: NURS 5111, NURS 5222, NURS 5302, NURS 5330, NURS 5342, NURS 5343, NURS 5345, NURS 5344 or ACLS certification. Study of major concepts and therapies required in the development, implementation and evaluation of primary healthcare. Clinical practice focuses on application of nursing theory, pathophysiological and epidemiological concepts and exploration of nursing therapies, skills and techniques essential to the provision of primary healthcare.

5341. Primary Healthcare Practice II: Advanced Role Application (CL) (3:1:6 WE). Prerequisite: NURS 5340. Study of nursing role components critical to primary healthcare. Identification of facilitators for and barriers to the implementation of primary healthcare. Clinical practice involves collaboration and implementation of primary healthcare role in selected healthcare settings.

5342. Advanced Health Assessment (CL) (3:1:6 WB). Building upon basic physical assessment and history taking knowledge and skills, this course focuses on knowledge and clinical skills required for advanced practice nursing.

5343. Pharmacotherapeutics for Nurses in Advanced Practice (3:3:0 WB). This graduate course focuses on application of pharmacokinetic and pharmacodynamic principles to medication regimens for patients across the life span. Students will utilize assessment data and evidence-based protocols to guide safe prescriptive decision-making in an advanced nursing role. In addition, students are expected to integrate cultural, ethical, legal, and regulatory considerations in the planning process. Evaluation of the therapeutic effects and potential adverse effects of classes of medications is included.

5344. Advanced Practice Role Development: Advanced Cardiac Life Support (3:2:3 WE). Expands the student's ability to analyze and provide appropriate care in situations in which individuals are experiencing acute life-threatening physiological dysfunctions from the perspectives of ethics, law, and advanced clinical practice. This course is designed to prepare the student for participation in an Advanced Cardiac Life Support providers' class according to the standards set by the American Heart Association.

5345. Advanced Practice Nursing: Application of Pathophysiology (3:3:0 WB). Study of the physiologic basis of disease for advanced practice nursing. Emphasis on application of pathophysiologic concepts to the recognition of pathologic conditions and the management of clients with a variety of health problems across the life span.

5346 The Nursing Administrator: Standards for Excellence (3:3:0 WE). Prerequisite: Admission to the Graduate Program. This course provides an overview of the current, major forces driving nursing services toward quality and nursing administrators toward competence. The focus is to develop an appreciation for the numerous quality initiatives that influence how nursing leaders lead their areas of accountability toward better patient care.

5347 Administrative Role Development (3:3:0 WE). Prerequisite NURS 5346. The focus of this course is on creation of an effective workplace in which safe patient care can occur. The traditional elements of managing are the avenues through which learners gain insight into the effectiveness and influence of the administrative role.

5348 Administrative Role Development: The Nurse Administrator as Leader (3:3:0 WE). Prerequisite NURS 5347. This course centers on interpreting the social and political impact on the organization and the issues that influence how the nurse administrator enacts the role of leader.

5362. Statistics for Nurses (3:3:0 T). This course is designed to be a general but comprehensive introduction to statistical methods used in the health, social, behavioral and other sciences. Statistics are the tools of researchers who seek to make sense of scientific data. This course will introduce you to the three main types of statistical analyses. This course is quantitative in nature; therefore knowledge of algebraic principles is important.

5371. Professional Nursing Issues (3:3:0 WB). Analysis of role issues confronting the nursing profession. Issues are examined from historical, multidisciplinary, and global perspectives with an emphasis on synthesis of advanced nursing role knowledge at a societal-level focus.

5372. Utilizing the Arts in Healthcare (3:3:0 WB). Elective. This course is an introductory study and overview of current and past methods of incorporating the arts into the healthcare setting for patients, families and healthcare staff and professionals. Attention will be paid to cultural and age diversities and education, psychological and physical benefits derived from creative expression.

5374. Writing for Publication (3:3:0 WB). Elective. Develops expertise in writing/preparing manuscripts for publication. Special emphasis on choosing journals of manuscript topics, preparing a manuscript according to journal guidelines, and learning to navigate the publication process from inquiry letter to submission of manuscript to peer review and final submission.

5375. Nursing Ethics through the Life Span (3:3:0 WB). Elective. This graduate course provides an opportunity to examine ethical issues that arise in advanced nursing practice throughout the life span of the client, providing an opportunity to: implement an evidence-based practice; understand the moral significance of nursing; recognize and clarify models of professional relationships; and identify and distinguish between ethical models. Ethical models will be utilized to justify ethical decisions in advanced nursing practice.

