# Residency Events and News

This year, we have 40 residents in a variety of PGY1 pharmacy and PGY2 specialty programs on our Abilene, Amarillo, Dallas, and Lubbock campuses. The 2021-2022 TTUHSC Pharmacy Residency Class kicked off the year with the TTUHSC Jerry H. Hodge School of Pharmacy Residency Workshop hosted from July 21<sup>st</sup> – 23<sup>rd</sup>. The residency workshop included professional seminars ranging from maximizing learning experience during residency, reviewing the TTUHSC teaching program, precepting student learners, and conducting a research project. Even though this event was hosted through Techlink, all residents had the opportunity to get to know residents on other campuses. Due to the COVID-19 pandemic, residency events, especially social events, have looked extremely different. Despite the pandemic, residents have continued to show support to student pharmacists/future pharmacists by assisting with pharmacy school students events, serving as interviewers for mock interviews, facilitating career fair, and attending student organization meetings. We hope that by the end of this residency year, we will all be able to come together in person to celebrate the accomplishments that we achieve throughout this residency year!

## **New Resident Committees**

A social committee and a recruitment committee were created last year to help with virtual recruitment as the ASHP Midyear Clinical Meeting and several residency showcases were virtual. As things continue to move forward, we anticipate continuing the virtual platform for now, remain hopeful for potential in-person live events within the 2021-2022 year!