5376. Best Practices for Safe Healthcare Systems (3:3:0 WB). Elective. This graduate level interdisciplinary course is designed to explore solutions and practices that promote safer patient care and reduce risk in a variety of health care settings.

5377. Humanities in Professional Life (3:3:0). Elective. Nursing as a humanistic discipline is an elective course designed to provide opportunities for analyzing the humanistic aspects of nursing as a primary function of modern nursing practice for the master's prepared and advanced practice prepared nurse. The humanistic aspects of nursing have been described as follows in the Affirmation of Commitment, often recited at commencements: We believe that the nature and purpose of nursing encompasses a multifaceted approach to human need. We further believe in nursing as a professional discipline, involving clinical practice, and as a humanistic field where nurse and client share in the wonder, pain, and awe of human existence.

5378. Primary Health Care for Women (CL) (3:1.5:1.5 WE). Elective. Prerequisite: NURS 5342 or consent of instructor. Presents the theoretical and clinical basis for advanced practice nursing management of the woman who is essentially well or who has non-acute health problems. Emphasis is on the integration of primary health care screening, preventive health care, and health care promotion. Selected health problems common to women across the age continuum are addressed.

5380. Pediatric Primary Health Care I (CL) (3:1:6 WB). Prerequisite: NURS 5111, NURS 5222,222 NURS 5302, NURS 5311, NURS 5330, NURS 5342, NURS 5343, NURS 5345, PALS certification. Designed to develop theoretical and research-based knowledge of child health issues and well-child assessment of infants, children, and adolescents in the context of family and cultures, the course develops advanced practice skills in comprehensive assessment, as well as, management strategies reflecting current nursing and medical knowledge and practice.

5381. Pediatric Primary Health Care II (CL) (3:1:6 WB). Prerequisite: NURS 5380. Designed to further develop theoretical and research-based knowledge of diagnosis, treatment, and evaluation of pediatric patients with acute and chronic health problems, the course develops advanced practice skills and comprehensive assessment and management strategies reflecting evidence-based nursing/medical knowledge and practice.

5386. Finance and Budgeting for Nurse Leaders (3:3:0 WB). Elective. This course is designed to provide graduate students with information and skills for developing budgets and managing financial issues in health care facilities, clinics, independent practice or a nursing unit.

5387. Palliative Care for APNs (3:3:0 WB). This course explores end-of-life (EOL) care and the role of Advanced Practice Nurses as members of interdisciplinary teams providing EOL care. Synthesis of advanced health assessment, advanced pharmacotherapeutics, advanced pathophysiology, and evidence based practice in the provision of palliative care will be emphasized.

5391. Principles of Advanced Research (3:3:0 WB). Prerequisite: NURS 5330, Graduate Statistics. Course addresses components of the research process including the scientific method in quantitative and qualitative research design.

5392. Application of Advanced Research (CL) (3:2:3 WB). Prerequisite: NURS 5391. Examines relationship of research to outcome measures in practice, education, and administrative role.

5450. Acute Care Nurse Practitioner Concepts and Diagnostic Skills I: Adult (CL) (4:2:6 WE). Prerequisite: NURS 5111, NURS 5222, NURS 5330, NURS 5342, NURS 5343, NURS 5345, NURS 5344 or ACLS certification. This course is designed to develop a beginning theoretical and research based knowledge of diagnosis, treatment, and evaluation of adults with acute and chronic health problems. Emphasis will be placed on applying this knowledge to the management of patients with disorders of selected body systems. Clinical activities focus on enhancing history and physical skills, delineating differential diagnoses, and learning initial clinical management of clients experiencing acute and chronic health problems. Basic role components of the Acute Care Nurse Practitioner will be introduced.

5551. Acute Care Nurse Practitioner Concepts and Diagnostic Skills II: Adult (CL) (5:2:9 WE). Prerequisite: NURS 5450. This course is designed to build on major components critical to the knowledge of diagnosis, treatment, and evaluation of adults with acute and chronic health problems. Clinical practice focuses on research- based decision- making process in close collaboration with preceptors.

6000 Level Courses

6000. Thesis (V1-6 T). A planned process of scholarly inquiry, which implements a quantitative or qualitative design and contributes to nursing's body of knowledge.

6010. Application of Administrative Practice (CL) (3:0:9). Prerequisites: successful completion of the administrative course sequence; authorization from a clinical agency willing to support the practice experience. This course provides learners with the opportunity to implement ideas into a practice setting. It is designed to allow learners to use ideas from the literature, their peers, conferences and other approved sources to create an application project designed to change practice from a clinical or administrative perspective.

6030. Leadership in Education IV: Role and Practicum (CL) (3:5:7.5 WB). Prerequisite: NURS 5314, 5315, and 5316. Immersion in all leadership aspects of the faculty role in an academic, CE, or staff development setting with guidance of a preceptor.

6050. Acute Care Nurse Practitioner IV: Role and Practicum (CL) (6:0:36 WE). Prerequisite: NURS 5551. This course emphasizes clinical practice. Clinical activities allow for immersion in advanced role. Function and responsibility of selected topics of the advanced practice role are addressed.

6060. Nursing Practicum (CL) (6:0:36 WE). Prerequisite: NURS 5341. A clinically focused practicum for individuals pursuing expectations beyond basic graduate degree requirements. Variable credit 3 or 6 hours. Nurse Practitioner students are required to complete a portion of practicum in underserved areas.

6071. Supervised Teaching (V1-3 T). Directed teaching in students' major area under close supervision of one or more faculty.

6080. Pediatric Nursing Practitioner Practicum (CL) (6:0:36 WE). Prerequisite: NURS 5381 and successful completion of required clinical and functional courses. A clinically-focused practicum for individuals pursuing expectations beyond basic graduate degree requirements. Variable credit of 3 to 6 hours. Pediatric nurse practitioner students are required to complete a portion of practicum in underserved areas.

6090. Gerontological Nurse Practitioner Practicum (CL) (6:0:36 WE). Prerequisite: NURS 5334. This course is a synthesizing, practical experience in development and implementation of the role of the advanced practice nurse. Emphasis is on role development along with the refinement of critical reasoning, skill development, and resource allocation. Under the guidance of a preceptor, students practice in a clinical setting to provide primary care to older adults.

6101. DNP Role Transition II (1:1:0 WE). Prerequisites: N6200 DNP Role Transition I. As a follow-up to Role Transition I, the course will engage students in a reassessment of their leadership strengths and emotional intelligence after completing two full semesters of course work. Students will revisit their plans for personal growth and self-directed learning in an on-going process of personal leadership development as well as identifying ways to promote leadership development for future health care leaders.

6200 DNP Role Transition I (2:2:0 WE). Prerequisites: Doctorate of Nursing Practice Student. The course is designed to provide students with the opportunity to engage in extensive self-assessment of leadership strengths and emotional intelligence and develop action plans for personal growth through self-directed learning. Self-knowing and reflective leadership are essential attributes of transformation leaders in complex health care systems.

6221. Administrative Role Development: The Nurse Administrator as Leader (2:2:0 WE). Prerequisite: NURS 5231. An online seminar in contemporary issues in administrative circles. Explores issues from various professional, client, legal, ethical, policy and societal perspectives. Emphasizes leadership development.

6310 Practical Application of Statistics in Healthcare (3:3:0 WE). Prerequisites: Doctorate of Nursing Practice student. The course will provide the basics of statistical analysis, measurement theory and data management. The course will focus on the application of statistics to health services research and to clinical healthcare settings. The students will have hands-on experience using SPSS statistical software in computer labs with data preparation, statistical analysis, and data display. Statistical tests covered in the course will range from simple T-test through multiple regressions with an introduction to statistical modeling.

6320 Systems Leadership for Effectiveness, Quality and Safety (3:3:0 WE). Prerequisites: Doctorate of Nursing Practice student. The course will explore the scientific underpinnings of leadership, organizational effectiveness and quality improvement. Students will be provided with strategies and tools for transformational leadership and systems thinking in complex adaptive systems including effective communication, process analysis, measuring and tracking quality and safety data, and facilitating change to improve health outcomes.

6325 Informatics & Technology to Improve Health Care (3:3:0 WE). Prerequisites: Doctorate of Nursing Practice student. The course will explore health care informatics and methods to apply information technology to clinical care for improving patient safety, quality and the health of the population. Students will learn information technology and research methods that collect appropriate and accurate data to generate evidence for practice and to inform and guide the design of databases to generate meaningful evidence for nursing practice.

6330 Evidence Based Inquiry I (3:3:0 WE). Prerequisites: Doctorate of Nursing Practice student. The course will prepare students to integrate evidence based practice in clinical settings after careful evaluation of best evidence. Emphasis will be placed on synthesizing and evaluating a specific body of evidence for merit and generalizability to the clinical setting and transforming practice problems into answerable questions. Students will begin developing their capstone project in this course.

6331 Evidence Based Inquiry II (3:3:0 WE). Prerequisites: NURS6330 Evidence Based Inquiry I. The course will build on Evidence Based Inquiry I, refining the student's ability to evaluate and synthesize evidence for integration into clinical practice. Emphasis will be placed on translating the evidence into actual clinical or management practice as well as creating an environment for the integration of evidence based practice within an organization. Students will further develop their capstone project in this course.

6340 Advancing Policy & Politics in Health Care (3:3:0 WE). Prerequisites: Doctorate of Nursing Practice student. The course provides opportunities for nursing leaders to value the political processes that influence policy decisions through analyzing public policies, health policies, and legislation at the organizational, local, state, national, and international level. This course includes opportunities to advocate and participate in political and policy-making processes for a health issue in the student's area of interest and career trajectory.

6345 Population Health & Epidemiology (3:3:0 WE). Prerequisites: Doctorate of Nursing Practice student. This course provides a comprehensive investigation into the application of public health and epidemiology principles. Emphasis will be placed on using technologically advanced clinical information systems that aggregate patient data so that group and/or population-based clinical profiles, practice patterns and variations, genetic problems, and health disparities can be identified, analyzed and compared to regional and national benchmark norms and data bases.

6350 Financial Operations & Budget Management (3:3:0 WE). Prerequisites: Doctorate of Nursing Practice student. The course is designed to increase the nurse leader's understanding of health care economics and financing mechanisms as well as to advance skills in managing financial issues, developing budgets, making sound financial decisions, and managing projects to achieve strategic goals in health care. Students will gain hands-on experience in analyzing financial statements, developing business plans, establishing procedures for accurate charging mechanisms, and educating patient care teams on financial implications of patient care decisions.

6351 Advanced Interprofessional Role Immersion (CL) (3:1:2 WE). Elective. Prerequisites: Doctorate of Nursing Practice student. The course will provide students with an in depth experience in a health professional role that provides an alternate perspective on patient-centered care, transparency and leadership in healthcare, evidence-based practice, quality improvement, technology, and interdisciplinary team collaboration. Students will be partnered with one or more interprofessional team member(s) (e.g., pharmacist, physical therapist, and physician) and will participate in the partners' work environment to establish a unique appreciation of the interprofessional nature of healthcare and its significance in improving health outcomes.

7000 Level Courses

7310 Promoting Health Through Behavior Change (CL 3:1:6 WE) Prerequisites: Concurrent enrollment in or completion of DNP core leadership courses and DNP core evidence-based science courses. The course provides the opportunity for advanced exploration of theory and evidence-based research underlying the adoption of healthy lifestyle behaviors in the prevention, management and palliative care of chronic disease. Students will apply and evaluate theories and principles of healthy behavior change in individuals, families and/or communities in rural and urban settings.

7311 Leading Teams in Complex Health Care Environments (CL 3:1:6 WE). Prerequisites: Concurrent enrollment in or completion of DNP core leadership courses and DNP core evidence-based courses. The course provides nursing leaders the opportunity to enhance skills to lead and manage groups. Strategies are included for managing professional development, implementing creative and effective staffing models, and affecting positive change using data to inform productivity and performance. Key trends and their relationship to workforce issues will be discussed. Forecasting, team building and coaching functions are explored as key concepts/tools.

7320 Integrating Complementary & Alternative Modalities (CAM) into Health Care Systems (CL 3:1:6 WE). Prerequisites: Concurrent enrollment in or completion of DNP core leadership courses and DNP core evidence-based courses. The course uses the field of complementary and alternative health care as a venue for developing the student's role to improve health care by introducing change within existing health care systems. Students are provided with the opportunity to gain knowledge, analyze, observe and experience various CAM modalities. Critical reviews of the application of evidenced based research approaches to examine the effectiveness and safety of CAM in advanced nursing practice will be synthesized within an analysis of health care systems.

7321 Health Care Economics & Finance (CL 3:1:6 WE). Prerequisites: Concurrent enrollment in or completion of DNP core leadership courses and DNP core evidence-based courses. The course will provide an in-depth exploration of health care economics and the impact of current and proposed reimbursement mechanisms on delivery systems as well as global economies. The course will explore innovative business models for health care organizations and methods of cost-benefit analysis for practice initiatives accounting for risk and improvement of outcomes.

7330 Integrating Community Mental Health Concepts into Health Care Systems (CL 3:1:6 WE). Prerequisites: Concurrent enrollment in or completion of DNP core leadership courses and DNP core evidence-based courses. The course uses the field of integrative health care as a venue for developing the student's role to improve health care for rural and vulnerable populations who have limited access to conventional health services by introducing change within existing health care systems. Students are provided the opportunity to observe, analyze, and experience various culturally-based modalities and non-traditional health practices. Critical reviews of the application of evidenced based research approaches to examine the effectiveness and safety of CAM in advanced nursing practice will be synthesized within an analysis of health care systems.

7331 Population Health at the Organizational & Public Policy Level (CL 3:1:6 WE). Prerequisites: Concurrent enrollment in or completion of DNP core leadership courses and DNP core evidence-based courses. The course provides nurse leaders in the DNP role with the skills to evaluate care delivery models and strategies related to community, environmental, occupational, cultural and socioeconomic dimensions of health. Students will learn to access and analyze population-level health data, design evidence-based interventions at the organizational and public policy level, and predict and analyze outcomes to improve population health.

7340 Emerging Issues in Advanced Practice (CL 3:2:3 WE). (Prerequisites: Concurrent enrollment in or completion of core leadership courses and core evidence-based courses) Healthcare is a rapidly evolving field with new issues and trends constantly emerging. This course will allow students to conduct an in-depth exploration of and synthesize emerging issues. Students will synthesize principles and concepts from prior courses to forecast the impact of emerging issues on current and future healthcare systems and design strategies to advance the care of individuals, aggregates or populations.

7341 Emerging Issues in Executive Leadership Practice (CL 3:2:3 WE). (Prerequisites: Concurrent enrollment in or completion of core leadership courses and core evidence-based courses.) Healthcare is a rapidly evolving field with new issues and trends constantly emerging. This course will allow students to conduct an in-depth exploration of and synthesized emerging issues. Students will synthesize principles and concepts from prior courses to forecast the impact of emerging issues on current and future healthcare systems and design strategies to advance the care of individuals, aggregates or populations.

7350 Capstone Project & Seminar (CL 3:1:6 WE). Prerequisites: Concurrent enrollment in or completion of DNP advanced APN or executive leadership specialization courses. The capstone project incorporates evidence-based strategies for implementing and achieving health care outcomes such as a significant pilot study, a program evaluation project, a quality improvement project, or a practice change initiative derived from translational science and the DNP role. The capstone project serves as a foundation for future scholarly practice and is reviewed and evaluated by an academic community. Students share issues in a seminar format as the project nears completion.

7351 DNP Practicum & Seminar (CL 3:0:9 WE). Prerequisites: Completion of DNP advanced APN or executive leadership specialization course. The course provides an end of program practice immersion experience to integrate and synthesize the essentials necessary to demonstrate competency in an area of specialized nursing practice in the DNP role. Proficiency may be acquired through a variety of methods such as in-depth case studies, patient or practice contact hours, completing and demonstrating specified projects or competencies, or a combination of these elements. Students share issues related to implementation of the DNP role in a seminar format.

TTUHSC SCHOOL OF NURSING FACULTY

Acton, Cindy, RN, DNP, CNA, BC, Assistant Professor – BSN (West Texas A&M), MSN (West Texas A&M), DNSc (Case Western Reserve University)

Allen, Patricia, RN, EdD, CNE, ANEF, Professor & Director of Center for Innovation in Nursing Education (CINE) – BSN (Old Dominion University), MSN (The Catholic University of America), PhD (Florida International University)

Andersen, Susan, RN, PhD, FNP-BC, Associate Professor – BA (Carleton College), RN (Mohawk College of Applied Arts and Technology), BSN (Lubbock Christian University), MSN (Texas Tech University Health Sciences Center), PhD (University of Texas Health Sciences Center at San Antonio)

Anderson, Amy, RN, MSN, Assistant Professor – BSN (Abilene Christian University), MSN (Abilene Christian University)

Armstrong, Myrna L., RN, EdD, FAAN, Professor & Regional Dean – Diploma (Walther Memorial Hospital), BSN (De Paul University), MS (De Paul University), EdD (East Texas State University)
